In addition to the provisions of section 190.165, the department of health and senior services may refuse to issue, deny renewal of, or suspend a license required pursuant to section 190.109, or take other corrective actions as described in this section, based on the following considerations:

The nature of the agreement between the license holder and other license holders providing services to the affected area may include an agreement to provide services, a joint powers agreement, formal consideration, or some payment for services rendered.

5. 650.058. INDIVIDUALS WHO ARE ACTUALLY INNOCENT MAY RECEIVE RESTITUTION, AMOUNT, PETITION, DEFINITION, LIMITATIONS AND REQUIREMENTS — GUILT CONFIRMED BY DNA TESTING, PROCEDURES — PETITIONS FOR RESTITUTION — ORDER OF EXPUNGEMENT. — 1. Notwithstanding the sovereign immunity of the state, any individual who was found guilty of a felony in a Missouri court and was later determined to be actually innocent of such crime ~~[solely as a result of DNA profiling analysis]~~ may be paid restitution. The individual may receive an amount of one hundred **seventy-nine** dollars per day for each day of postconviction incarceration for the crime for which the individual is determined to be actually innocent. The petition for the payment of said restitution shall be filed with the sentencing court. For the purposes of this section, the term "actually innocent" shall mean:

(1) The individual was convicted of a felony for which a final order of release was entered by the court;

(2) All appeals of the order of release have been exhausted;

(3) The individual was not serving any term of a sentence for any other crime concurrently with the sentence for which he or she is determined to be actually innocent, unless such individual was serving another concurrent sentence because his or her parole was revoked by a court or the parole board in connection with the crime for which the person has been exonerated. Regardless of whether any other basis may exist for the revocation of the person's probation or parole at the time of conviction for the crime for which the person is later determined to be actually innocent, when the court's or the parole board's sole stated reason for the revocation in its order is the conviction for the crime for which the person is later determined to be actually innocent, such order shall, for purposes of this section only, be conclusive evidence that ~~[their]~~ **the persons's** probation or parole was revoked in connection with the crime for which the person has been exonerated; and

(4) Testing ordered under section 547.035, or testing by the order of any state or federal court, if such person was exonerated on or before August 28, 2004, or testing ordered under section 650.055, if such person was or is exonerated after August 28, 2004, **or after an evidentiary hearing and finding in a habeas corpus proceeding or a proceeding held pursuant to section 547.031 which** demonstrates a person's innocence of the crime for which the person is in custody.

Any individual who receives restitution under this section shall be prohibited from seeking any civil redress from the state, its departments and agencies, or any employee thereof, or any political subdivision or its employees. This section shall not be construed as a waiver of sovereign immunity for any purposes other than the restitution provided for herein. The department of corrections shall determine the aggregate amount of restitution owed during a fiscal year. If insufficient moneys are appropriated each fiscal year to pay restitution to such persons, the department shall pay each individual who has received an order awarding restitution a pro rata share of the amount appropriated. Provided sufficient moneys are appropriated to the department, the amounts owed to such individual shall be paid on June thirtieth of each subsequent fiscal year, until such time as the restitution to the individual has been paid in full. However, no individual awarded restitution under this subsection shall receive more than ~~[thirty-six]~~ **sixty-five** thousand ~~[five hundred]~~ dollars during each fiscal year. No interest on unpaid restitution shall be awarded to the individual. ~~[No individual who has been determined by the court to be actually innocent shall be responsible for the costs of care under section 217.831]~~ **However, an individual may**

also be awarded other nonmonetary relief, including counseling, housing assistance, and personal financial literacy assistance.

2. If the results of the DNA testing confirm the person's guilt, then the person filing for DNA testing under section 547.035, shall:

(1) Be liable for any reasonable costs incurred when conducting the DNA test, including but not limited to the cost of the test. Such costs shall be determined by the court and shall be included in the findings of fact and conclusions of law made by the court; and

(2) Be sanctioned under the provisions of section 217.262.

3. A petition for payment of restitution under this section may ~~[only]~~ be filed **only** by the individual determined to be actually innocent or the individual's legal guardian. No claim or petition for restitution under this section may be filed by the individual's heirs or assigns. An individual's right to receive restitution under this section is not assignable or otherwise transferrable. The state's obligation to pay restitution under this section shall cease upon the individual's death. Any beneficiary designation that purports to bequeath, assign, or otherwise convey the right to receive such restitution shall be void and unenforceable.

4. An individual who is determined to be actually innocent of a crime under this chapter shall automatically be granted an order of expungement from the court in which he or she pled guilty or was sentenced to expunge from all official records all recordations of his or her arrest, plea, trial or conviction. Upon **the court's** granting of the order of expungement, the records and files maintained in any administrative or court proceeding in an associate or circuit division of the court shall be confidential and ~~[only]~~ available **only** to the parties or by order of the court for good cause shown. The effect of such order shall be to restore such person to the status he or she occupied prior to such arrest, plea or conviction and as if such event had never taken place. No person as to whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of his or her failure to recite or acknowledge such arrest, plea, trial, conviction or expungement in response to any inquiry made of him or her for any purpose whatsoever and no such inquiry shall be made for information relating to an expungement under this section.

SECTION 1. SEVERABILITY CLAUSE FOR H.B. 495, 2025. — In the event that any section, provision, clause, phrase, or word of this act or the application thereof is declared invalid under the Constitution of the United States or the Constitution of the State of Missouri, it is the intent of the general assembly that the remaining sections of this act remain in force and effect as far as they are capable of being carried into execution as intended by the general assembly. The general assembly hereby declares that it would have passed each section, provision, clause, phrase, or word thereof, irrespective of the fact that any one or more sections, provisions, clauses, phrases, or words of this act or the application of this act would be declared unenforceable, unconstitutional, or invalid.

~~7. Employees shall not accrue earned paid sick time before May 1, 2025. Employees who are employed or who commence employment on or after May 1, 2025 shall accrue earned paid sick time and be entitled to use earned paid sick time as it is accrued in accordance with sections 290.600 through 290.642. 135.010. DEFINITIONS. — As used in sections 135.010 to 135.030 the following words and terms mean:

(1) "Claimant", a person or persons claiming a credit under sections 135.010 to 135.030. If the persons are eligible to file a joint federal income tax return and reside at the same address at any time during the taxable year, then the credit may only be allowed if claimed on a combined Missouri income tax return or a combined claim return reporting their combined incomes and property taxes. A claimant shall not be allowed a property tax credit unless the claimant or spouse has attained the age of sixty-five on or before the last day of the calendar year and the claimant or spouse was a resident of Missouri for the entire year, or the claimant or spouse is a veteran of any branch of the Armed Forces of the United States or this state who became one hundred percent disabled as a result of such service, or the claimant or spouse is disabled as defined in subdivision (2) of this section, and such claimant or spouse provides proof of such disability in such form and manner, and at such times, as the director of revenue may require, or if the claimant has reached the age of sixty on or before the last day of the calendar year and such claimant received surviving spouse Social Security benefits during the calendar year and the claimant provides proof, as required by the director of revenue, that the claimant received surviving spouse Social Security benefits during the calendar year for which the credit will be claimed. A claimant shall not be allowed a property tax credit if the claimant filed a valid claim for a credit under section 137.106 in the year following the year for which the property tax credit is claimed. The residency requirement shall be deemed to have been fulfilled for the purpose of determining the eligibility of a surviving spouse for a property tax credit if a person of the age of sixty-five years or older who would have otherwise met the requirements for a property tax credit dies before the last day of the calendar year. The residency requirement shall also be deemed to have been fulfilled for the purpose of determining the eligibility of a claimant who would have otherwise met the requirements for a property tax credit but who dies before the last day of the calendar year;

(2) "Disabled", the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than twelve months. A claimant shall not be required to be gainfully employed prior to such disability to qualify for a property tax credit;

(3) "Gross rent", amount paid by a claimant to a landlord for the rental, at arm's length, of a homestead during the calendar year, exclusive of charges for health and personal care services and food furnished as part of the rental agreement, whether or not expressly set out in the rental agreement. If the director of revenue determines that the landlord and tenant have not dealt at arm's length, and that the gross rent is excessive, then he shall determine the gross rent based upon a reasonable amount of rent. Gross rent shall be deemed to be paid only if actually paid prior to the date a return is filed. The director of revenue may prescribe regulations requiring a return of information by a landlord receiving rent, certifying for a calendar year the amount of gross rent received from a tenant claiming a property tax credit and shall, by regulation, provide a method for certification by the claimant of the amount of gross rent paid for any calendar year for which a claim is made. The regulations authorized by this subdivision may require a landlord or a tenant or both to provide data relating to health and personal care services and to food. Neither a landlord nor a tenant may be required to provide data relating to utilities, furniture, home furnishings or appliances;

(4) "Homestead", the dwelling in Missouri owned or rented by the claimant and not to exceed five acres of land surrounding it as is reasonably necessary for use of the dwelling as a home. It may consist of part of a multidwelling or multipurpose building and part of the land upon which it is built. "Owned" includes a vendee in possession under a land contract and one or more tenants by the entireties, joint tenants, or tenants in common and includes a claimant actually in possession if he was the immediate former owner of record, if a lineal descendant is presently the owner of record, and if the claimant actually pays all taxes upon the property. It may include a mobile home;

(5) "Income", Missouri adjusted gross income as defined in section 143.121 less two thousand dollars **for all calendar years ending on or before December 31, 2025**, or in the case of a homestead owned and occupied, for the entire year, by the claimant, less four thousand dollars as an exemption for the claimant's spouse residing at the same address[;] **for all calendar years ending on or before December 31, 2025, or for all calendar years beginning on or after January 1, 2026, less two thousand eight hundred dollars, or in the case of a homestead owned and occupied, for the entire year, by the claimant, less five thousand eight hundred dollars, as an exemption for the claimant's spouse residing at the same address;** and increased, where necessary, to reflect the following:

(a) Social Security, railroad retirement, and veterans payments and benefits unless the claimant is a one hundred percent service-connected, disabled veteran or a spouse of a one hundred percent service-connected, disabled veteran. The one hundred percent service-connected disabled veteran shall not be required to list veterans payments and benefits;

(b) The total amount of all other public and private pensions and annuities;

(c) Public relief, public assistance, and unemployment benefits received in cash, other than benefits received under this chapter;

(d) No deduction being allowed for losses not incurred in a trade or business;

(e) Interest on the obligations of the United States, any state, or any of their subdivisions and instrumentalities;

(6) "Property taxes accrued", property taxes paid, exclusive of special assessments, penalties, interest, and charges for service levied on a claimant's homestead in any calendar year. Property taxes shall qualify for the credit only if actually paid prior to the date a return is filed. The director of revenue shall require a tax receipt or other proof of property tax payment. If a homestead is owned only partially by claimant, then "property taxes accrued" is that part of property taxes levied on the homestead which was actually paid by the claimant. For purposes of this subdivision, property taxes are "levied" when the tax roll is delivered to the director of revenue for collection. If a claimant owns a homestead part of the preceding calendar year and rents it or a different homestead for part of the same year, "property taxes accrued" means only taxes levied on the homestead both owned and occupied by the claimant, multiplied by the percentage of twelve months that such property was owned and occupied as the homestead of the claimant during the year. When a claimant owns and occupies two or more different homesteads in the same calendar year, property taxes accrued shall be the sum of taxes allocable to those several properties occupied by the claimant as a homestead for the year. If a homestead is an integral part of a larger unit such as a farm, or multipurpose or multidwelling building, property taxes accrued shall be that percentage of the total property taxes accrued as the value of the homestead is of the total value. For purposes of this subdivision "unit" refers to the parcel of property covered by a single tax statement of which the homestead is a part;

(7) "Rent constituting property taxes accrued", twenty percent of the gross rent paid by a claimant and spouse in the calendar year.

135.025. ACCRUED TAXES AND RENT CONSTITUTING TAXES TO BE TOTALED — MAXIMUM AMOUNT ALLOWABLE — ALLOCATION REGULATIONS, WHEN. — The property taxes accrued and rent constituting property taxes accrued on each return shall be totaled. This total, up to seven hundred fifty dollars in rent constituting property taxes actually paid or eleven hundred dollars in actual property tax paid, shall be used in determining the property tax credit **for all calendar years ending on or before December 31, 2025. For all calendar years beginning on or after January 1, 2026, this total, up to one thousand fifty-five dollars in rent constituting property taxes actually paid or one thousand five hundred fifty dollars in actual property tax paid,** shall be used in determining the property tax credit. Beginning January 1, 2027, the property tax credit totals under this section shall be adjusted annually for inflation based on the Consumer Price Index for All Urban Consumers for the Midwest Region, as defined and officially recorded by the United States Department of Labor or its successor. The director of revenue shall prescribe regulations providing for allocations where part of a claimant's homestead is rented to another or used for nondwelling purposes or where a homestead is owned or rented or used as a dwelling for part of a year.

135.030. FORMULA FOR DETERMINING CREDITS — TABLE TO BE PREPARED BY DIRECTOR OF REVENUE — TAXPAYER NOT APPLYING FOR CREDIT TO BE NOTIFIED OF ELIGIBILITY. — 1. As used in this section:

(1) The term "maximum upper limit" shall, for each calendar year after December 31, 1997, but before calendar year 2008, be the sum of twenty-five thousand dollars. As used in this subsection, the term "accumulative" means an increase by continuous or repeated application of the percent to the income increment at each four hundred ninety-five dollar level, as adjusted pursuant to this subdivision.

4. (2) The ambulance or fire protection district first adopts the tax rate ceiling otherwise authorized by other laws of this state; and

(3) The levy adjustment or reduction may include a one-time correction to recoup lost revenues the ambulance or fire protection district was entitled to receive during the prior year.

 - (4) Data regarding all evaluation metrics shall be collected by the division on a monthly basis, and the division shall issue a quarterly report regarding the evaluation data for each provider, both public and private, by county. (3) Develop a system for reviewing and working with providers identified under subdivision (2) of this subsection or providers who request such assistance from the division who show signs of performance weakness to ensure technical assistance and other services are offered to assist the providers in achieving successful outcomes for their cases.

The children's division and any other state agency deemed necessary by the division shall, in consultation with service providers and other relevant parties, enter into and implement contracts with qualified children's services providers and agencies to provide a comprehensive and deliberate system of service delivery for children and their families. EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.

6. Payment to the children's services providers and agencies shall be made based on the reasonable costs of services, including responsibilities necessary to execute the contract. Any reimbursement increases made through enhanced appropriations for services shall be allocated to providers regardless of whether the provider is public or private. Such increases shall be considered additive to the existing contracts. In addition to payments reflecting the cost of services, contracts shall include incentives provided in recognition of performance based on the evaluation tool created under subsection 2 of this section and the corresponding savings for the state. The response and evaluation team under subsection 3 of this section shall review a formula to distribute such payments, as recommended by the division.

(2) Promoting the preservation and reunification of children and families consistent with state and federal law;

(3) Providing due process for those accused of child abuse or neglect; and

(4) Maintaining an information system operating at all times, capable of receiving and maintaining reports. This information system shall have the ability to receive reports over a single, statewide toll-free number. Such information system shall maintain the results of all investigations, family assessments and services, and other relevant information.

2. (1) The division shall utilize structured decision-making protocols, including a standard risk assessment that shall be completed within seventy-two hours of the report of abuse or neglect, for classification purposes of all child abuse and neglect reports. The protocols developed by the division shall give priority to ensuring the well-being and safety of the child. All child abuse and neglect reports shall be initiated within twenty-four hours and shall be classified based upon the

reported risk and injury to the child. The division shall promulgate rules regarding the structured decision-making protocols to be utilized for all child abuse and neglect reports.

(2) The director of the division and the office of state courts administrator shall develop a joint safety assessment tool before December 31, 2020, and such tool shall be implemented before January 1, 2022. The safety assessment tool shall replace the standard risk assessment required under subdivision (1) of this subsection and shall also be completed within seventy-two hours of the report of abuse or neglect.

3. Upon receipt of a report, the division shall determine if the report merits investigation, including reports which if true would constitute a suspected violation of any of the following: section 565.020, 565.021, 565.023, 565.024, or 565.050 if the victim is a child less than eighteen years of age, section 566.030 or 566.060 if the victim is a child less than eighteen years of age, or other crimes under chapter 566 if the victim is a child less than eighteen years of age and the perpetrator is twenty-one years of age or older, section 567.050 if the victim is a child less than eighteen years of age, section 568.020, 568.030, 568.045, 568.050, 568.060, 573.200, or 573.205, section 573.025, 573.035, 573.037, or 573.040, or an attempt to commit any such crimes. The division shall immediately communicate all reports that merit investigation to its appropriate local office and any relevant information as may be contained in the information system. The local division staff shall determine, through the use of protocols developed by the division, whether an investigation or the family assessment and services approach should be used to respond to the allegation. The protocols developed by the division shall give priority to ensuring the well-being and safety of the child.

4. The division may accept a report for investigation or family assessment if either the child or alleged perpetrator resides in Missouri, may be found in Missouri, or if the incident occurred in Missouri.

5. If the division receives a report in which neither the child nor the alleged perpetrator resides in Missouri or may be found in Missouri and the incident did not occur in Missouri, the division shall document the report and communicate it to the appropriate agency or agencies in the state where the child is believed to be located, along with any relevant information or records as may be contained in the division's information system.

6. When the child abuse and neglect hotline receives three or more calls, within a seventy-two hour period, from one or more individuals concerning the same child, the division shall conduct a review to determine whether the calls meet the criteria and statutory definition for a child abuse and neglect report to be accepted. In conducting the review, the division shall contact the hotline caller or callers in order to collect information to determine whether the calls meet the criteria for harassment.

7. The local office shall contact the appropriate law enforcement agency immediately upon receipt of a report which division personnel determine merits an investigation and provide such agency with a detailed description of the report received. In such cases the local division office shall request the assistance of the local law enforcement agency in all aspects of the investigation of the complaint. The appropriate law enforcement agency shall either assist the division in the investigation or provide the division, within twenty-four hours, an explanation in writing detailing the reasons why it is unable to assist.

8. **(1)** The local office of the division shall cause an investigation or family assessment and services approach to be initiated in accordance with the protocols established in subsection 2 of this section, except in cases where the sole basis for the report is educational neglect. If the report indicates that educational neglect is the only complaint and there is no suspicion of other neglect or abuse, the investigation shall be initiated within seventy-two hours of receipt of the report. If

the report indicates the child is in danger of serious physical harm or threat to life, an investigation shall include direct observation of the subject child within twenty-four hours of the receipt of the report. Local law enforcement shall take all necessary steps to facilitate such direct observation. Callers to the child abuse and neglect hotline shall be instructed by the division's hotline to call 911 in instances where the child may be in immediate danger. If the parents of the child are not the alleged perpetrators, a parent of the child must be notified prior to the child being interviewed by the division. No person responding to or investigating a child abuse and neglect report shall call prior to a home visit or leave any documentation of any attempted visit, such as business cards, pamphlets, or other similar identifying information if he or she has a reasonable basis to believe the following factors are present:

- ~~[(1)]~~ (a) **a.** No person is present in the home at the time of the home visit; and
- ~~[(1)]~~ **b.** The alleged perpetrator resides in the home or the physical safety of the child may be compromised if the alleged perpetrator becomes aware of the attempted visit;
- ~~[(2)]~~ **(b)** The alleged perpetrator will be alerted regarding the attempted visit; or
- ~~[(3)]~~ **(c)** The family has a history of domestic violence or fleeing the community.

(2) If the division is responding to an investigation of abuse or neglect, the person responding shall first ensure safety of the child through direct observation and communication with the child. If the **parent or** alleged perpetrator is present during a visit by the person responding to or investigating the report, such person shall **present identification and verbally identify himself or herself and his or her role in the investigation and shall** provide written material to the **parent or** alleged perpetrator informing him or her of his or her rights regarding such visit, including but not limited to the right to contact an attorney. The **parent or** alleged perpetrator shall be given a reasonable amount of time to read such written material or have such material read to him or her by the case worker before the visit commences, but in no event shall such time exceed five minutes; except that, such requirement to provide written material and reasonable time to read such material shall not apply in cases where the child faces an immediate threat or danger, or the person responding to or investigating the report is or feels threatened or in danger of physical harm. If the abuse is alleged to have occurred in a school or child care facility the division shall not meet with the child in any school building or child-care facility building where abuse of such child is alleged to have occurred. When the child is reported absent from the residence, the location and the well-being of the child shall be verified. For purposes of this subsection, "child care facility" shall have the same meaning as such term is defined in section 210.201.

(3) If the division is responding to an assessment of abuse or neglect, the person responding shall present identification and verbally identify himself or herself and his or her role in the investigation and provide a parent of the child with notification prior to the child being interviewed by the person responding and shall provide written material to the parent informing him or her of his or her rights regarding such visit, including, but not limited to, the right to contact an attorney. The parent shall be given a reasonable amount of time to read such written material or have such material read to him or her by the case worker before the visit commences, but in no event shall such time exceed five minutes; except that, such requirement to provide written material and reasonable time to read such material shall not apply in cases where the child faces immediate threat or danger, the person responding to or investigating the report is or feels threatened or in danger of physical harm, or any of the exceptions in subdivision (1) of this subsection would apply.

9. The director of the division shall name at least one chief investigator for each local division office, who shall direct the division response on any case involving a second or subsequent incident

regarding the same subject child or perpetrator. The duties of a chief investigator shall include verification of direct observation of the subject child by the division and shall ensure information regarding the status of an investigation is provided to the public school district liaison. The public school district liaison shall develop protocol in conjunction with the chief investigator to ensure information regarding an investigation is shared with appropriate school personnel. The superintendent of each school district shall designate a specific person or persons to act as the public school district liaison. Should the subject child attend a nonpublic school the chief investigator shall notify the school principal of the investigation. Upon notification of an investigation, all information received by the public school district liaison or the school shall be subject to the provisions of the federal Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. Section 1232g, and federal rule 34 C.F.R. Part 99.

10. The investigation shall include but not be limited to the nature, extent, and cause of the abuse or neglect; the identity and age of the person responsible for the abuse or neglect; the names and conditions of other children in the home, if any; the home environment and the relationship of the subject child to the parents or other persons responsible for the child's care; any indication of incidents of physical violence against any other household or family member; and other pertinent data.

11. When a report has been made by a person required to report under section 210.115, the division shall contact the person who made such report within forty-eight hours of the receipt of the report in order to ensure that full information has been received and to obtain any additional information or medical records, or both, that may be pertinent.

12. Upon completion of the investigation, if the division suspects that the report was made maliciously or for the purpose of harassment, the division shall refer the report and any evidence of malice or harassment to the local prosecuting or circuit attorney.

13. Multidisciplinary teams shall be used whenever conducting the investigation as determined by the division in conjunction with local law enforcement. Multidisciplinary teams shall be used in providing protective or preventive social services, including the services of law enforcement, a liaison of the local public school, the juvenile officer, the juvenile court, and other agencies, both public and private.

14. For all family support team meetings involving an alleged victim of child abuse or neglect, the parents, legal counsel for the parents, foster parents, the legal guardian or custodian of the child, the guardian ad litem for the child, **the child's counsel**, and the volunteer advocate for the child shall be provided notice and be permitted to attend all such meetings. Family members, other than alleged perpetrators, or other community informal or formal service providers that provide significant support to the child and other individuals may also be invited at the discretion of the parents of the child. In addition, the parents, the legal counsel for the parents, the legal guardian or custodian and the foster parents may request that other individuals, other than alleged perpetrators, be permitted to attend such team meetings. Once a person is provided notice of or attends such team meetings, the division or the convenor of the meeting shall provide such persons with notice of all such subsequent meetings involving the child. Families may determine whether individuals invited at their discretion shall continue to be invited.

15. If the appropriate local division personnel determine after an investigation has begun that completing an investigation is not appropriate, the division shall conduct a family assessment and services approach. The division shall provide written notification to local law enforcement prior to terminating any investigative process. The reason for the termination of the investigative process shall be documented in the record of the division and the written notification submitted to

local law enforcement. Such notification shall not preclude nor prevent any investigation by law enforcement.

16. If the appropriate local division personnel determines to use a family assessment and services approach, the division shall:

(1) Assess any service needs of the family. The assessment of risk and service needs shall be based on information gathered from the family and other sources;

(2) Provide services which are voluntary and time-limited unless it is determined by the division based on the assessment of risk that there will be a high risk of abuse or neglect if the family refuses to accept the services. The division shall identify services for families where it is determined that the child is at high risk of future abuse or neglect. The division shall thoroughly document in the record its attempt to provide voluntary services and the reasons these services are important to reduce the risk of future abuse or neglect to the child. If the family continues to refuse voluntary services or the child needs to be protected, the division may commence an investigation;

(3) Commence an immediate investigation if at any time during the family assessment and services approach the division determines that an investigation, as delineated in sections 210.109 to 210.183, is required. The division staff who have conducted the assessment may remain involved in the provision of services to the child and family;

(4) Document at the time the case is closed, the outcome of the family assessment and services approach, any service provided and the removal of risk to the child, if it existed.

17. (1) Within forty-five days of an oral report of abuse or neglect, the local office shall update the information in the information system. The information system shall contain, at a minimum, the determination made by the division as a result of the investigation, identifying information on the subjects of the report, those responsible for the care of the subject child and other relevant dispositional information. The division shall complete all investigations within forty-five days, unless good cause for the failure to complete the investigation is specifically documented in the information system. Good cause for failure to complete an investigation shall include, but not be limited to:

(a) The necessity to obtain relevant reports of medical providers, medical examiners, psychological testing, law enforcement agencies, forensic testing, and analysis of relevant evidence by third parties which has not been completed and provided to the division;

(b) The attorney general or the prosecuting or circuit attorney of the city or county in which a criminal investigation is pending certifies in writing to the division that there is a pending criminal investigation of the incident under investigation by the division and the issuing of a decision by the division will adversely impact the progress of the investigation; or

(c) The child victim, the subject of the investigation or another witness with information relevant to the investigation is unable or temporarily unwilling to provide complete information within the specified time frames due to illness, injury, unavailability, mental capacity, age, developmental disability, or other cause.

The division shall document any such reasons for failure to complete the investigation.

(2) If a child fatality or near-fatality is involved in a report of abuse or neglect, the investigation shall remain open until the division's investigation surrounding such death or near-fatal injury is completed.

(3) If the investigation is not completed within forty-five days, the information system shall be updated at regular intervals and upon the completion of the investigation, which shall be completed no later than ninety days after receipt of a report of abuse or neglect, or one hundred twenty days after receipt of a report of abuse or neglect involving sexual abuse, or until the

division's investigation is complete in cases involving a child fatality or near-fatality. The information in the information system shall be updated to reflect any subsequent findings, including any changes to the findings based on an administrative or judicial hearing on the matter.

18. A person required to report under section 210.115 to the division and any person making a report of child abuse or neglect made to the division which is not made anonymously shall be informed by the division of his or her right to obtain information concerning the disposition of his or her report. Such person shall receive, from the local office, if requested, information on the general disposition of his or her report. Such person may receive, if requested, findings and information concerning the case. Such release of information shall be at the discretion of the director based upon a review of the reporter's ability to assist in protecting the child or the potential harm to the child or other children within the family. The local office shall respond to the request within forty-five days. The findings shall be made available to the reporter within five days of the outcome of the investigation. If the report is determined to be unsubstantiated, the reporter may request that the report be referred by the division to the office of child advocate for children's protection and services established in sections 37.700 to 37.730. Upon request by a reporter under this subsection, the division shall refer an unsubstantiated report of child abuse or neglect to the office of child advocate for children's protection and services.

19. The division shall provide to any individual who is not satisfied with the results of an investigation information about the office of child advocate and the services it may provide under sections 37.700 to 37.730.

20. In any judicial proceeding involving the custody of a child the fact that a report may have been made pursuant to sections 210.109 to 210.183 shall not be admissible. However:

(1) Nothing in this subsection shall prohibit the introduction of evidence from independent sources to support the allegations that may have caused a report to have been made; and

(2) The court may on its own motion, or shall if requested by a party to the proceeding, make an inquiry not on the record with the children's division to determine if such a report has been made.

If a report has been made, the court may stay the custody proceeding until the children's division completes its investigation.

21. Nothing in this chapter shall be construed to prohibit the children's division from coinvestigating a report of child abuse or neglect or sharing records and information with child welfare, law enforcement, or judicial officers of another state, territory, or nation if the children's division determines it is appropriate to do so under the standard set forth in subsection 4 of section 210.150 and if such receiving agency is exercising its authority under the law.

22. In any judicial proceeding involving the custody of a child where the court determines that the child is in need of services under paragraph (d) of subdivision (1) of subsection 1 of section 211.031 and has taken jurisdiction, the child's parent, guardian or custodian shall not be entered into the registry.

23. The children's division is hereby granted the authority to promulgate rules and regulations pursuant to the provisions of section 207.021 and chapter 536 to carry out the provisions of sections 210.109 to 210.183.

24. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are

(2) Counsel shall represent the child at all stages of the proceeding, including appeal. The child and the child's parent or guardian shall not be represented by the same counsel.

(3) A guardian ad litem appointed for a child under this section shall transition to serving as the child's counsel upon the child's fourteenth birthday, provided that the proceeding for which the guardian ad litem was appointed is ongoing. The transition shall occur unless the judge finds it necessary to continue the guardian ad litem appointment if it is determined that the child is at risk for substantial physical, financial, or other harm and cannot adequately act in his or her own interests or if those responsible for the care, custody, and control of the child have been and still are under the jurisdiction of the department of corrections; provided, however, a judge may appoint the child counsel in addition to a guardian ad litem.

(4) The judge may appoint the same attorney to serve as guardian ad litem for children in a sibling group who are under fourteen years of age as the attorney serving as child's counsel for any sibling at least fourteen but less than eighteen years of age; provided that the attorney or judge does not find a conflict of interest in such appointment.

(5) In the event that a child's counsel is appointed under this subsection, the court may appoint or continue the appointment of a volunteer advocate, who shall be governed by the provisions of this section.

(6) Either sua sponte or upon the motion of a party, the judge shall issue an order of appointment for the child's counsel no later than thirty days of the filing of the motion and the counsel shall notify the parties of the change in appointment.

(7) In any court case or proceeding in which child's counsel is appointed by court, the court shall set a reasonable fee for such services. The court shall award such fees as a judgment to be paid by the state from funds appropriated by the legislature to the judicial branch for such purpose.

4. The guardian ad litem and child's counsel shall be provided with all reports relevant to the case made to or by any agency or person, shall have access to all records of such agencies or persons relating to the child or such child's family members or placements of the child, and upon appointment by the court to a case, shall be informed of and have the right to attend any and all family support team meetings involving the child. Employees of the division, officers of the court, and employees of any agency involved shall fully inform the guardian ad litem and child's counsel of all aspects of the case of which they have knowledge or belief.

[4-] 5. The appointing judge shall require the guardian ad litem or the child's counsel to faithfully discharge such guardian ad litem's or the counsel's duties, and upon failure to do so shall discharge such guardian ad litem or counsel and appoint another. The appointing judge shall have the authority to examine the general and criminal background of persons appointed as guardians ad litem and children's counsel, including utilization of the family care safety registry and access line pursuant to sections 210.900 to 210.937, to ensure the safety and welfare of the children such persons are appointed to represent. The judge in making appointments pursuant to this section shall give preference to persons who served as guardian ad litem or child's counsel for the child in the earlier proceeding, unless there is a reason on the record for not giving such preference.

[5-] 6. The guardian ad litem may be awarded a reasonable fee for such services to be set by the court. The court, in its discretion, may award such fees as a judgment to be paid by any party to the proceedings or from public funds. However, no fees as a judgment shall be taxed against a party or parties who have not been found to have abused or neglected a child or children. Such an award of guardian fees shall constitute a final judgment in favor of the guardian ad litem. Such final judgment shall be enforceable against the parties in accordance with chapter 513.

[6-] 7. The court may designate volunteer advocates, who may or may not be attorneys licensed to practice law, to assist in the performance of the guardian ad litem duties for the court. Nonattorney volunteer advocates shall not provide legal representation. The court shall have the authority to examine the general and criminal background of persons designated as volunteer advocates, including utilization of the family care safety registry and access line pursuant to sections 210.900 to 210.937, to ensure the safety and welfare of the children such persons are designated to represent. The volunteer advocate shall be provided with all reports relevant to the case made to or by any agency or person, shall have access to all records of such agencies or persons relating to the child or such child's family members or placements of the child, and upon designation by the court to a case, shall be informed of and have the right to attend any and all family support team meetings involving the child. Any such designated person shall receive no compensation from public funds. This shall not preclude reimbursement for reasonable expenses.

[7-] 8. Any person appointed to perform guardian ad litem or children's counsel duties shall have completed a training program in permanency planning and shall advocate for timely court hearings whenever possible to attain permanency for a child as expeditiously as possible to reduce the effects that prolonged foster care may have on a child. A nonattorney volunteer advocate shall have access to a court appointed attorney guardian ad litem or child's counsel should the circumstances of the particular case so require.

The Missouri state government shall not require a trustee or a financial institution acting as a trustee to exercise any discretionary powers in the operation of a trust.

3. (1) The division may accept an appointment to serve as representative payee or fiduciary, or in a similar capacity for payments to a child under any public or private benefit arrangement. Money so received shall be governed by this section to the extent that laws and regulations governing payment of such benefits provide otherwise.

(2) **In the case of benefits administered by the U.S. Railroad Retirement Board, the Social Security Administration, or the Veterans Administration, the division shall determine whether the child is receiving or otherwise eligible to receive such benefits within sixty days after the child is placed in the division's custody. If the division determines that the child is eligible or may be eligible for the benefits, the division shall apply for the benefits on behalf of the child. If the child is already receiving the benefits before being placed in the division's custody or if the division applies for the benefits on behalf of the child, the division shall identify, in consultation with the child and the child's guardian ad litem, a representative payee in accordance with 20 CFR 404.2021 and 20 CFR 416.621 and shall apply to become the representative payee only if no other suitable candidate is available. The division shall annually review if someone other than the division is available, if in the best interests of the child, to apply to assume the role of representative payee.**

(3) The division shall annually review cases of children in the division's custody to determine whether a child may have become eligible for benefits after the division's initial assessment.

4. Any money received by the division on behalf of a child shall be accounted for in the name of the child. 5. The division shall deposit money with a financial institution. Any earnings attributable to the money in the account of a child shall be credited to that child's account. The division shall receive bids from banking corporations, associations or trust companies which desire to be selected as depositories of children's moneys for the division. **The child's account shall be established in a manner consistent with federal and state asset and resource limits and may include a special needs trust, a pooled special needs trust, an ABLE account as defined in section 209.600, or any other trust account determined not to interfere with asset limitations for any state or federal benefit program for which the child may be eligible.**

6. The division may accept funds which a parent, guardian or other person wishes to provide for the use or benefit of the child. The use and deposit of such funds shall be governed by this section and any additional directions given by the provider of the funds.

7. Each child for whose benefit funds have been received by the division ~~and~~, the guardian ad litem of such child, **and the child's counsel** shall be furnished annually with a statement listing all transactions involving the funds which have been deposited on the child's behalf, to include each receipt and disbursement.

8. The division shall use all proper diligence to dispose of the balance of money accumulated in the child's account when the child is released from the care and custody of the division or the child dies. When the child is deceased the balance shall be disposed of as provided by law for descent and distribution. If, after the division has diligently used such methods and means as considered reasonable to refund such funds, there shall remain any money, the owner of which is unknown to the division, or if known, cannot be located by the division, in each and every such instance such money shall escheat and vest in the state of Missouri, and the director and officials of the division shall pay the same to the state director of the department of revenue, taking a receipt therefor, who shall deposit the money in the state treasury to be credited to a fund to be designated as "escheat".

9. Within five years after money has been paid into the state treasury, any person who appears and claims the money may file a petition in the circuit court of Cole County, Missouri, stating the nature of the claim and praying that such money be paid to him. A copy of the petition shall be served upon the director of the department of revenue who shall file an answer to the same. The court shall proceed to examine the claim and the allegations and proof, and if it finds that such person is entitled to any money so paid into the state treasury, it shall order the commissioner of administration to issue a warrant on the state treasurer for the amount of such claim, but without interest or costs. A certified copy of the order shall be sufficient voucher for issuing a warrant;

provided, that either party may appeal from the decision of the court in the same manner as provided by law in other civil actions.

10. All moneys paid into the state treasury under the provisions of this section after remaining there unclaimed for five years shall escheat and vest absolutely in the state and be credited to the state treasury, and all persons shall be forever barred and precluded from setting up title or claim to any such funds.

11. Nothing in this section shall be deemed to apply to funds regularly due the state of Missouri for the support and maintenance of children in the care and custody of the division or collected by the state of Missouri as reimbursement for state funds expended on behalf of the child.

12. (1) **Subject to appropriation, the department of social services shall have the authority to enter into contracts with private individuals, law firms, not-for-profit corporations, or partnerships to apply for benefits on behalf of a child in its custody or under its court-ordered supervision pursuant to chapter 211 for the benefits administered by the U.S. Railroad Retirement Board, the Social Security Administration, or the Veterans Administration, and to establish accounts as set forth in subsection 5 of this section.**

(2) **The department may promulgate all necessary rules and regulations for the administration of this subsection. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2025, shall be invalid and void.**

210.565. RELATIVES OF CHILD SHALL BE GIVEN FOSTER HOME PLACEMENT, WHEN — DEFINITIONS — ORDER OF PREFERENCE — SPECIFIC FINDINGS REQUIRED, WHEN — SIBLING PLACEMENT — AGE OF RELATIVE NOT A FACTOR, WHEN — FEDERAL REQUIREMENTS TO BE FOLLOWED FOR PLACEMENT OF NATIVE AMERICAN CHILDREN — WAIVER OF CERTAIN STANDARDS, WHEN — GAL OR COUNSEL TO ASCERTAIN CHILD'S WISHES, WHEN. — 1. Whenever a child is placed in a foster home and the court has determined pursuant to subsection 4 of this section that foster home placement with relatives is not contrary to the best interest of the child, the children's division shall give foster home placement to relatives of the child. Notwithstanding any rule of the division to the contrary and under section 210.305, the children's division shall complete a diligent search to locate and notify the grandparents, adult siblings, parents of siblings of the child, and all other relatives and determine whether they wish to be considered for placement of the child. Grandparents who request consideration shall be given preference and first consideration for foster home placement of the child. If more than one grandparent requests consideration, the family support team shall make recommendations to the juvenile or family court about which grandparent should be considered for placement.

2. As used in this section, the following terms shall mean:

(1) "Adult sibling", any brother or sister of whole or half-blood who is at least eighteen years of age;

(2) "Relative", a grandparent or any other person related to another by blood or affinity or a person who is not so related to the child but has a close relationship with the child or the child's family. A foster parent or kinship caregiver with whom a child has resided for nine months or

more is a person who has a close relationship with the child. The status of a grandparent shall not be affected by the death or the dissolution of the marriage of a son or daughter;

(3) "Sibling", one of two or more individuals who have one or both parents in common through blood, marriage, or adoption, including siblings as defined by the child's tribal code or custom.

3. The following shall be the order or preference for placement of a child under this section:

(1) Grandparents;

(2) Adult siblings or parents of siblings;

(3) Relatives; and

(4) Any foster parent who is currently licensed and capable of accepting placement of the child.

4. The preference for placement and first consideration for grandparents or preference for placement with other relatives created by this section shall only apply where the court finds that placement with such grandparents or other relatives is not contrary to the best interest of the child considering all circumstances. If the court finds that it is contrary to the best interest of a child to be placed with grandparents or other relatives, the court shall make specific findings on the record detailing the reasons why the best interests of the child necessitate placement of the child with persons other than grandparents or other relatives. Absent evidence to the contrary, the court may presume that continuation of the child's placement with his or her current caregivers is in the child's best interests.

5. Recognizing the critical nature of sibling bonds for children, the children's division shall make reasonable efforts to place siblings in the same foster care, kinship, guardianship, or adoptive placement, unless doing so would be contrary to the safety or well-being of any of the siblings. If siblings are not placed together, the children's division shall make reasonable efforts to provide frequent visitation or other ongoing interaction between the siblings, unless this interaction would be contrary to a sibling's safety or well-being.

6. The age of the child's grandparent or other relative shall not be the only factor that the children's division takes into consideration when it makes placement decisions and recommendations to the court about placing the child with such grandparent or other relative.

7. For any Native American child placed in protective custody, the children's division shall comply with the placement requirements set forth in 25 U.S.C. Section 1915.

8. A grandparent or other relative may, on a case-by-case basis, have standards for licensure not related to safety waived for specific children in care that would otherwise impede licensing of the grandparent's or relative's home. In addition, any person receiving a preference may be licensed in an expedited manner if a child is placed under such person's care.

9. The guardian ad litem or **child's counsel** shall ascertain the child's wishes and feelings about his or her placement by conducting an interview or interviews with the child, if appropriate based on the child's age and maturity level, which shall be considered as a factor in placement decisions and recommendations, but shall not supersede the preference for relative placement created by this section or be contrary to the child's best interests.

210.762. FAMILY SUPPORT TEAM MEETINGS TO BE HELD, WHEN — WHO MAY ATTEND — FORM TO BE USED. — 1. When a child is taken into custody by a juvenile officer or law enforcement official under subdivision (1) of subsection 1 of section 211.031 and initially placed with the division, the division may make a temporary placement and shall arrange for a family support team meeting prior to or within twenty-four hours following the protective custody hearing held under section 211.032. After a child is in the division's custody and a temporary placement

has been made, the division shall arrange an additional family support team meeting prior to taking any action relating to the placement of such child; except that, when the welfare of a child in the custody of the division requires an immediate or emergency change of placement, the division may make a temporary placement and shall schedule a family support team meeting within seventy-two hours. The requirement for a family support team meeting shall not apply when the parent has consented in writing to the termination of his or her parental rights in conjunction with a placement in a licensed child-placing agency under subsection 6 of section 453.010.

2. The parents, the legal counsel for the parents, the foster parents, the legal guardian or custodian of the child, the guardian ad litem for the child, **the child's counsel**, and the volunteer advocate, and any designee of the parent that has written authorization shall be notified and invited to participate in all family support team meetings. The family support team meeting may include such other persons whose attendance at the meeting may assist the team in making appropriate decisions in the best interests of the child. If the division finds that it is not in the best interest of a child to be placed with relatives, the division shall make specific findings in the division's report detailing the reasons why the best interests of the child necessitate placement of the child with persons other than relatives.

3. The division shall use the form created in subsection 2 of section 210.147 to be signed upon the conclusion of the meeting pursuant to subsection 1 of this section confirming that all involved parties are aware of the team's decision regarding the custody and placement of the child. Any dissenting views must be recorded and attested to on such form.

4. The case manager shall be responsible for including such form with the case records of the child.

210.1012. AMBER ALERT SYSTEM CREATED — DEPARTMENT TO DEVELOP SYSTEM REGIONS — FALSE REPORT, PENALTY. — 1. (4) Reasonably believed to be a victim of an offense of trafficking pursuant to section 566.206, 566.209, 566.210, or 566.211.

3. The department of public safety shall develop regions to provide the system. The department of public safety shall coordinate local law enforcement agencies and public commercial television and radio broadcasters to provide an effective system. In the event that a local law enforcement agency opts not to set up a system and an abduction occurs within the jurisdiction, it shall notify the department of public safety who will notify local media in the region.

4. The Amber alert system shall include all state agencies capable of providing urgent and timely information to the public together with broadcasters and other private entities that volunteer to participate in the dissemination of urgent public information. At a minimum, the Amber alert

6. Participation in an Amber alert system is entirely at the option of local law enforcement agencies and federally licensed radio and television broadcasters.

7. Any person who knowingly makes a false report that triggers an alert pursuant to this section is guilty of a class A misdemeanor.

8. The department of public safety shall not discriminate against any person because of race, color, religion, national origin, ancestry, sex, disability, or familial status when coordinating with local law enforcement agencies and public commercial television and radio broadcasters to provide an effective system.

211.032. CHILD ABUSE AND NEGLECT HEARINGS, WHEN HELD, PROCEDURE — SUPREME COURT RULES TO BE PROMULGATED — TRANSFER OF SCHOOL RECORDS, WHEN. — 1. Except as otherwise provided in a circuit participating in a pilot project established by the Missouri supreme court, when a child, alleged to be in need of care and treatment pursuant to subdivision (1) of subsection 1 of section 211.031, is taken into custody, the juvenile or family court shall notify the parties of the right to have a protective custody hearing. Such notification shall be in writing.

2. Upon request from any party, the court shall hold a protective custody hearing. Such hearing shall be held within three days of the request for a hearing, excluding Saturdays, Sundays and legal holidays. For circuits participating in a pilot project established by the Missouri supreme court, the parties shall be notified at the status conference of their right to request a protective custody hearing.

3. No later than February 1, 2005, the Missouri supreme court shall require a mandatory court proceeding to be held within three days, excluding Saturdays, Sundays, and legal holidays, in all cases under subdivision (1) of subsection 1 of section 211.031. The Missouri supreme court shall promulgate rules for the implementation of such mandatory court proceedings and may consider recommendations from any pilot projects established by the Missouri supreme court regarding such proceedings. Nothing in this subsection shall prevent the Missouri supreme court from expanding pilot projects prior to the implementation of this subsection.

4. The court shall hold an adjudication hearing no later than sixty days after the child has been taken into custody. The court shall notify the parties in writing of the specific date, time, and place of such hearing. If at such hearing the court determines that sufficient cause exists for the child to remain in the custody of the state, the court shall conduct a dispositional hearing no later than ninety days after the child has been taken into custody and shall conduct review hearings regarding the reunification efforts made by the division every ninety to one hundred twenty days for the first year the child is in the custody of the division. After the first year, review hearings shall be held as necessary, but in no event less than once every six months for as long as the child is in the custody of the division.

5. At all hearings held pursuant to this section the court may receive testimony and other evidence relevant to the necessity of detaining the child out of the custody of the parents, guardian or custodian.

6. By January 1, 2005, the supreme court shall develop rules regarding the effect of untimely hearings.

7. If the placement of any child in the custody of the children's division will result in the child attending a school other than the school the child was attending when taken into custody:

(1) The child's records from such school shall automatically be forwarded to the school that the child is transferring to upon notification within two business days by the division; or

(2) Upon request of the foster family, the guardian ad litem, **the child's counsel**, or the volunteer advocate and whenever possible, the child shall be permitted to continue to attend the same school that the child was enrolled in and attending at the time the child was taken into custody by the division. Counsel appointed under subsection 3 of section 210.160 shall not be waived.**

2. The court shall appoint counsel for a child prior to the filing of a petition if a request is made therefor to the court and the court finds that the child is the subject of a juvenile court proceeding and that the child making the request is indigent.

3. (1) When a petition has been filed under subdivision (2) or (3) of subsection 1 of section 211.031, the court may appoint counsel for the child except if private counsel has entered his or her appearance on behalf of the child or if counsel has been waived in accordance with law; except that, counsel shall not be waived for any proceeding specified under subsection 10 of this section unless the child has had the opportunity to meaningfully consult with counsel and the court has conducted a hearing on the record.

(2) If a child waives his or her right to counsel, such waiver shall be made in open court and be recorded and in writing and shall be made knowingly, intelligently, and voluntarily. In determining whether a child has knowingly, intelligently, and voluntarily waived his or her right to counsel, the court shall look to the totality of the circumstances including, but not limited to, the child's age, intelligence, background, and experience generally and in the court system specifically; the child's emotional stability; and the complexity of the proceedings.

4. When a petition has been filed and the child's custodian appears before the court without counsel, the court shall appoint counsel for the custodian if it finds:

(1) That the custodian is indigent; and

(2) That the custodian desires the appointment of counsel; and

(3) That a full and fair hearing requires appointment of counsel for the custodian.

5. Counsel shall be allowed a reasonable time in which to prepare to represent his client.

6. Counsel shall serve for all stages of the proceedings, including appeal, unless relieved by the court for good cause shown. If no appeal is taken, services of counsel are terminated following the entry of an order of disposition.

7. The child and his custodian may be represented by the same counsel except where a conflict of interest exists. Where it appears to the court that a conflict exists, it shall order that the child and his custodian be represented by separate counsel, and it shall appoint counsel if required by subsection 3 or 4 of this section.

8. When a petition has been filed, a child may waive his or her right to counsel only with the approval of the court and if such waiver is not prohibited under subsection 10 of this section. If a child waives his or her right to counsel for any proceeding except proceedings under subsection 10 of this section, the waiver shall only apply to that proceeding. In any subsequent proceeding, the child shall be informed of his or her right to counsel.

9. Waiver of counsel by a child may be withdrawn at any stage of the proceeding, in which event the court shall appoint counsel for the child if required by subsection 3 of this section.

10. A child's right to be represented by counsel shall not be waived in any of the following proceedings:

(1) At any contested detention hearing under Missouri supreme court rule 127.08 where the petitioner alleges that the child violated any law that, if committed by an adult, would be a felony unless an agreement is otherwise reached;

(2) At a certification hearing under section 211.071 or a dismissal hearing under Missouri supreme court rule 129.04;

(3) At an adjudication hearing under Missouri supreme court rule 128.02 for any felony offense or at any detention hearing arising from a misdemeanor or felony motion to modify or revoke, including the acceptance of an admission;

(4) At a dispositional hearing under Missouri supreme court rule 128.03; or

211.261. APPEALS. — 1. An appeal shall be allowed to the child from any final judgment, order or decree made under the provisions of this chapter and may be taken on the part of the child by its parent, guardian, legal custodian, spouse, relative or next friend. An appeal shall be allowed to a parent from any final judgment, order or decree made under the provisions of this chapter which adversely affects him. An appeal shall be allowed to the juvenile officer from any final judgment, order or decree made under this chapter, except that no such appeal shall be allowed concerning a final determination pursuant to subdivision (3) of subsection 1 of section 211.031. Notice of appeal shall be filed within thirty days after the final judgment, order or decree has been entered but neither the notice of appeal nor any motion filed subsequent to the final judgment acts as a supersedeas unless the court so orders.

2. Notwithstanding the provisions of subsection 1 of this section, an appeal shall be allowed to the:

(1) Juvenile officer from any order suppressing evidence, a confession or an admission, in proceedings under subdivision (3) of subsection 1 of section 211.031; or

(2) Parent, guardian ad litem, **child's counsel**, or juvenile officer from any order changing or modifying the placement of a child.

3. The appeal provided for in subsection 2 of this section shall be an interlocutory appeal, filed in the appropriate district of the Missouri court of appeals. Notice of such interlocutory appeal shall be filed within three days of the entry of the order of trial court; the time limits applicable to such appeal shall be the same as in interlocutory appeals allowed to the state in criminal cases.

(2) Except as provided in subsection 2 or 5 of this section, a tax credit of up to seventy percent may be allowed for contributions to programs where activities fall within the scope of special program priorities as defined with the approval of the governor in regulations promulgated by the director of the department of economic development;

(3) Except as provided in subsection 2 or 5 of this section, the tax credit allowed for contributions to programs located in any community shall be equal to seventy percent of the total amount contributed where such community is a city, town or village which has fifteen thousand or less inhabitants as of the last decennial census and is located in a county which is either located in:

(a) An area that is not part of a standard metropolitan statistical area;

(b) A standard metropolitan statistical area but such county has only one city, town or village which has more than fifteen thousand inhabitants; or

(c) A standard metropolitan statistical area and a substantial number of persons in such county derive their income from agriculture.

Such community may also be in an unincorporated area in such county as provided in subdivision (1), (2) or (3) of this subsection. Except in no case shall the total economic benefit of the combined federal and state tax savings to the taxpayer exceed the amount contributed by the taxpayer during the tax year;

(4) Such tax credit allocation, equal to seventy percent of the total amount contributed, shall not exceed four million dollars in fiscal year 1999 and six million dollars in fiscal year 2000 and any subsequent fiscal year. When the maximum dollar limit on the seventy percent tax credit allocation is committed, the tax credit allocation for such programs shall then be equal to fifty percent credit of the total amount contributed. 3. For proposals approved pursuant to section 32.111:

(1) The amount of the tax credit shall not exceed fifty-five percent of the total amount invested in affordable housing assistance activities or market rate housing in distressed communities as defined in section 135.530 by a business firm. Whenever such investment is made in the form of an equity investment or a loan, as opposed to a donation alone, tax credits may be claimed only where the loan or equity investment is accompanied by a donation which is eligible for federal income tax charitable deduction, and where the total value of the tax credits herein plus the value of the federal income tax charitable deduction is less than or equal to the value of the donation. Any tax credit not used in the period for which the credit was approved may be carried over the next ten succeeding calendar or fiscal years until the full credit has been allowed. If the affordable housing units or market rate housing units in distressed communities for which a tax is claimed are within a larger structure, parts of which are not the subject of a tax credit claim, then expenditures applicable to the entire structure shall be reduced on a prorated basis in proportion to the ratio of the number of square feet devoted to the affordable housing units or market rate housing units in distressed communities, for purposes of determining the amount of the tax credit. The total amount of tax credit granted for programs approved pursuant to section 32.111 for the fiscal year beginning July 1, 1991, shall not exceed two million dollars, to be increased by no more than two million dollars each succeeding fiscal year, until the total tax credits that may be approved reaches ten million dollars in any fiscal year;

(2) For any year during the compliance period indicated in the land use restriction agreement, the owner of the affordable housing rental units for which a credit is being claimed shall certify to the commission that all tenants renting claimed units are income eligible for affordable housing units and that the rentals for each claimed unit are in compliance with the provisions of sections 32.100 to 32.125. The commission is authorized, in its discretion, to audit the records and accounts of the owner to verify such certification;

(3) In the case of owner-occupied affordable housing units, the qualifying owner occupant shall, before the end of the first year in which credits are claimed, certify to the commission that the occupant is income eligible during the preceding two years, and at the time of the initial purchase contract, but not thereafter. The qualifying owner occupant shall further certify to the commission, before the end of the first year in which credits are claimed, that during the compliance period indicated in the land use restriction agreement, the cost of the affordable housing unit to the occupant for the claimed unit can reasonably be projected to be in compliance with the provisions of sections 32.100 to 32.125. Any succeeding owner occupant acquiring the affordable housing unit during the compliance period indicated in the land use restriction agreement shall make the same certification;

(4) If at any time during the compliance period the commission determines a project for which a proposal has been approved is not in compliance with the applicable provisions of sections 32.100 to 32.125 or rules promulgated therefor, the commission may within one hundred fifty days of notice to the owner either seek injunctive enforcement action against the owner, or seek legal damages against the owner representing the value of the tax credits, or foreclose on the lien in the land use restriction agreement, selling the project at a public sale, and paying to the owner the proceeds of the sale, less the costs of the sale and less the value of all tax credits allowed herein. The commission shall remit to the director of revenue the portion of the legal damages collected or the sale proceeds representing the value of the tax credits. However, except in the event of intentional fraud by the taxpayer, the proposal's certificate of eligibility for tax credits shall not be revoked.

4. For proposals approved pursuant to section 32.112, the amount of the tax credit shall not exceed fifty-five percent of the total amount contributed to a neighborhood organization by business firms. Any tax credit not used in the period for which the credit was approved may be carried over the next ten succeeding calendar or fiscal years until the full credit has been allowed. The total amount of tax credit granted for programs approved pursuant to section 32.112 shall not exceed one million dollars for each fiscal year. **For any fiscal year in which the total amount of tax credits authorized for programs approved pursuant to section 32.111 is less than ten million dollars, such amount not authorized may be authorized for programs approved pursuant to section 32.112 during the same fiscal year, provided that the total combined amount of tax credits for programs approved pursuant to sections 32.111 and 32.112 during the fiscal year does not exceed eleven million dollars.**

5. The total amount of tax credits used for market rate housing in distressed communities pursuant to sections 32.100 to 32.125 shall not exceed thirty percent of the total amount of all tax credits authorized pursuant to sections 32.111 and 32.112.

A resident individual, resident estate, and resident trust shall be allowed a credit against the tax otherwise due pursuant to sections 143.005 to 143.998 for the amount of any income tax imposed for the taxable year by another state of the United States (or a political subdivision thereof) or the District of Columbia on income derived from sources therein and which is also subject to tax pursuant to sections 143.005 to 143.998. For purposes of this subsection, the phrase "income tax imposed" shall be that amount of tax before any income tax credit allowed by such other state or the District of Columbia if the other state or the District of Columbia authorizes a reciprocal benefit for residents of this state.

2. The credit provided pursuant to this section shall not exceed an amount which bears the same ratio to the tax otherwise due pursuant to sections 143.005 to 143.998 as the amount of the taxpayer's Missouri adjusted gross income derived from sources in the other jurisdiction bears to the taxpayer's Missouri adjusted gross income derived from all sources. In applying the limitation of the previous sentence to an estate or trust, Missouri taxable income shall be substituted for Missouri adjusted gross income. If the tax of more than one other jurisdiction is imposed on the same item of income, the credit shall not exceed the limitation that would result if the taxes of all the other jurisdictions applicable to the item were deemed to be of a single jurisdiction. The provisions of this subsection shall apply to any credit allowed under this section, **provided that such credit shall be allowed under this section with respect to any estate or trust to the extent its Missouri adjusted gross income is excluded from Missouri taxable income pursuant to the subtraction set forth in subsection 3 of section 143.341.**

3. (1) For the purposes of this section, in the case of an S corporation, each resident S shareholder shall be considered to have paid a tax imposed on the shareholder in an amount equal to the shareholder's pro rata share of any net income tax paid by the S corporation to a state which does not measure the income of shareholders on an S corporation by reference to the income of the S corporation or where a composite return and composite payments are made in such state on behalf of the S shareholders by the S corporation.

(2) A resident S shareholder shall be eligible for a credit issued pursuant to this section in an amount equal to the individual income tax imposed pursuant to this chapter on such shareholder's share of the S corporation's income derived from sources in another state of the United States or the District of Columbia, and which is subject to income tax pursuant to this chapter but is not subject to income tax in such other jurisdiction or a political subdivision thereof.

4. For purposes of subsection 3 of this section, in the case of an S corporation that is a bank chartered by a state, the Office of Thrift Supervision, or the comptroller of currency, each Missouri resident S shareholder of such out-of-state bank shall qualify for the shareholder's pro rata share of any net tax paid, including a bank franchise tax based on the income of the bank, by such S corporation where bank payment of taxes are made in such state on behalf of the S shareholders by the S bank to the extent of the tax paid.

(2) Interest on certain governmental obligations excluded from federal gross income by 26 U.S.C. Section 103 of the Internal Revenue Code, as amended. The previous sentence shall not apply to interest on obligations of the state of Missouri or any of its political subdivisions or authorities and shall not apply to the interest described in subdivision (1) of subsection 3 of this section. The amount added pursuant to this subdivision shall be reduced by the amounts applicable to such interest that would have been deductible in computing the taxable income of the taxpayer except only for the application of 26 U.S.C. Section 265 of the Internal Revenue Code, as amended. The reduction shall only be made if it is at least five hundred dollars;

(3) The amount of any deduction that is included in the computation of federal taxable income pursuant to 26 U.S.C. (5) For nonresident individuals in all taxable years ending on or after December 31, 2006, the amount of any property taxes paid to another state or a political subdivision of another state for which a deduction was allowed on such nonresident's federal return in the taxable year unless such state, political subdivision of a state, or the District of Columbia allows a subtraction from income for property taxes paid to this state for purposes of calculating income for the income tax for such state, political subdivision of a state, or the District of Columbia;

The reduction shall only be made if the expenses total at least five hundred dollars;

(2) The portion of any gain, from the sale or other disposition of property having a higher adjusted basis to the taxpayer for Missouri income tax purposes than for federal income tax purposes on December 31, 1972, that does not exceed such difference in basis. (2) Limits the ability of the peer-to-peer car-sharing program to, by contract, seek indemnification from the shared vehicle owner or the shared vehicle driver for economic loss sustained by the peer-to-peer car-sharing program resulting from a breach of the terms and conditions of the car-sharing program agreement.

Upon agreement of the parties, the matter may be stayed while the parties proceed with mediation or arbitration upon terms agreed to by the parties. The final decision of the administrative hearing commission shall be subject to judicial review in the circuit court of the county involved. In the event a valuation of subclass (1) real property within any county with a charter form of government, or within a city not within a county, is made by a computer, computer-assisted method or a computer program, the burden of proof, supported by clear, convincing and cogent evidence to sustain such valuation, shall be on the assessor at any hearing or appeal. In any such county, unless the assessor proves otherwise, there shall be a presumption that the assessment was made by a computer, computer-assisted method or a computer program. Such evidence shall include, but shall not be limited to, the following:

- (1) The findings of the assessor based on an appraisal of the property by generally accepted appraisal techniques; and
- (2) The purchase prices from sales of at least three comparable properties and the address or location thereof. As used in this subdivision, the word "comparable" means that:
 - (a) Such sale was closed at a date relevant to the property valuation; and

(b) Such properties are not more than one mile from the site of the disputed property, except where no similar properties exist within one mile of the disputed property, the nearest comparable property shall be used. Such property shall be within five hundred square feet in size of the disputed property, and resemble the disputed property in age, floor plan, number of rooms, and other relevant characteristics.

2. Assessors in each county of this state and the City of St. Louis may send personal property assessment forms through the mail.

3. The following items of personal property shall each constitute separate subclasses of tangible personal property and shall be assessed and valued for the purposes of taxation at the following percentages of their true value in money:

(1) Grain and other agricultural crops in an unmanufactured condition, one-half of one percent;

(2) Livestock, twelve percent;

(3) Farm machinery, twelve percent;

(4) Motor vehicles which are eligible for registration as and are registered as historic motor vehicles pursuant to section 301.131 and aircraft which are at least twenty-five years old and which are used solely for noncommercial purposes and are operated less than two hundred hours per year or aircraft that are home built from a kit, five percent;

(5) Poultry, twelve percent; **[and]**

(6) Tools and equipment used for pollution control and tools and equipment used in retooling for the purpose of introducing new product lines or used for making improvements to existing products by any company which is located in a state enterprise zone and which is identified by any standard industrial classification number cited in subdivision (7) of section 135.200, twenty-five percent; **and**

(7) Solar panels, racking systems, inverters, and related solar equipment, components, materials, and supplies installed in connection with solar photovoltaic energy systems, as described in subdivision (46) of subsection 2 of section 144.030, that were constructed and producing solar energy prior to August 9, 2022, five percent.

4. The person listing the property shall enter a true and correct statement of the property, in a printed blank prepared for that purpose. The statement, after being filled out, shall be signed and either affirmed or sworn to as provided in section 137.155. The list shall then be delivered to the assessor.

5. (1) All subclasses of real property, as such subclasses are established in Section 4(b) of Article X of the Missouri Constitution and defined in section 137.016, shall be assessed at the following percentages of true value:

(a) For real property in subclass (1), nineteen percent;

(b) For real property in subclass (2), twelve percent; and

(c) For real property in subclass (3), thirty-two percent.

(2) A taxpayer may apply to the county assessor, or, if not located within a county, then the assessor of such city, for the reclassification of such taxpayer's real property if the use or purpose of such real property is changed after such property is assessed under the provisions of this chapter. If the assessor determines that such property shall be reclassified, he or she shall determine the assessment under this subsection based on the percentage of the tax year that such property was classified in each subclassification.

6. Manufactured homes, as defined in section 700.010, which are actually used as dwelling units shall be assessed at the same percentage of true value as residential real property for the purpose of taxation. The percentage of assessment of true value for such manufactured homes shall be the same as for residential real property. If the county collector cannot identify or find the

manufactured home when attempting to attach the manufactured home for payment of taxes owed by the manufactured home owner, the county collector may request the county commission to have the manufactured home removed from the tax books, and such request shall be granted within thirty days after the request is made; however, the removal from the tax books does not remove the tax lien on the manufactured home if it is later identified or found. For purposes of this section, a manufactured home located in a manufactured home rental park, rental community or on real estate not owned by the manufactured home owner shall be considered personal property. For purposes of this section, a manufactured home located on real estate owned by the manufactured home owner may be considered real property.

7. Each manufactured home assessed shall be considered a parcel for the purpose of reimbursement pursuant to section 137.750, unless the manufactured home is deemed to be real estate as defined in subsection 7 of section 442.015 and assessed as a realty improvement to the existing real estate parcel.

8. Any amount of tax due and owing based on the assessment of a manufactured home shall be included on the personal property tax statement of the manufactured home owner unless the manufactured home is deemed to be real estate as defined in subsection 7 of section 442.015, in which case the amount of tax due and owing on the assessment of the manufactured home as a realty improvement to the existing real estate parcel shall be included on the real property tax statement of the real estate owner.

9. The assessor of each county and each city not within a county shall use the trade-in value published in the October issue of the National Automobile Dealers' Association Official Used Car Guide, or its successor publication, as the recommended guide of information for determining the true value of motor vehicles described in such publication. The assessor shall not use a value that is greater than the average trade-in value in determining the true value of the motor vehicle without performing a physical inspection of the motor vehicle. For vehicles two years old or newer from a vehicle's model year, the assessor may use a value other than average without performing a physical inspection of the motor vehicle. In the absence of a listing for a particular motor vehicle in such publication, the assessor shall use such information or publications which in the assessor's judgment will fairly estimate the true value in money of the motor vehicle.

10. Before the assessor may increase the assessed valuation of any parcel of subclass (1) real property by more than fifteen percent since the last assessment, excluding increases due to new construction or improvements, the assessor shall conduct a physical inspection of such property.

11. If a physical inspection is required, pursuant to subsection 10 of this section, the assessor shall notify the property owner of that fact in writing and shall provide the owner clear written notice of the owner's rights relating to the physical inspection. If a physical inspection is required, the property owner may request that an interior inspection be performed during the physical inspection. The owner shall have no less than thirty days to notify the assessor of a request for an interior physical inspection.

12. A physical inspection, as required by subsection 10 of this section, shall include, but not be limited to, an on-site personal observation and review of all exterior portions of the land and any buildings and improvements to which the inspector has or may reasonably and lawfully gain external access, and shall include an observation and review of the interior of any buildings or improvements on the property upon the timely request of the owner pursuant to subsection 11 of this section. Mere observation of the property via a drive-by inspection or the like shall not be considered sufficient to constitute a physical inspection as required by this section.

13. A county or city collector may accept credit cards as proper form of payment of outstanding property tax or license due. No county or city collector may charge surcharge for

Such separate and differing rates shall not exceed such city's tax rate ceiling.

The commission shall then assess the amount so allocated to each group of public utilities, subject to reduction as herein provided, to the public utilities in such group in proportion to their respective gross intrastate operating revenues during the preceding calendar year, except that the total amount so assessed to all such public utilities, except telecommunications corporations, shall not exceed [three hundred fifteen] four hundred fifty thousandths of one percent of the total gross intrastate operating revenues of all public utilities, except telecommunications corporations, subject to the jurisdiction of the commission. Any amount remaining in such special fund or its successor fund at the end of any fiscal year shall not revert to the general revenue fund, but shall be applicable by appropriation of the general assembly to the payment of such expenditures of the commission in the succeeding fiscal year and shall be applied by the commission to the reduction of the amount to be assessed to such public utilities in such succeeding fiscal year, such reduction to be allocated to each group of public utilities in proportion to the respective gross intrastate operating revenues of the respective groups during the preceding calendar year.

5. In order to enable the commission to make the allocations and assessments herein provided for, each public utility subject to the jurisdiction of the commission as aforesaid shall file with the commission, within ten days after August 28, 1996, and thereafter on or before March thirty-first of each year, a statement under oath showing its gross intrastate operating revenues for the preceding calendar year, and if any public utility shall fail to file such statement within the time aforesaid the commission shall estimate such revenue which estimate shall be binding on such public utility for the purpose of this section.

The director of revenue shall remit such payments to the state treasurer.

4. The state treasurer shall credit such payments to a special fund, which is hereby created, to be known as the "Office of the Public Counsel Fund", which fund, or its successor fund created pursuant to section 33.571, shall be devoted solely to the payment of expenditures actually incurred by the public counsel and attributable to the regulation of such public utilities subject to the jurisdiction of the commission. Any amount remaining in such special fund or its successor fund at the end of any fiscal year shall not revert to the general revenue fund, but shall be applicable by appropriation of the general assembly to the payment of such expenditures of the public counsel in the succeeding fiscal year and shall be applied by the public counsel to the reduction of the amount to be assessed to such public utilities in such succeeding fiscal year, such reduction to be allocated to each group of public utilities in proportion to the respective gross intrastate operating revenues of the respective groups during the preceding calendar year.

- (1) "Affiliate", any entity not regulated by the public service commission which is owned, controlled by, or under common control with a utility and is engaged in HVAC services;
- (2) "HVAC services", the warranty, sale, lease, rental, installation, construction, modernization, retrofit, maintenance or repair of heating, ventilating and air conditioning equipment;
- (3) "Utility", an electrical corporation, gas corporation or heating company, as defined in section 386.020;

386.756. UTILITIES PROHIBITED FROM ENGAGING IN HVAC SERVICES, EXCEPTIONS, QUALIFICATION PROCESS — VIOLATION INVESTIGATION — PENALTY. — 1. ~~[Except by an affiliate,] A utility may not engage in HVAC services, unless otherwise provided in subsection [7 or] 8 of this section.~~

2. No affiliate or utility contractor may use any vehicles, service tools, instruments, employees, or any other utility assets, the cost of which are recoverable in the regulated rates for utility service, to engage in HVAC services unless the utility is compensated for the use of such assets at cost to the utility.

3. A utility may not use or allow any affiliate or utility contractor to use the name of such utility to engage in HVAC services unless the utility, affiliate or utility contractor discloses, in plain view and in bold type on the same page as the name is used on all advertisements or in plain audible language during all solicitations of such services, a disclaimer that states the services provided are not regulated by the public service commission.

4. A utility may not engage in or assist any affiliate or utility contractor in engaging in HVAC services in a manner which subsidizes the activities of such utility, affiliate or utility contractor to the extent of changing the rates or charges for the utility's regulated services above or below the rates or charges that would be in effect if the utility were not engaged in or assisting any affiliate or utility contractor in engaging in such activities.

5. Any affiliates or utility contractors engaged in HVAC services shall maintain accounts, books and records separate and distinct from the utility.

6. The provisions of this section shall apply to any affiliate or utility contractor engaged in HVAC services that is owned, controlled or under common control with a utility providing regulated utility service in this state or any other state.

7. A utility engaging in HVAC services in this state five years prior to August 28, 1998, may continue providing, to existing as well as new customers, the same type of services as those provided by the utility five years prior to August 28, 1998. The provisions of this section only apply to the area of service which the utility was actually supplying service to on a regular basis prior to August 28, 1993. The provisions of this section shall not apply to any subsequently expanded areas of service made by a utility through either existing affiliates or subsidiaries or through affiliates or subsidiaries purchased after August 28, 1993, unless such services were being provided in the expanded area prior to August 28, 1993.

EXPLANATION—Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

8. The provisions of this section shall not be construed to prohibit a utility from providing emergency service, providing any service required by law or providing a program pursuant to an existing tariff, rule or order of the public service commission that is consistent with the provisions of this section.

9. Any utility that directly or indirectly engages a utility contractor that may provide HVAC services shall develop a qualification process and make such process open to all utility contractors seeking to provide HVAC services. Utility contractors shall have the opportunity to register on the utility's vendor registration site and be evaluated for bid opportunities.

10. Upon receiving information that raises a reasonable inference that any provision of sections 386.754 to 386.764 has been violated by any firm, person, or corporation under the jurisdiction of the commission, the commission's staff shall investigate and report its findings to the commission. The commission upon finding reasonable cause to believe a violation has occurred, may open a case before it under section 386.330 and may also promptly act to abate the violation and impose any required penalties and seek their collection under sections 386.360 and 386.600. Any person informing the commission of an apparent or actual violation of the provisions of sections 386.754 to 386.764 may be allowed to intervene in the proceeding at their option. The person informing the commission of an apparent or actual violation of the provisions of sections 386.754 to 386.764, and any other interested person, shall be provided a copy of the final disposition of the complaint, but not the work-product or attorney-client privileged documents of the commission's staff or general counsel or the attorney general.

11. A utility that violates any provision of this section is guilty of a civil offense and may be subject to a civil penalty of up to twelve thousand five hundred dollars for each violation. The attorney general may enforce the provisions of this section pursuant to any powers granted to him or her pursuant to any relevant provisions provided by Missouri statutes or the Missouri Constitution.

[10.] 12. Any utility claiming an exemption as provided in subsection 7 of this section shall comply with all applicable state and local laws, ordinances or regulations relating to the installation or maintenance of HVAC systems including all permit requirements. A continuing pattern of failure to comply with said requirements shall provide the basis for a finding by any court of competent jurisdiction or the public service commission that the utility has waived its claim of exemption pursuant to subsection 7 of this section.

386.760. PUBLIC SERVICE COMMISSION TO ADMINISTER AND ENSURE COMPLIANCE — PROMULGATION OF RULES. — 1. The public service commission shall have full authority to administer and ensure compliance with sections 386.754 to 386.764, provided that the commission shall not impose, by rule or otherwise, requirements regarding HVAC services that are inconsistent with or in addition to those set forth in sections 386.754 to 386.764 or with requirements set forth in section 386.315.

2. The public service commission shall not adopt any rule, tariff, order, or any other action that purports to allow a violation of sections 386.754 to 386.764.

[2.] 3. No rule or portion of a rule promulgated pursuant to the provisions of sections 386.754 to 386.764 shall become effective unless it has been promulgated pursuant to the provisions of chapter 536.

386.820. OPT OUT FOR ADVANCED OR HUB METERS — DEFINITIONS — RULES FOR — PROCEDURE — RULEMAKING AUTHORITY. — 1. For purposes of this section, the following terms mean:

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

(1) "Advanced meter", a meter or metering device system that is owned or leased by a utility or its agent and that meets one or more of the following requirements:

(a) Measures, records, and sends a customer's utility usage or other data by use of radio waves or broadband over power lines;

(b) Allows for two-way communication between the meter and the utility or its agent; and

(c) Allows for a utility or its agent to control a customer's thermostat, appliance, or service;

(2) "Hub meter", an advanced meter that generates stronger radio waves as a result of the meter serving as a hub for other advanced meters it communicates with in a given area;

(3) "Inaccurate information", the intentional under-reporting of meter data in an effort to not pay for services. Inaccurate information does not mean minor differences in readings by less than two percent to account for variations based on the time of day that the meter is read and similar factors;

(4) "Regular basis", once per billing cycle;

(5) "Traditional meter", a commercially available meter that is unable to transmit usage information and is only intended to be read by an individual through a visual display. A traditional meter is not designed or capable of transmitting usage data by using radio waves or broadband over power lines, allowing two-way communication between the meter and the utility or its agents, or allowing a utility or its agents to control a customer's thermostat, appliance, or service. A traditional meter does not include an advanced meter that has certain functionality turned off or deactivated;

(6) "Utility", any public utility that is rate regulated by the public service commission under chapters 386 or 393.

2. (1) The commission shall promulgate commercially reasonable rules governing an opt-out process using an advanced meter or hub meter for customers no later than June 30, 2026. Commencing July 1, 2026, a residential utility customer may at any time communicate with the utility that the customer would like to opt out of using an advanced meter or hub meter.

(2) Within a commercially reasonable time after receiving a residential customer's request that an advanced meter be removed from the customer's residence or business, a utility shall remove the advanced meter and replace it at a location of the utility's choice with a traditional meter. A utility may charge a one-time all-inclusive fee, not to exceed one hundred twenty-five dollars, to remove the advanced meter and to provide and install a traditional meter. A utility may charge a monthly fee, not to exceed fifteen dollars, for the use of a traditional meter.

(3) If a residential customer utilizes a traditional meter and desires to read its own meter rather than having the utility read the meter, the customer shall report accurate energy usage to the utility on a regular basis. A utility shall provide the customer with the detailed process to report meter readings on a secure website, by telephone, or by other commercially reasonable means. At least once every twelve months, the utility shall obtain an actual meter reading of the customer's energy usage to verify the accuracy of readings reported under this section. Notwithstanding this subsection to the contrary, a representative of a utility may manually read the customer's meter on a regular basis as otherwise permitted by law and correct a reading as necessary. If the customer fails to report usage, inaccurately reports usage, or the utility does not receive the customer's service usage report on time, the utility may manually read the customer's meter or charge that customer based on an estimate of prior energy use in a manner approved by the commission. The utility may charge the customer interest on any unpaid amount due to the customer's failure to report usage or inaccurate report of usage in any given billing cycle. Such interest rate shall be no greater than five percent. The commission is authorized to approve charges to be assessed pursuant to an

electrical corporation's rate schedule to be assessed on customers that intentionally report inaccurate usage.

(4) A utility shall not be liable for any injuries or other damages sustained by a customer or other individuals due to a customer's reading of the customer's utility usage unless such injuries or damages are caused by the willful misconduct or gross negligence of the utility.

3. The commission shall promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2025, shall be invalid and void.

386.1100. MANDATORY USE OF TIME-OF-USE RATES, OPT OUT, PROCEDURE. — If the commission has ordered adoption of time-of-use rates on a mandatory basis for an electrical corporation's residential customers before the effective date of this section, then within one year from the effective date of this section, the commission shall issue an order which allows for mandated time-of-use rate customers to opt out of participating in time-of-use rates and elect to participate in non-time-of-use rates. The transition to opt out of time-of-use rates may occur in a general rate case or in a stand-alone tariff proceeding to allow for the transition to conclude no later than one year from the effective date of this section.

393.108. HOT WEATHER RULE, DISCONTINUANCE OF SERVICE PROHIBITED, WHEN. — For purposes of this section, the hot weather rule shall mean the period of time from June first to September thirtieth, in which the discontinuance of gas and electric service to all residential users, including all residential tenants of apartment buildings, for nonpayment of bills where gas or electricity is used as the source of cooling or to operate the only cooling equipment at the residence, is prohibited in the following situations:

(1) On any day when the National Weather Service local forecast between 6:00 a.m. and 9:00 p.m. for the following [twenty-four] seventy-two hours predicts that the temperature shall rise above ninety-five degrees Fahrenheit or that the heat index shall rise above one hundred five degrees Fahrenheit;

(2) On any day when utility personnel are not available to reconnect utility service during the immediately succeeding day or days and the National Weather Service local forecast between 6:00 a.m. and 9:00 p.m. predicts that the temperature during the period of unavailability shall rise above ninety-five degrees Fahrenheit or that the heat index shall rise above one hundred five degrees Fahrenheit; and

(3) In any other applicable situations provided for in rules established and amended by the public service commission.

393.109. COLD WEATHER RULE, DISCONTINUANCE OF SERVICES PROHIBITED, WHEN. — For purposes of this section, the cold weather rule shall mean the period of time from November first to March thirty-first, in which the discontinuance of gas and electric service to all residential users, including all residential tenants of apartment buildings, for nonpayment of bills where gas or electricity is used as the source of heating or to operate the only heating equipment at the residence, is prohibited in the following situations:

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

(1) On any day when the National Weather Service local forecast between 6:00 a.m. and 9:00 p.m. for the following seventy-two hours predicts that the temperature shall fall below thirty-two degrees Fahrenheit;

(2) On any day when utility personnel are not available to reconnect utility service during the immediately succeeding day or days and the National Weather Service local forecast between 6:00 a.m. and 9:00 p.m. predicts that the temperature during the period of unavailability shall fall below thirty-two degrees Fahrenheit; and

(3) In any other applicable situations provided for in rules established and amended by the public service commission.

393.130. SAFE AND ADEQUATE SERVICE — CHARGES — CERTAIN HOME RULE CITIES, INTEREST ACCRUAL, WHEN — SERVICE TARIFF SCHEDULES, WHEN. — 1. Every gas corporation, every electrical corporation, every water corporation, and every sewer corporation shall furnish and provide such service instrumentalities and facilities as shall be safe and adequate and in all respects just and reasonable. All charges made or demanded by any such gas corporation, electrical corporation, water corporation or sewer corporation for gas, electricity, water, sewer or any service rendered or to be rendered shall be just and reasonable and not more than allowed by law or by order or decision of the commission. Every unjust or unreasonable charge made or demanded for gas, electricity, water, sewer or any such service, or in connection therewith, or in excess of that allowed by law or by order or decision of the commission is prohibited.

2. No gas corporation, electrical corporation, water corporation or sewer corporation shall directly or indirectly by any special rate, rebate, drawback or other device or method, charge, demand, collect or receive from any person or corporation a greater or less compensation for gas, electricity, water, sewer or for any service rendered or to be rendered or in connection therewith, except as authorized in this chapter, than it charges, demands, collects or receives from any other person or corporation for doing a like and contemporaneous service with respect thereto under the same or substantially similar circumstances or conditions.

3. No gas corporation, electrical corporation, water corporation or sewer corporation shall make or grant any undue or unreasonable preference or advantage to any person, corporation or locality, or to any particular description of service in any respect whatsoever, or subject any particular person, corporation or locality or any particular description of service to any undue or unreasonable prejudice or disadvantage in any respect whatsoever.

4. Nothing in this section shall be taken to prohibit a gas corporation, electrical corporation, water corporation or sewer corporation from establishing a sliding scale for a fixed period for the automatic adjustment of charges for gas, electricity, water, sewer or any service rendered or to be rendered and the dividends to be paid stockholders of such gas corporation, electrical corporation, water corporation or sewer corporation; provided, that the sliding scale shall first have been filed with and approved by the commission; but nothing in this subsection shall operate to prevent the commission after the expiration of such fixed period from fixing proper, just and reasonable rates and charges to be made for service as authorized in sections 393.110 to 393.285.

5. No water corporation shall be permitted to charge any municipality or fire protection district a rate for the placing and providing of fire hydrants for distribution of water for use in protecting life and property from the hazards of fire within such municipality or fire protection district. Nothing herein shall prevent such water corporation from including the cost of placement and maintenance of such fire hydrants in its cost basis in determining a fair and reasonable rate to be charged for water. Any such fee or rental charge being made for such fire hydrants whether by

contract or otherwise at the time this act shall take effect may remain in effect for a period of one hundred twenty days after this section shall take effect.

6. In any home rule city with more than four hundred thousand inhabitants and located in more than one county, any deposits held by the city for any water or sewerage services provided to a customer at any premises shall accrue interest if the customer is current in payments for water and sewerage services and if the city has held the deposit for two or more years. Interest for each year, or part thereof, shall accrue at the rate set for six month United States treasury bills effective December thirty-first of the preceding year. For any deposit held by the city on or before the December thirty-first prior to August 28, 2002, if that deposit is still held by the city on the December thirty-first one year next following August 28, 2002, interest accruing pursuant to this section from the effective date shall be credited to the customer's individual account, or paid to the customer, at the city's discretion.

7. Each electrical corporation providing electric service to more than two hundred fifty thousand customers shall develop and submit to the commission schedules to include in the electrical corporation's service tariff applicable to customers who are reasonably projected to have above an annual peak demand of one hundred megawatts or more. The schedules should reasonably ensure such customers' rates will reflect the customers' representative share of the costs incurred to serve the customers and prevent other customer classes' rates from reflecting any unjust or unreasonable costs arising from service to such customers. Each electrical corporation providing electric service to two hundred fifty thousand or fewer customers as of January 1, 2025, shall develop and submit to the commission such schedules applicable to customers who are reasonably projected to have above an annual peak demand of fifty megawatts or more. The commission may order electrical corporations to submit similar tariffs to reasonably ensure that the rates of customers who are reasonably projected to have annual peak demands below the above-referenced levels will reflect the customers' representative share of the costs incurred to serve the customers and prevent other customer classes' rates from reflecting any unjust or unreasonable costs arising from service to such customers.

393.135. CHARGES BASED ON NONOPERATIONAL PROPERTY OF ELECTRICAL CORPORATION PROHIBITED — EXCEPTIONS, EXPIRATION. — 1. Except as provided in subsection 2 of this section, any charge made or demanded by an electrical corporation for service, or in connection therewith, which is based on the costs of construction in progress upon any existing or new facility of the electrical corporation, or any other cost associated with owning, operating, maintaining, or financing any property before it is fully operational and used for service, is unjust and unreasonable, and is prohibited.

2. (1) An electrical corporation may be permitted, subject to the limitations in this subsection, to include construction work in progress for any new natural gas-generating unit in rate base. The inclusion of construction work in progress allowed under this subsection shall be in lieu of any otherwise applicable allowance for funds used during construction that would have accrued from and after the effective date of new base rates that reflect inclusion of the construction work in progress in rate base. The commission shall determine, in a proceeding under section 393.170, the amount of construction work in progress that may be included in rate base. The amount shall be limited by:

(a) The estimated cost of such project; and

(b) Project expenditures made within the estimated construction period for such project.

Base rate recoveries arising from inclusion of construction work in progress in rate base are subject to refund, with interest on the refunded amount at the same rate as the rate of interest for delinquent taxes determined by the director of revenue in accordance with section 32.065, if, and to the extent the commission determines, in a subsequent complaint or general rate proceeding, that construction costs giving rise to the construction work in progress included in rate base were imprudently incurred or if the project for which construction costs have been included in the rate base is not placed in service within a reasonable amount of time, as determined by the commission. Rate base used to determine return deferred under subdivision (2) of subsection 3 of section 393.1400 shall include an offset for rate base that has been used to determine return included in base rates as a result of construction work in progress inclusion in rate base under this subsection. The offset shall apply from and after the in-service date of the asset that has been used to determine return included in base rates as a result of construction work in progress inclusion in rate base under this subsection.

(2) This subsection shall expire on December 31, 2035, unless the commission determines, after a hearing conducted in 2035, upon a submission from an electrical corporation of an application requesting and demonstrating that good cause exists to extend the effectiveness of this subsection through December 31, 2045. The secretary of the commission shall notify the revisor of statutes when the conditions set forth for the extension of this subsection have been met.

393.138. ONE-TIME RATE ADJUSTMENT FOR ELECTRICAL CORPORATIONS, WHEN — PROCEDURE. — 1. For purposes of this section, the following terms shall mean:

(1) "Commission", as defined in section 386.020;

(2) "Electrical corporation", as defined in section 393.1400.

2. If a reduction is made to the federal income tax rates of electrical corporations between January 20, 2025, and December 31, 2029, the commission shall have a one-time authority to adjust each electrical corporation's rates prospectively so that the income tax component of the revenue requirement used to set such electrical corporation's rates is based upon the provisions of the federal act without considering any other factor as otherwise required by section 393.270. Beginning with the effective date of the federal corporate income tax reduction through the date the electrical corporation's rates are adjusted on a one-time basis, the commission shall require electrical corporations to defer to a regulatory asset the financial impact of such federal act. The amounts deferred under this subsection shall be included in the revenue requirement used to set the electrical corporation's rates in its subsequent general rate proceeding through an amortization over a period determined by the commission.

3. Upon a public interest finding by the commission, the commission may, as an alternative to requiring a one-time rate change and deferral under subsection 2 of this section, allow a deferral, in whole or in part, of such federal act's financial impacts to a regulatory asset starting with the effective date of the federal corporate income tax reduction through the effective date of new rates in such electrical corporation's next general rate proceeding. The deferred amounts shall be included in the revenue requirement used to set the electrical corporation's rates in its subsequent general rate proceeding through an amortization over a period determined by the commission.

393.150. COMMISSION MAY FIX RATES AFTER HEARING — STAY INCREASE — BURDEN OF PROOF — TEST YEAR, PROCEDURE. — 1. Whenever there shall be filed with the commission by any gas corporation, electrical corporation, water corporation or sewer corporation any schedule stating a new rate or charge, or any new form of contract or agreement, or any new rule, regulation or practice relating to any rate, charge or service or to any general privilege or facility, the

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

commission shall have, and it is hereby given, authority, either upon complaint or upon its own initiative without complaint, at once, and if it so orders without answer or other formal pleading by the interested gas corporation, electrical corporation, water corporation or sewer corporation, but upon reasonable notice, to enter upon a hearing concerning the propriety of such rate, charge, form of contract or agreement, rule, regulation or practice, and pending such hearing and the decision thereon, the commission upon filing with such schedule, and delivering to the gas corporation, electrical corporation, water corporation or sewer corporation affected thereby, a statement in writing of its reasons for such suspension, may suspend the operation of such schedule and defer the use of such rate, charge, form of contract or agreement, rule, regulation or practice, but not for a longer period than one hundred and twenty days beyond the time when such rate, charge, form of contract or agreement, rule, regulation or practice would otherwise go into effect; and after full hearing, whether completed before or after the rate, charge, form of contract or agreement, rule, regulation or practice goes into effect, the commission may make such order in reference to such rate, charge, form of contract or agreement, rule, regulation or practice as would be proper in a proceeding initiated after the rate, charge, form of contract or agreement, rule, regulation or practice had become effective. In any proceeding under this section wherein testimony is pre-filed, each party shall be afforded an opportunity to respond to any rebuttal testimony and exhibits of other parties through pre-filed testimony.

2. If any such hearing cannot be concluded within the period of suspension, as above stated, the commission may, in its discretion, extend the time of suspension for a further period not exceeding six months, the last day of which period shall be considered the operation of law date. At any hearing involving a rate sought to be increased, the burden of proof to show that the increased rate or proposed increased rate is just and reasonable shall be upon the gas corporation, electrical corporation, water corporation or sewer corporation, and the commission shall give to the hearing and decision of such questions preference over all other questions pending before it and decide the same as speedily as possible.

3. (1) Beginning July 1, 2026, the test year for proceedings under this section shall, if requested by a gas corporation, water corporation, or sewer corporation, be a future year consisting of the first twelve full calendar months after the operation of law date determined in subsections 1 and 2 of this section for schedules stating new base rates filed by a gas corporation, water corporation, or sewer corporation under this section, unless the commission makes a determination that using a future test year under this section is detrimental to the public interest. For ratemaking purposes, the average of the projected month-end total rate base amount during the future test year shall be used to establish new base rates. Unless otherwise ordered by the commission, new base rates shall not go into effect before the first day of the future test year.

(2) With respect to gas corporations, water corporations, or sewer corporations that elect to utilize a future test year and notwithstanding section 393.270 to the contrary, within forty-five days of the end of the future test year, such gas corporation, water corporation, or sewer corporation shall update its base rates that were approved by the commission in its report and order issued under subsections 1 and 2 of this section to reflect the total rate base, annualized depreciation expense, income tax expense, payroll expense, employee benefits (other than pensions and other post-retirement benefits), and rate case expense at the end of the future test year. The total ending rate base and expense items reflected in this update shall not be greater than the total ending rate base and expense items approved by the commission in its report and order establishing base rates. The commission and parties to the case shall have sixty days to review the updated information provided by a gas corporation, water corporation, or sewer corporation, unless any party who was a party to the rate case files a request for a hearing at which point the commission shall suspend

the filed tariffs and order a procedural schedule. The commission shall order the corporation to file new tariff sheets that reflect any update approved by the commission.

4. A gas corporation, water corporation, or sewer corporation that requests a test year under subsection 3 of this section shall not recover the costs of any plant investments made during the test year period under any of the mechanisms provided for in sections 393.1000, 393.1003, 393.1006, 393.1009, 393.1012, 393.1015, 393.1500, 393.1503, 393.1506, or 393.1509.

5. For a gas corporation, water corporation, or sewer corporation that elected to use a future test year, a reconciliation of the rate base at the end of the future test year shall be provided to the commission within forty- five days of the end of the future test year. If the actual average month-end total rate base amount during the future test year is less than the average month-end total rate base amount used to set base rates in the prior general rate proceeding under subsections 1 and 2 of this section, and notwithstanding section 393.270 to the contrary, the portion of the annual revenue requirement comprising the average total rate base difference shall be returned to customers. The revenue requirement shall be calculated using rate base, depreciation expense, income tax expense, and the pre-tax rate of return from the prior general rate proceeding under subsections 1 and 2 of this section. The difference in revenue requirement shall be placed into a regulatory liability to be returned to customers in the next general rate proceeding with such regulatory liability to accrue carrying costs at the utility's weighted average cost of capital.

6. The commission may take into account any change in business risk to the corporation resulting from implementation of the adjustment mechanism in setting the corporation's allowed return in any rate proceeding, in addition to any other changes in business risk experienced by the corporation.

7. For a gas corporation, water corporation, or sewer corporation that elected to use a future test year, a reconciliation of depreciation expense, income tax expense, payroll expense, employee benefits except for pensions and other post-retirement benefits, and rate case expense incurred during the future test year shall be provided to the commission within forty-five days of the end of the future test year. If the actual amounts for these expenses are less than the amounts used to calculate the revenue requirement in the prior general rate proceeding under subsections 1 and 2 of this section, and notwithstanding section 393.270 to the contrary, the differences shall be returned to customers. The difference in revenue requirement shall be placed into a regulatory liability to be returned to customers in the next general rate case with such regulatory liability to accrue carrying costs at the utility's weighted average cost of capital. Expense differences to be returned to customers resulting from this reconciliation shall not be used to offset additional capital spending in the reconciliation described in subsection 5 of section 393.150.

8. The commission shall promulgate rules to implement the provisions of this section no later than July 1, 2027. Such rules shall include a procedure allowing any party to a rate proceeding that utilizes a future test year as provided in subsection 3 of this section to undertake a meaningful review of the update provided by the gas corporation, water corporation, or sewer corporation under subsection 3 of this section and the reconciliations provided by the gas corporation, water corporation, or sewer corporation under subsections 5 and 7 of this section, and to argue for the disallowance of any costs included in the total rate base, depreciation expense, income tax expense, payroll expense, employee benefits (other than pensions and other post-retirement benefits), and rate case expense at the end of the future test year that differs from the projected values upon which the commission relied in issuing its report and order to approve new base rates under subsections 1 and 2 of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This

section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2025, shall be invalid and void.

9. For purposes of this section, the following terms shall mean:

(1) "Base rates", rates or charges for public utility service other than rates or charges under any rate adjustment mechanism including, but not limited to, those approved under the provisions of sections 386.266, 393.1000, 393.1009, 393.1030, 393.1075, and 393.1500;

(2) "Revenue requirement", the amount of retail revenues from base rates charged to retail customers for public utility service needed for a public utility to recover its cost to provide utility service including reasonable and necessary expenses, prudent investments, and the cost of capital.

393.320. ACQUISITION OF SMALL WATER UTILITIES, ESTABLISHMENT OF RATEMAKING RATE BASE, PROCEDURE. — 1. As used in this section, the following terms mean:

(1) "Large water public utility", a public utility:

(a) That regularly provides water service [or sewer service] to more than eight thousand customer connections, regularly provides sewer service to more than eight thousand customer connections, or regularly provides a combination of either to more than eight thousand customer connections; and

(b) That provides safe and adequate service but shall not include a sewer district established under Section 30(a), Article VI of the Missouri Constitution, sewer districts established under the provisions of chapter 204, 249, or 250, public water supply districts established under the provisions of chapter 247, or municipalities that own water or sewer systems;

(2) "Small water utility", a public utility that regularly provides water service or sewer service to eight thousand or fewer customer connections; a water district established under the provisions of chapter 247 that regularly provides water or sewer service to eight thousand or fewer customer connections; a sewer district established under the provisions of chapter 204, 249, or 250 that regularly provides sewer service to eight thousand or fewer customer connections; or a water system or sewer system owned by a municipality that regularly provides water service or sewer service to eight thousand or fewer customer connections; and all other entities that regularly provide water service or sewer service to eight thousand or fewer customer connections.

2. The procedures contained in this section may be chosen by a large water public utility, and if so chosen shall be used by the public service commission to establish the ratemaking rate base of a small water utility during an acquisition, provided that the public service commission independently concludes that a certificate of convenience and necessity should be granted pursuant to section 393.170. In making such determination, the commission may take into account rates that may result from such acquisition.

3. (1) An appraisal shall be performed by [three] no less than two appraisers. One appraiser shall be appointed by the small water utility, one appraiser shall be appointed by the large water public utility, and the third appraiser [shall] may be appointed by the [two appraisers so appointed] public service commission. Each of the appraisers shall be a disinterested person who is a certified general appraiser under chapter 339.

(2) The appraisers shall:

(a) Jointly prepare [an] a fair and independent appraisal of the fair market value of the water system and/or sewer system, along with supporting rationale. The determination of fair market value shall be in accordance with Missouri law and with the Uniform Standards of Professional Appraisal Practice; and

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

(b) Return only their final appraisal, in writing and at the same time, to the small water utility and large water public utility in a reasonable and timely manner. However, nothing shall prohibit the appraisers from issuing a corrected report if factual errors are identified subsequent to the issuance of the appraisal.

(3) If all three appraisers cannot agree as to the appraised value, the appraisal, when signed by two of the appraisers, constitutes a good and valid appraisal.

4. Nothing in this section shall prohibit a party from declining to proceed with an acquisition or be deemed as establishing the final purchase price of an acquisition.

5. (1) The lesser of the purchase price or the appraised value, together with the reasonable and prudent transaction, closing, and transition costs incurred by the large water public utility, shall constitute the ratemaking rate base for the small water utility as acquired by the acquiring large water public utility; provided, however, that if the small water utility is a public utility subject to chapter 386 and the small water utility completed a rate case prior to the acquisition, the public service commission may select as the ratemaking rate base for the small water utility as acquired by the acquiring large water public utility a ratemaking rate base in between:

(a) The lesser of the purchase price or the appraised value, together with the reasonable and prudent transaction, closing, and transition costs incurred by the large water public utility unless such transaction, closing, and transition costs are elsewhere recoverable in rates; and

(b) The ratemaking rate base of the small water utility as ordered by the public service commission in the small water utility's last previous rate case as adjusted by improvements and depreciation reserve since the previous rate case together with the transaction, closing, and transition costs incurred by the large water public utility unless such transaction, closing, and transition costs are elsewhere recoverable in rates. If the small water utility and large water public utility proceed with the sale, any past-due fees due to the state from the small water utility or its customers under chapter 640 or 644 shall be resolved prior to the transfer of ownership or the liability for such past-due fees becomes the responsibility of the large water public utility. Such fees shall not be included in the large water public utility's rate base.

(2) The public service commission shall issue its decision establishing the ratemaking rate base of the small water utility in its order approving the acquisition. For any acquisition with an appraised value of five million dollars or less, such decision shall be issued within six months from the submission of the application by the large public water utility to acquire the small water utility.

(3) Prior to the expiration of the six-month period, the public service commission staff or the office of public counsel may request, upon a showing of good cause, from the public service commission an extension for approval of the application for an additional thirty days.

6. Upon the date of the acquisition of a small water utility by a large water public utility, whether or not the procedures for establishing ratemaking rate base provided by this section have been utilized, the small water utility shall, for ratemaking purposes, become part of an existing service area, as defined by the public service commission, of the acquiring large water public utility that is either contiguous to the small water utility, the closest geographically to the small water utility, or best suited due to operational or other factors. This consolidation shall be approved by the public service commission in its order approving the acquisition.

7. Any new permit issued pursuant to chapters 640 and 644, when a small water utility is acquired by a large water public utility, shall include a plan to resolve all outstanding permit compliance issues. After the transfer of ownership, the acquiring large public water utility shall continue providing service to all customers that were served by the small water utility at the time of sale.

8. This section is intended for the specific and unique purpose of determining the ratemaking rate base of small water utilities and shall be exclusively applied to large water public utilities in the acquisition of a small water utility. A large water public utility's choice to comply with the provisions of this section does not automatically ensure that the transaction is in the public interest. The public service commission shall independently determine whether the acquisition is in the public interest, regardless of whether the matter has been put to a vote of the small water utility's ratepayers. This section is not intended to apply beyond its specific purpose and shall not be construed in any manner to apply to electric corporations, natural gas corporations, or any other utility regulated by the public service commission.

9. The commission shall promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2025, shall be invalid and void.

393.401. ELECTRIC GENERATING POWER PLANT CLOSURE — DEFINITIONS — PROCEDURE. — 1. For purposes of this section, the following terms shall mean:

(1) "Dispatchable power resource", a source of electricity that is, under normal operating conditions, available for use on demand and that can have its power output adjusted according to market needs, except during routine maintenance and repair;

(2) "Electrical corporation", the same as defined in section 386.020, but shall not include an electrical corporation as described in subsection 2 of section 393.110;

(3) "Existing electric generating power plant", a thermal power plant of over one hundred megawatts in nameplate capacity, a generating unit at a thermal power plant with a nameplate capacity of over one hundred megawatts, or two or more generating units at a thermal power plant with a combined nameplate capacity of over one hundred megawatts;

(4) "Regional transmission operator", a regional transmission organization, independent system operator, or equivalent entity approved by the Federal Energy Regulatory Commission, or successor agency, that exercises functional control over electric transmission facilities located within this state;

(5) "Reliable electric generation", electric generation meeting the accreditation requirements provided for in this section;

(6) "Unexpected or unplanned cause or event", a natural disaster, physical sabotage, equipment failure or damage causing a forced prolonged outage, or an adverse decision of a court or a change in a state or federal law or regulation which causes the closure of an existing electric generating plant.

2. Prior to the closure of an existing electric generating power plant in Missouri if the closure occurs on or after January 1, 2026, and subject to subsection 3 of this section, an electrical corporation registered and doing business in this state shall first certify to the public service commission that such utility company has secured and placed on the electric grid an equal or greater amount of reliable electric generation as accredited power resources based on the regional transmission operator's resource accreditation for the reliable electric generation technology at issue with consideration of the electrical corporation's anticipated loss of load, if any. To determine if an equal or greater amount of reliable electric generation is being placed on the electric grid to

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

replace the existing electric generating power plant that is to be closed, the electrical corporation shall compare the relevant regional transmission operator's average of the summer and winter accredited capacity for the generation technology of the to-be-closed existing electric generating power plant to the relevant regional transmission operator's average of the summer and winter accredited capacity for the generation technology of the replacement reliable electric generation with consideration of the electrical corporation's anticipated loss of load, if any. Such average of the summer and winter accredited capacity for the replacement reliable electric generation shall equal or exceed such average of the summer and winter accredited capacity for the existing electric generating plant that is to be closed with consideration of the electrical corporation's anticipated loss of load, if any. Dispatchable power resources shall comprise at least eighty percent of the average of the summer and winter accredited capacity of the replacement reliable electric generation.

3. With respect to the replacement reliable electric generation required by subsection 2 of this section, adequate electric transmission lines shall be in place and the replacement reliable electric generation shall be fully operational concurrently with the closure of the existing electric generating plant, except where some or all of the replacement reliable electric generation utilizes some or all of the interconnection facilities used by the existing electric generating power plant, or where the existing electric generating power plant is closed as a result of an unexpected or unplanned cause or event. In the event that some or all of the replacement reliable electric generation utilizes some or all of the interconnection facilities utilized by the existing electric generating power plant, then such replacement facilities shall be fully operational within one hundred eighty days of the closure of the existing electric generating power plant. In the event that the existing electric generating power plant is closed as a result of an unexpected or unplanned cause or event, then the following process shall apply:

(1) Within one hundred twenty days after the event causing the closure occurs, the electrical corporation shall file an application with the commission outlining its plan to install replacement reliable electric generation. The application shall specify the generation technology the electrical corporation proposes to be used for the replacement, its estimated cost, and shall demonstrate that the replacement reliable electric generation's average accredited capacity is equal to or greater than the average accredited capacity of the closed plant according to the process outlined in subsection 2 of this section. The application under this section shall be submitted to the commission prior to the electrical corporation's filing of an application to the commission under subsection 1 of section 393.170. Within two hundred seventy days of the application's filing, the commission shall either approve or deny the electrical corporation's application.

(2) Promptly after issuance of the commission's order under subdivision (1) of this subsection, the electrical corporation shall proceed and use all reasonable efforts to procure, build, and place into operation the approved alternative reliable generation. During any periods allowed by this subsection where the replacement reliable electric generation is not fully operational by the time of the closure of the existing electric generating power plant, the electrical corporation shall use all reasonable efforts to contract for or otherwise acquire additional available firm generating capacity in a quantity necessary to meet the planning reserve margin requirement of the regional transmission operator in which the electrical corporation operates without reliance on such replacement reliable electric generation. At such time as such replacement reliable electric generation is fully operational, such additional available firm generating capacity shall no longer be required under this section. An electrical corporation shall not enter into a voluntary or negotiated settlement with a third party that requires closure of an existing electric generating plant unless the electrical corporation determines that such a settlement is in the best interest of its

Matter in bold-face type is proposed language.

customers and would maintain electric reliability. Electrical corporations shall not enter into such a settlement in order to meet pollution reduction or other corporate or societal goals beyond those required by law.

4. (1) The average of the summer and winter accredited capacity of the replacement reliable electric generation determined in accordance with subsection 2 of this section shall be equal to or greater than the average summer and winter accredited capacity of the to-be-closed dispatchable existing electric generating power plant determined in accordance with subsection 2 of this section, using the regional transmission operator's resource accreditation as of the time of the electrical corporation's application to the commission under subsection 1 of section 393.170 with consideration of the electrical corporation's anticipated loss of load, if any.

(2) The commission may consider information regarding anticipated loss of load submitted by the electrical corporation to the pertinent regional transmission operator for purposes of its long-term resource plans. As part of its approval of the replacement reliable electric generation under subsection 1 of section 393.170, the public service commission shall certify that the requirements of this subsection shall be met by the replacement reliable electric generation.

(3) If information is submitted to the commission that the electrical corporation has experienced a significant and long-term loss of load, pursuant to this section, the commission, prior to a review of potential replacement reliable electric generation under subsection 1 of section 393.170, shall determine if the acquisition or construction of full replacement generation is in the public interest. If the commission determines that full replacement generation is not in the public interest, the requirements of subsection 2 of this section shall not apply.

5. Such reliable electric generation may be constructed in Missouri or in a state that neighbors Missouri, if the generation is connected to the electric grid of the regional transmission operator of which the electrical corporation is a member or is located in a neighboring regional transmission operator which also operates in Missouri and shares a seam with that member's regional transmission operator.

6. On or before the date that the new reliable electric generation is placed in service, the electrical corporation shall provide certification to the public service commission, the general assembly, and the governor that it has met the requirements of this section.

7. To the extent existing electric generating power plant capacity is replaced pursuant to this section, such capacity shall not be replaced by "replacement resources" under section 393.1705.

393.1030. ELECTRIC UTILITIES, PORTFOLIO REQUIREMENTS — TRACKING REQUIREMENTS — REBATE OFFERS — CERTIFICATION OF ELECTRICITY GENERATED — RULEMAKING AUTHORITY. — 1. The commission shall, in consultation with the department, prescribe by rule a portfolio requirement for all electric utilities to generate or purchase electricity generated from renewable energy resources. Such portfolio requirement shall provide that electricity from renewable energy resources shall constitute the following portions of each electric utility's sales:

- (1) No less than two percent for calendar years 2011 through 2013;
- (2) No less than five percent for calendar years 2014 through 2017;
- (3) No less than ten percent for calendar years 2018 through 2020; and
- (4) No less than fifteen percent in each calendar year beginning in 2021.

At least two percent of each portfolio requirement shall be derived from solar energy. The portfolio requirements shall apply to all power sold to Missouri consumers whether such power is self-generated or purchased from another source in or outside of this state. A utility may comply with

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

the standard in whole or in part by purchasing RECs. Each kilowatt-hour of eligible energy generated in Missouri shall count as 1.25 kilowatt-hours for purposes of compliance.

2. (1) This subsection applies to electric utilities with more than two hundred fifty thousand but less than one million retail customers in Missouri as of the end of the calendar year 2024.

(2) Energy meeting the criteria of the renewable energy portfolio requirements set forth in subsection 1 of this section that is generated from renewable energy resources and contracted for by an accelerated renewable buyer shall:

(a) Have all associated renewable energy certificates retired by the accelerated renewable buyer, or on their behalf, and the certificates shall not be used to meet the electric utility's portfolio requirements pursuant to subsection 1 of this section;

(b) Be excluded from the total electric utility's sales used to determine the portfolio requirements pursuant to subsection 1 of this section; and

(c) Be used to offset all or a portion of its electric load for purposes of determining compliance with the portfolio requirements pursuant to subsection 1 of this section.

(3) The accelerated renewable buyer shall be exempt from any renewable energy standard compliance costs as may be established by the utility and approved by the commission, based on the amount of renewable energy certificates retired pursuant to this subsection in proportion to the accelerated renewable buyer's total electric energy consumption, on an annual basis.

(4) An "accelerated renewable buyer" means a customer of an electric utility, with an aggregate load over eighty average megawatts, that enters into a contract or contracts to obtain:

(a) Renewable energy certificates from renewable energy resources as defined in section 393.1025; or

(b) Energy and renewable energy certificates from solar or wind generation resources located within the Southwest Power Pool region and initially placed in commercial operation after January 1, 2020, including any contract with the electric utility for such generation resources that does not allocate to or recover from any other customer of the utility the cost of such resources.

(5) Each electric utility shall certify, and verify as necessary, to the commission that the accelerated renewable buyer has satisfied the exemption requirements of this subsection for each year, or an accelerated renewable buyer may choose to certify satisfaction of this exemption by reporting to the commission individually.

(6) The commission may promulgate such rules and regulations as may be necessary to implement the provisions of this subsection. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2025, shall be invalid and void.

(7) Nothing in this section shall be construed as imposing or authorizing the imposition of any reporting, regulatory, or financial burden on an accelerated renewable buyer.

3. The commission, in consultation with the department and within one year of November 4, 2008, shall select a program for tracking and verifying the trading of renewable energy credits. An unused credit may exist for up to three years from the date of its creation. A credit may be used only once to comply with sections 393.1020 to 393.1030 and may not also be used to satisfy any similar nonfederal requirement. An electric utility may not use a credit derived from a green pricing program. Certificates from net-metered sources shall initially be owned by the customer-

generator. The commission, except where the department is specified, shall make whatever rules are necessary to enforce the renewable energy standard. Such rules shall include:

(1) A maximum average retail rate increase of one percent determined by estimating and comparing the electric utility's cost of compliance with least-cost renewable generation and the cost of continuing to generate or purchase electricity from entirely nonrenewable sources, taking into proper account future environmental regulatory risk including the risk of greenhouse gas regulation. Notwithstanding the foregoing, until June 30, 2020, if the maximum average retail rate increase would be less than or equal to one percent if an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility is ignored for purposes of calculating the increase, then additional solar rebates shall be paid and included in rates in an amount up to the amount that would produce a retail rate increase equal to the difference between a one percent retail rate increase and the retail rate increase calculated when ignoring an electric utility's investment in solar-related projects initiated, owned, or operated by the electric utility. Notwithstanding any provision to the contrary in this section, even if the payment of additional solar rebates will produce a maximum average retail rate increase of greater than one percent when an electric utility's investment in solar-related projects initiated, owned or operated by the electric utility are included in the calculation, the additional solar rebate costs shall be included in the prudently incurred costs to be recovered as contemplated by subdivision (4) of this subsection;

(2) Penalties of at least twice the average market value of renewable energy credits for the compliance period for failure to meet the targets of subsection 1 of this section. An electric utility will be excused if it proves to the commission that failure was due to events beyond its reasonable control that could not have been reasonably mitigated, or that the maximum average retail rate increase has been reached. Penalties shall not be recovered from customers. Amounts forfeited under this section shall be remitted to the department to purchase renewable energy credits needed for compliance. Any excess forfeited revenues shall be used by the division of energy solely for renewable energy and energy efficiency projects;

(3) Provisions for an annual report to be filed by each electric utility in a format sufficient to document its progress in meeting the targets;

(4) Provision for recovery outside the context of a regular rate case of prudently incurred costs and the pass-through of benefits to customers of any savings achieved by an electrical corporation in meeting the requirements of this section.

[3.] 4. As provided for in this section, except for those electrical corporations that qualify for an exemption under section 393.1050, each electric utility shall make available to its retail customers a solar rebate for new or expanded solar electric systems sited on customers' premises, up to a maximum of twenty-five kilowatts per system, measured in direct current that were confirmed by the electric utility to have become operational in compliance with the provisions of section 386.890. The solar rebates shall be two dollars per watt for systems becoming operational on or before June 30, 2014; one dollar and fifty cents per watt for systems becoming operational between July 1, 2014, and June 30, 2015; one dollar per watt for systems becoming operational between July 1, 2015, and June 30, 2016; fifty cents per watt for systems becoming operational between July 1, 2016, and June 30, 2017; fifty cents per watt for systems becoming operational between July 1, 2017, and June 30, 2019; twenty-five cents per watt for systems becoming operational between July 1, 2019, and June 30, 2020; and zero cents per watt for systems becoming operational after June 30, 2020. An electric utility may, through its tariffs, require applications for rebates to be submitted up to one hundred eighty-two days prior to the June thirtieth operational date. Nothing in this section shall prevent an electrical corporation from offering rebates after July 1, 2020, through an approved tariff. If the electric utility determines the maximum average retail

Matter in bold-face type is proposed language.

rate increase provided for in subdivision (1) of subsection [2] 3 of this section will be reached in any calendar year, the electric utility shall be entitled to cease paying rebates to the extent necessary to avoid exceeding the maximum average retail rate increase if the electrical corporation files with the commission to suspend its rebate tariff for the remainder of that calendar year at least sixty days prior to the change taking effect. The filing with the commission to suspend the electrical corporation's rebate tariff shall include the calculation reflecting that the maximum average retail rate increase will be reached and supporting documentation reflecting that the maximum average retail rate increase will be reached. The commission shall rule on the suspension filing within sixty days of the date it is filed. If the commission determines that the maximum average retail rate increase will be reached, the commission shall approve the tariff suspension. The electric utility shall continue to process and pay applicable solar rebates until a final commission ruling; however, if the continued payment causes the electric utility to pay rebates that cause it to exceed the maximum average retail rate increase, the expenditures shall be considered prudently incurred costs as contemplated by subdivision (4) of subsection [2] 3 of this section and shall be recoverable as such by the electric utility. As a condition of receiving a rebate, customers shall transfer to the electric utility all right, title, and interest in and to the renewable energy credits associated with the new or expanded solar electric system that qualified the customer for the solar rebate for a period of ten years from the date the electric utility confirmed that the solar electric system was installed and operational.

[4.] 5. The department shall, in consultation with the commission, establish by rule a certification process for electricity generated from renewable resources and used to fulfill the requirements of subsection 1 of this section. Certification criteria for renewable energy generation shall be determined by factors that include fuel type, technology, and the environmental impacts of the generating facility. Renewable energy facilities shall not cause undue adverse air, water, or land use impacts, including impacts associated with the gathering of generation feedstocks. If any amount of fossil fuel is used with renewable energy resources, only the portion of electrical output attributable to renewable energy resources shall be used to fulfill the portfolio requirements.

[5.] 6. In carrying out the provisions of this section, the commission and the department shall include methane generated from the anaerobic digestion of farm animal waste and thermal depolymerization or pyrolysis for converting waste material to energy as renewable energy resources for purposes of this section.

[6.] 7. The commission shall have the authority to promulgate rules for the implementation of this section, but only to the extent such rules are consistent with, and do not delay the implementation of, the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

393.1080. CAPACITY OBLIGATION DOCUMENTATION — AUDITS, WHEN — FAILURE TO HAVE SUFFICIENT CAPACITY — DEFINITIONS. — 1. The commission may require an electrical corporation to provide documentation annually, in a format determined by the commission, reflecting its plan to own or have rights to sufficient capacity to meet its capacity obligations for the upcoming planning year and each of the three subsequent planning years. The electrical corporation shall submit such documentation, which shall include its actual capacity position for

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

the upcoming planning year and a reasonable forecast of its capacity position for the three subsequent planning years consistent with resource adequacy requirements of the appropriate regional transmission organization or independent system operator or commission, including by season or other applicable period, within thirty days after the appropriate regional transmission organization or independent system operator or commission, if applicable, makes a final determination as to the electrical corporation's resource adequacy requirements for the upcoming planning year.

2. The commission may require any additional audits and reporting as the commission considers necessary to determine if an electrical corporation's plan provides for electrical corporation ownership or contractual rights to sufficient capacity for the planning year beginning four years after the beginning of the current planning year.

3. If an electrical corporation fails to have sufficient capacity for the upcoming planning year and it is determined by the commission to be the result of the electrical corporation's imprudence, the commission may disallow, after a hearing, any associated costs related to said failure in a future proceeding. The commission may require submission of a plan within six months to resolve any expected capacity deficiency for the subsequent three planning years.

4. As used in this section, the following terms shall mean:

(1) "Appropriate regional transmission organization or independent system operator", the Midcontinent Independent System Operator or any successor organization or the Southwest Power Pool, or any successor organization;

(2) "Electrical corporation", the same as defined in section 386.020, but shall not include an electrical corporation as described in subsection 2 of section 393.110;

(3) "Sufficient capacity", owned or contracted-for capacity that meets the planning reserve margin or successor metric established by the appropriate regional transmission organization or independent system operator or, in the case of an electrical corporation that is not a participant in a regional transmission organization or independent system operator, that meets the planning reserve margin or successor metric established by the commission.

5. The commission may promulgate rules necessary to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2025, shall be invalid and void.

393.1400. DEFERRAL OF DEPRECIATION TO REGULATORY ASSET — DEFINITIONS — RETURN FOR QUALIFYING ELECTRIC PLANT RECORDED TO PLANT-IN-SERVICE ON UTILITY'S BOOKS — REGULATORY ASSET BALANCES — REQUIREMENTS — GRID MODERNIZATION PROJECTS — EXPIRATION DATE. — 1. For purposes of this section, the following terms shall mean:

(1) "Commission", the public service commission;

(2) "Electrical corporation", the same as defined in section 386.020, but shall not include an electrical corporation as described in subsection 2 of section 393.110;

(3) "Qualifying electric plant", all rate-base additions, except rate-base additions for new coal-fired generating units, new nuclear generating units, [new natural gas units,] or rate-base additions that increase revenues by allowing service to new customer premises;

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

(4) "Rate-base cutoff date", the date rate-base additions are accounted for in a general rate proceeding. In the absence of a commission order that specifies the rate-base cutoff date, such date as reflected in any jointly proposed procedural schedule submitted by the parties in the applicable general rate proceeding, or as otherwise agreed to by such parties, shall be used;

(5) "Weighted average cost of capital", the return on rate base used to determine the revenue requirement in the electrical corporation's most recently completed general rate proceeding; provided, that in the absence of a commission determination of the return on rate base within the three-year period prior to August 28, [2022] 2024, the weighted average cost of capital shall be determined using the electrical corporation's actual capital structure as of December 31, [2021] 2023, excluding short-term debt, the electrical corporation's actual cost of long-term debt and preferred stock as of December 31, 2021, and a cost of common equity of nine and one-half percent.

2. (1) Notwithstanding any other provision of this chapter to the contrary, electrical corporations shall defer to a regulatory asset eighty-five percent of all depreciation expense and return associated with all qualifying electric plant recorded to plant-in-service on the utility's books commencing on or after August 28, 2018, if the electrical corporation has made the election provided for by subsection 5 of this section by that date, or on the date such election is made if the election is made after August 28, 2018. In each general rate proceeding concluded after August 28, 2018, the balance of the regulatory asset as of the rate-base cutoff date shall, subject only to the cap provided for in section 393.1655 or section 393.1656, as applicable, be included in the electrical corporation's rate base without any offset, reduction, or adjustment based upon consideration of any other factor, other than as provided for in subdivision (2) of this subsection, with the regulatory asset balance arising from deferrals associated with qualifying electric plant placed in service after the rate-base cutoff date to be included in rate base in the next general rate proceeding. The expiration of this section shall not affect the continued inclusion in rate base and amortization of regulatory asset balances that arose under this section prior to such expiration.

(2) The regulatory asset balances arising under this section shall be adjusted to reflect any prudence disallowances ordered by the commission. The provisions of this section shall not be construed to affect existing law respecting the burdens of production and persuasion in general rate proceedings for rate-base additions.

(3) Parts of regulatory asset balances created under this section that are not yet being recovered through rates shall include carrying costs at the electrical corporation's weighted average cost of capital, plus applicable federal, state, and local income or excise taxes. Regulatory asset balances arising under this section and included in rate base shall be recovered in rates through a twenty-year amortization beginning on the date new rates reflecting such amortization take effect.

3. (1) Depreciation expense deferred under this section shall account for all qualifying electric plant placed into service less retirements of plant replaced by such qualifying electric plant.

(2) Return deferred under this section shall be determined using the weighted average cost of capital applied to the change in plant-related rate base caused by the qualifying electric plant, plus applicable federal, state, and local income or excise taxes. In determining the return deferred, the electrical corporation shall account for changes in all plant-related accumulated deferred income taxes and changes in accumulated depreciation, excluding retirements.

4. Beginning February 28, 2019, and by each February twenty-eighth thereafter while the electrical corporation is allowed to make the deferrals provided for by subsection 2 of this section, electrical corporations that defer depreciation expense and return authorized under this section shall submit to the commission a five-year capital investment plan setting forth the general categories of capital expenditures the electrical corporation will pursue in furtherance of replacing,

modernizing, and securing its infrastructure. The plan shall also include a specific capital investment plan for the first year of the five-year plan consistent with the level of specificity used for annual capital budgeting purposes. For each project in the specific capital investment plan on which construction commences on or after January first of the year in which the plan is submitted, and where the cost of the project is estimated to exceed twenty million dollars, the electrical corporation shall identify all costs and benefits that can be quantitatively evaluated and shall further identify how those costs and benefits are quantified. For any cost or benefit with respect to such a project that the electrical corporation believes cannot be quantitatively evaluated, the electrical corporation shall state the reasons the cost or benefit cannot be quantitatively evaluated, and how the electrical corporation addresses such costs and benefits when reviewing and deciding to pursue such a project. No such project shall be based solely on costs and benefits that the electrical corporation believes cannot be quantitatively evaluated. Any quantification for such a project that does not produce quantified benefits exceeding the costs shall be accompanied by additional justification in support of the project. For each of the first five years that an electrical corporation is allowed to make the deferrals provided for by subsection 2 of this section, the purchase and installation of smart meters shall constitute no more than six percent of the electrical corporation's total capital expenditures during any given year under the corporation's specific capital investment plan. At least twenty-five percent of the cost of the investments reflected in each year's capital investment plan, which for the purposes of this subsection shall exclude the costs of investments in new generating units and energy storage systems, shall be comprised of grid modernization projects, including but not limited to:

- (1) Increased use of digital information and controls technology to improve reliability, security, and efficiency of the electric grid;
- (2) Dynamic optimization of grid operations and resources, with full cybersecurity;
- (3) Deployment and integration of distributed resources and generation, including renewable resources;
- (4) Development and incorporation of demand response, demand-side resources, and energy-efficiency resources;
- (5) Deployment of smart technologies (real-time, automated, interactive technologies that optimize the physical operation of appliances and consumer devices) for metering, communications, concerning grid operations and status, and distribution automation;
- (6) Integration of smart appliances and devices;
- (7) Deployment and integration of advanced electricity storage and peak-shaving technologies, including plug-in electric and hybrid electric vehicles, and thermal storage air conditioning;
- (8) Provision of timely information and control options to consumer;
- (9) Development of standards for communication and interoperability of appliances and equipment connected to the electric grid, including the infrastructure serving the grid; and
- (10) Identification and lowering of unreasonable or unnecessary barriers to adoption of smart grid technologies, practices, and services.

Project specific information need not be included for the five-year period covered by the plan. Within thirty days of the filing of any capital investment plan or annual update to an existing plan, the electrical corporation shall host a public stakeholder meeting to answer questions and receive feedback about the plan. After feedback is received, the electrical corporation shall file a notice with the commission of any modifications to the capital investment plan it has accepted. Changes to the plan, its implementation, or the level of investments made shall not constitute evidence of

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

imprudence of the investments made under such plan. The submission of a capital investment plan under this section shall not affect in any way the commission's authority with respect to the grant or denial of a certificate of convenience and necessity under section 393.170. By February twenty-eighth following each year in which the electrical corporation submits a capital investment plan, the electrical corporation shall submit a report to the commission detailing actual capital investments made the previous year, the quantitatively evaluated benefits and costs generated by each of those investments that exceeded twenty million dollars, and any efficiencies achieved as a result of those investments.

5. This section shall only apply to any electrical corporation that has filed a notice with the commission of the electrical corporation's election to make the deferrals for which this section provides. An electrical corporation may provide notice to the commission one time under this subsection if such corporation has applied to the commission under subsection 2 of section 386.266, provided the corporation shall not concurrently utilize deferrals under this subsection and the electric rate adjustments set forth in subsection 3 of section 386.266. An electrical corporation's election shall allow it to make the deferrals provided for by subsection 2 of this section until December 31, [2028] 2035. Notwithstanding the immediately preceding sentence, an electrical corporation may seek permission to continue to make the deferrals provided for by subsection 2 of this section for an additional five years beyond December 31, [2028] 2035, by filing an application with the commission seeking such permission by December 31, [2026] 2033, which application shall be ruled upon by the commission within one hundred eighty days after its filing. In deciding whether to grant such permission to continue the commission shall have the authority, consistent with its statutory authority outside this section, to consider such factors as in its judgment it deems necessary and may condition the permission on factors that are relevant to the deferrals authorized by subsection 2 of this section. The commission shall make the determination of whether to grant such permission to continue after a hearing. An electrical corporation making deferrals provided for by subsection 2 of this section on and after January 1, 2024, shall be subject to the revenue requirement impact cap set forth under section 393.1656. Failure to obtain such commission permission to continue shall not affect deferrals made through the date for which permission has been granted, or the regulatory and ratemaking treatment of the regulatory assets arising from such deferrals as provided for by this section.

6. The commission may take into account any change in business risk to the corporation resulting from implementation of the deferrals in setting the corporation's allowed return in any rate proceeding, in addition to any other changes in business risk experienced by the corporation.

7. This section shall expire on December 31, [2033] 2040, except that the amortization of the regulatory asset balances arising under this section shall continue to be reflected in the electrical corporation's rates and remaining regulatory asset balances shall be included in the electrical corporation's rate base consistent with the ratemaking treatment and amortization previously approved by the commission pursuant to this section.

393.1506. ESTABLISHMENT OF OR CHANGE TO WSIRA FOR RECOVERY OF APPROPRIATE PRETAX REVENUES, WHEN, PROCEDURE. — 1. Notwithstanding any provisions of chapter 386 and this chapter to the contrary, a water or sewer corporation that provides water [or sewer] service to more than eight thousand customer connections, sewer service to more than eight thousand customer connections, or a combination of either to more than eight thousand customer connections may file a petition and proposed rate schedules with the commission to establish or change a WSIRA that will provide for the recovery of the appropriate pretax revenues associated with the eligible infrastructure system projects, less the appropriate pretax revenues associated with

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

any retired utility plant that is being replaced by the eligible infrastructure system projects. The WSIRA shall not produce revenues in excess of fifteen percent of the water or sewer corporation's base revenue requirement approved by the commission in the water or sewer corporation's most recent general rate proceeding; provided, however, that neither WSIRA revenues attributable to replacement of customer-owned lead service lines, nor any reconciliation amounts described in subdivision (2) of subsection 5 of section 393.1509, shall count toward the program cap. The WSIRA and any future changes thereto shall be calculated and implemented in accordance with the provisions of sections 393.1503 to 393.1509. WSIRA revenues shall be subject to refund based upon a finding and order of the commission, to the extent provided in subsections 5 and 8 of section 393.1509.

2. The commission shall not approve a WSIRA for a water or sewer corporation that has not had a general rate proceeding decided or dismissed by issuance of a commission order within the past three years of the filing of a petition pursuant to this section unless the water or sewer corporation has filed for or is the subject of a new general rate proceeding.

3. In no event shall a water or sewer corporation collect a WSIRA for a period exceeding three years unless the water or sewer corporation has filed for or is the subject of a pending general rate proceeding; provided that the WSIRA may be collected until the effective date of new rate schedules established as a result of the new general rate proceeding or until the subject general rate proceeding is otherwise decided or dismissed by issuance of a commission order without new rates being established.

4. Except as provided in this subsection, in no event shall a water or sewer corporation collect a WSIRA if also collecting revenues from a commission approved infrastructure system replacement surcharge as provided in sections 393.1000 to 393.1006. In no event shall a customer be charged both an infrastructure system replacement surcharge as provided in sections 393.1000 to 393.1006 and a WSIRA. In the event a water or sewer corporation is collecting infrastructure system replacement surcharge revenues under sections 393.1000 to 393.1006, that was approved prior to August 28, 2021, when the initial WSIRA is filed, the approved infrastructure system replacement surcharge revenues shall be included in the new WSIRA filing.

393.1645. GAS CORPORATION ACCOUNTS — ELIGIBILITY FOR DISCOUNTS, WHEN — PROCEDURE. — 1. Subject to the limitations provided for in subsection 2 of this section, and upon proper application by an eligible customer prior to public announcement of a growth project, a new or existing account meeting the criteria in this subsection shall qualify for one of the discounts set forth in subdivision (1) or (2) of this subsection:

(1) When the customer is a new customer and the new load is reasonably projected to be at least two hundred seventy thousand CCF annually, the discount shall equal up to twenty-five percent subject to the limiting provisions of this section and shall apply for four years; or

(2) When the customer is an existing customer and the new load is reasonably projected to be at least one hundred thirty-five thousand CCF annually, the discount shall equal twenty-five percent subject to the limiting provisions of this section and shall apply for four years.

To obtain one of the discounts set forth in subdivision (1) or (2) of this subsection, the customer's load shall be incremental, net of any offsetting load reductions due to the termination of other accounts of the customer or an affiliate of the customer within twelve months prior to the commencement of service to the new load, the customer shall receive an economic development incentive from the local, regional, state, or federal government, or from an agency or program of any such government, in conjunction with the incremental load, and the customer shall meet the

criteria set forth in the gas corporation's economic development rider tariff sheet, as approved by the commission, that are not inconsistent with the provisions of this subsection. Unless otherwise provided for by the gas corporation's tariff, the applicable discount shall be a percentage applied to all variable base-rate components of the bill. The discount shall be applied to such incremental load from the date when the meter has been permanently set until the date that such incremental load no longer meets the criteria required to qualify for the discount as determined under the provisions of subsection 2 of this section, or a maximum of four years. The gas corporation may include in its tariff additional or alternative terms and conditions to a customer's utilization of the discount, subject to approval of such terms and conditions by the commission. The customer, on forms supplied by the gas corporation, shall apply for the applicable discount provided for by this subsection at least ninety days prior to the date the customer requests that the incremental usage receive one of the discounts provided for by this subsection and shall enter into a written agreement with the gas corporation reflecting the discount percentages and other pertinent details prior to which no discount will be available. If the incremental usage is not separately metered, the gas corporation's determination of the incremental usage shall control. The gas corporation shall verify the customer's consumption annually to determine continued qualification for the applicable discount. Notwithstanding the foregoing provisions of this subsection, the cents-per-CCF realization resulting from application of any discounted rates as calculated shall be higher than the gas corporation's variable cost to serve such incremental usage and the applicable discounted rate also shall make a positive contribution to fixed costs associated with service to such incremental usage. If in a subsequent general rate proceeding the commission determines that application of a discounted rate is not adequate to cover the gas corporation's variable cost to serve the accounts in question and provide a positive contribution to fixed costs, then the commission shall reduce the discount for those accounts prospectively to the extent necessary to do so.

2. In each general rate proceeding concluded after August 28, 2025, the difference in revenues generated by applying the discounted rates provided for by this section and the revenues that would have been generated without such discounts shall not be imputed into the gas corporation's revenue requirement, but instead such revenue requirement shall be set using the revenues generated by such discounted rates, and the impact of the discounts provided for by this section shall be allocated to all the gas corporation's customer classes, including the classes with customers that qualify for discounts under this section, through the application of a uniform percentage adjustment to the revenue requirement responsibility of all customer classes. To qualify for the discounted rates provided for in this section, customers shall meet the applicable criteria within twenty-four months of initially receiving discounts based on metering data for calendar months thirteen through twenty-four and annually thereafter. If such data indicates that the customer did not meet the applicable criteria for any subsequent twelve-month period, it shall thereafter no longer qualify for a discounted rate. Customer usage existing at the time the customer makes an application for discounted rates under this section shall not constitute incremental usage. The discounted rates provided for by this section apply only to variable base-rate components, with charges or credits arising from any rate adjustment mechanism authorized by law to be applied to customers qualifying for discounted rates under this section in the same manner as such rate adjustments would apply in absence of this section.

3. For purposes of this section, the following terms shall mean:

- (1) "Gas corporation", the same as defined in section 386.020;
- (2) "Variable base-rate components", the rate charged for gas service based on the volume of gas used excluding any additional riders or surcharges.

393.1656. ELECTRIC CORPORATION BASE RATES — REGULATORY ASSET BALANCE INCLUSION, IMPACT CAP, EFFECT ON — EXCESS AMOUNT NOT INCLUDED IN RATE BASE — DEFINITIONS. — 1. This section applies beginning January 1, 2024, to an electrical corporation that has elected to exercise any option under section 393.1400 and shall continue to apply to such electrical corporation until such electrical corporation's permission to make the deferrals authorized by subsection 2 of section 393.1400 expires.

2. That part of the electrical corporation's retail revenue requirement used to set the electrical corporation's base rates in each of the electrical corporation's general rate proceedings that are concluded on or after August 31, 2023, that consists of revenue requirement arising from inclusion in rate base of the section 393.1400 regulatory asset balance shall not exceed the revenue requirement impact cap. If inclusion in rate base of the full balance of the subject section 393.1400 regulatory asset would cause the electrical corporation to exceed the revenue requirement impact cap, that part of the balance necessary to prevent inclusion of the full balance from causing an exceedance of the revenue requirement impact cap shall not be included in rate base and the section 393.1400 regulatory asset balance shall be reduced accordingly as a penalty.

3. For purposes of this section, the following terms shall mean:

- (1) "Commission", the public service commission;
- (2) "Electrical corporation", the same as defined in section 386.020, but shall not include an electrical corporation as described in subsection 2 of section 393.110;
- (3) "Rate-base cutoff date", the date rate-base additions are accounted for in a general rate proceeding. In the absence of a commission order that specifies the rate-base cutoff date, such date as reflected in any jointly proposed procedural schedule submitted by the parties in the applicable general rate proceeding, or as otherwise agreed to by such parties, shall be used;
- (4) "Revenue requirement impact cap", the product of (i) one-twelfth of two and ~~one-half~~ one-quarter percent, multiplied by (ii) the number of months that have elapsed from the effective date of new base rates in the electrical corporation's most recently completed general rate proceeding to the effective date of new base rates in the general rate proceeding in which the cap is being applied, with that product to be multiplied by the retail revenue requirement used to set base rates in the electrical corporation's most recently completed general rate proceeding concluded prior to the general rate proceeding in which the cap is being applied;
- (5) "Subject section 393.1400 regulatory asset", deferrals under section 393.1400 from the rate-base cutoff date in the electrical corporation's prior general rate proceeding to the rate-base cutoff date in the current general rate proceeding in which the cap reflected in subsection 2 of this section is being applied.

393.1680. SPECIAL ALTERNATIVE RESIDENTIAL CUSTOMER RATE, WHEN. — 1. Notwithstanding any other provision of law to the contrary, the commission may approve a special alternative residential customer rate or bill discount from a utility company, as defined in section 393.550, based in part on household utility burden. The rate or bill discount approved shall incorporate a commission-authorized rate or bill discount from the appropriate base residential rate. For purposes of this subsection, "utility burden" means the percentage of income paid by a customer to a utility company for the cost of electricity, natural gas, or water service. Any eligibility verification needed to implement the new alternative rate shall be done by an independent third party or parties selected by a process established by the commission that includes input from the utility company and the office of the public counsel.

2. The commission shall promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority

delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2025, shall be invalid and void.

successors or assignees under commission-approved rate schedules, except for customers receiving electrical service under special contracts as of August 28, 2021, even if a retail customer elects to purchase electricity from an alternative electricity supplier following a fundamental change in regulation of public utilities in this state. Any customer receiving electrical service under a commission-approved market-based tariff with a load of at least eighty megawatts, where the servicing electrical corporation has a commission-approved market-based tariff as of the end of calendar year 2022, is exempt from any securitized utility tariff charges if the charge was approved by the commission prior to customer energization and from any future securitized utility tariff charges related to qualified extraordinary costs, concerning energy, if the customer directly incurred costs for its own energy through the commission-approved market-based tariff. application of the traditional method of financing and recovering the undepreciated investment of facilities that may become securitized utility tariff costs from customers. (g) A proposed future ratemaking process to reconcile any differences between securitized utility tariff costs financed by securitized utility tariff bonds and the final securitized costs incurred by the electrical corporation or assignee provided that any such reconciliation shall not affect the amount of securitized utility tariff bonds or the associated securitized utility tariff charges paid by customers; and

(h) Direct testimony supporting the petition.

(2) An electrical corporation may petition the commission for a financing order to finance qualified extraordinary costs. The petition shall include all of the following:

(a) A description of the qualified extraordinary costs, including their magnitude, the reasons those costs were incurred by the electrical corporation and the retail customer rate impact that would result from customary ratemaking treatment of such costs;

(b) An indicator of whether the electrical corporation proposes to finance all or a portion of the qualified extraordinary costs using securitized utility tariff bonds. If the electrical corporation proposes to finance a portion of the costs, the electrical corporation shall identify the specific portion in the petition. (c) An estimate of the financing costs related to the securitized utility tariff bonds;

(d) An estimate of the securitized utility tariff charges necessary to recover the qualified extraordinary costs and financing costs and the period for recovery of such costs;

(e) A comparison between the net present value of the costs to customers that are estimated to result from the issuance of securitized utility tariff bonds and the costs that would result from the application of the customary method of financing and reflecting the qualified extraordinary costs in retail customer rates. The comparison should demonstrate that the issuance of securitized utility tariff bonds and the imposition of securitized utility tariff charges are expected to provide quantifiable net present value benefits to retail customers;

(f) A proposed future ratemaking process to reconcile any differences between securitized utility tariff costs financed by securitized utility tariff bonds and the final securitized costs incurred by the electrical corporation or assignee provided that any such reconciliation shall not affect the amount of securitized utility tariff bonds or the associated securitized utility tariff charges paid by customers; and

(g) Direct testimony supporting the petition.

(3) (a) Proceedings on a petition submitted pursuant to this subsection begin with the petition by an electrical corporation and shall be disposed of in accordance with the requirements of this section and the rules of the commission, except as follows:

a. The commission shall establish a procedural schedule that permits a commission decision no later than two hundred fifteen days after the date the petition is filed;

b. No later than two hundred fifteen days after the date the petition is filed, the commission shall issue a financing order approving the petition, an order approving the petition subject to conditions, or an order rejecting the petition; provided, however, that the electrical corporation shall provide notice of intent to file a petition for a financing order to the commission no less than sixty days in advance of such filing;

c. Judicial review of a financing order may be had only in accordance with sections 386.500 and 386.510.

(b) In performing its responsibilities under this section in approving, approving subject to conditions, or rejecting a petition for a financing order, the commission may retain counsel, one or more financial advisors, or other consultants as it deems appropriate. Such outside counsel, advisor or advisors, or consultants shall owe a duty of loyalty solely to the commission and shall have no interest in the proposed securitized utility tariff bonds. The costs associated with any such engagements shall be paid by the petitioning corporation and shall be included as financed costs in the securitized utility tariff charge and shall not be an obligation of the state and shall be assigned solely to the subject transaction. The commission may directly contract counsel, financial advisors, or other consultants as necessary for effectuating the purposes of this section. Such contracting procedures shall not be subject to the provisions of chapter 34, however the commission shall establish a policy for the bid process. Such policy shall be publicly available and any information related to contracts under the established policy shall be included in publicly available rate case documentation.

(c) A financing order issued by the commission, after a hearing, to an electrical corporation shall include all of the following elements:

a. The amount of securitized utility tariff costs to be financed using securitized utility tariff bonds and a finding that recovery of such costs is just and reasonable and in the public interest. The commission shall describe and estimate the amount of financing costs that may be recovered through securitized utility tariff charges and specify the period over which securitized utility tariff costs and financing costs may be recovered;

b. A finding that the proposed issuance of securitized utility tariff bonds and the imposition and collection of a securitized utility tariff charge are just and reasonable and in the public interest and are expected to provide quantifiable net present value benefits to customers as compared to recovery of the components of securitized utility tariff costs that would have been incurred absent the issuance of securitized utility tariff bonds. Notwithstanding any provisions of this section to the contrary, in considering whether to find the proposed issuance of securitized utility tariff bonds and the imposition and collection of a securitized utility tariff charge are just and reasonable and in the public interest, the commission may consider previous instances where it has issued financing orders to the petitioning electrical corporation and such electrical corporation has previously issued securitized utility tariff bonds;

c. A finding that the proposed structuring and pricing of the securitized utility tariff bonds are reasonably expected to result in the lowest securitized utility tariff charges consistent with market conditions at the time the securitized utility tariff bonds are priced and the terms of the financing order;

d. A requirement that, for so long as the securitized utility tariff bonds are outstanding and until all financing costs have been paid in full, the imposition and collection of securitized utility tariff charges authorized under a financing order shall be nonbypassable and paid by all existing and future retail customers receiving electrical service from the electrical corporation or its successors or assignees under commission-approved rate schedules except for customers receiving electrical service under special contracts on August 28, 2021, even if a retail customer elects to purchase electricity from an alternative electric supplier following a fundamental change in regulation of public utilities in this state. Any customer receiving electrical service under a commission-approved market-based tariff with a load of at least eighty megawatts, where the servicing electrical corporation has a commission-approved market-based tariff as of the end of calendar year 2022, is exempt from any securitized utility tariff charges if the charge was approved

by the commission prior to customer energization and from any future securitized utility tariff charges related to qualified extraordinary costs, concerning energy, if the customer directly incurred costs for its own energy through the commission-approved market-based tariff. No such exemption shall apply for electrical service that is not received by the customer under a commission-approved market-based tariff;

e. A formula-based true-up mechanism for making, at least annually, expeditious periodic adjustments in the securitized utility tariff charges that customers are required to pay pursuant to the financing order and for making any adjustments that are necessary to correct for any overcollection or undercollection of the charges or to otherwise ensure the timely payment of securitized utility tariff bonds and financing costs and other required amounts and charges payable under the securitized utility tariff bonds;

f. The securitized utility tariff property that is, or shall be, created in favor of an electrical corporation or its successors or assignees and that shall be used to pay or secure securitized utility tariff bonds and approved financing costs;

g. The degree of flexibility to be afforded to the electrical corporation in establishing the terms and conditions of the securitized utility tariff bonds, including, but not limited to, repayment schedules, expected interest rates, and other financing costs;

h. How securitized utility tariff charges will be allocated among retail customer classes. The initial allocation shall remain in effect until the electrical corporation completes a general rate proceeding, and once the commission's order from that general rate proceeding becomes final, all subsequent applications of an adjustment mechanism regarding securitized utility tariff charges shall incorporate changes in the allocation of costs to customers as detailed in the commission's order from the electrical corporation's most recent general rate proceeding;

i. A requirement that, after the final terms of an issuance of securitized utility tariff bonds have been established and before the issuance of securitized utility tariff bonds, the electrical corporation determines the resulting initial securitized utility tariff charge in accordance with the financing order, and that such initial securitized utility tariff charge be final and effective upon the issuance of such securitized utility tariff bonds with such charge to be reflected on a compliance tariff sheet bearing such charge;

j. A method of tracing funds collected as securitized utility tariff charges, or other proceeds of securitized utility tariff property, determining that such method shall be deemed the method of tracing such funds and determining the identifiable cash proceeds of any securitized utility tariff property subject to a financing order under applicable law;

k. A statement specifying a future ratemaking process to reconcile any differences between the actual securitized utility tariff costs financed by securitized utility tariff bonds and the final securitized utility tariff costs incurred by the electrical corporation or assignee provided that any such reconciliation shall not affect the amount of securitized utility tariff bonds or the associated securitized utility tariff charges paid by customers;

l. A procedure that shall allow the electrical corporation to earn a return, at the cost of capital authorized from time to time by the commission in the electrical corporation's rate proceedings, on any moneys advanced by the electrical corporation to fund reserves, if any, or capital accounts established under the terms of any indenture, ancillary agreement, or other financing documents pertaining to the securitized utility tariff bonds;

m. In a financing order granting authorization to securitize energy transition costs or in a financing order granting authorization to securitize qualified extraordinary costs that include retired or abandoned facility costs, a procedure for the treatment of accumulated deferred income taxes and excess deferred income taxes in connection with the retired or abandoned or to be retired

or abandoned electric generating facility, or in connection with retired or abandoned facilities included in qualified extraordinary costs. The accumulated deferred income taxes, including excess deferred income taxes, shall be excluded from rate base in future general rate cases and the net tax benefits relating to amounts that will be recovered through the issuance of securitized utility tariff bonds shall be credited to retail customers by reducing the amount of such securitized utility tariff bonds that would otherwise be issued. The customer credit shall include the net present value of the tax benefits, calculated using a discount rate equal to the expected interest rate of the securitized utility tariff bonds, for the estimated accumulated and excess deferred income taxes at the time of securitization including timing differences created by the issuance of securitized utility tariff bonds amortized over the period of the bonds multiplied by the expected interest rate on such securitized utility tariff bonds;

n. An outside date, which shall not be earlier than one year after the date the financing order is no longer subject to appeal, when the authority to issue securitized utility tariff bonds granted in such financing order shall expire; and

o. Include any other conditions that the commission considers appropriate and that are not inconsistent with this section.

(d) A financing order issued to an electrical corporation may provide that creation of the electrical corporation's securitized utility tariff property is conditioned upon, and simultaneous with, the sale or other transfer of the securitized utility tariff property to an assignee and the pledge of the securitized utility tariff property to secure securitized utility tariff bonds.

(e) If the commission issues a financing order, the electrical corporation shall file with the commission at least annually a petition or a letter applying the formula-based true-up mechanism and, based on estimates of consumption for each rate class and other mathematical factors, requesting administrative approval to make the applicable adjustments. The review of the filing shall be limited to determining whether there are any mathematical or clerical errors in the application of the formula-based true-up mechanism relating to the appropriate amount of any overcollection or undercollection of securitized utility tariff charges and the amount of an adjustment. The adjustments shall ensure the recovery of revenues sufficient to provide for the payment of principal, interest, acquisition, defeasance, financing costs, or redemption premium and other fees, costs, and charges in respect of securitized utility tariff bonds approved under the financing order. Within thirty days after receiving an electrical corporation's request pursuant to this paragraph, the commission shall either approve the request or inform the electrical corporation of any mathematical or clerical errors in its calculation. If the commission informs the electrical corporation of mathematical or clerical errors in its calculation, the electrical corporation shall correct its error and refile its request. The time frames previously described in this paragraph shall apply to a refiled request.

(f) At the time of any transfer of securitized utility tariff property to an assignee or the issuance of securitized utility tariff bonds authorized thereby, whichever is earlier, a financing order is irrevocable and, except for changes made pursuant to the formula-based true-up mechanism authorized in this section, the commission may not amend, modify, or terminate the financing order by any subsequent action or reduce, impair, postpone, terminate, or otherwise adjust securitized utility tariff charges approved in the financing order. After the issuance of a financing order, the electrical corporation retains sole discretion regarding whether to assign, sell, or otherwise transfer securitized utility tariff property or to cause securitized utility tariff bonds to be issued, including the right to defer or postpone such assignment, sale, transfer, or issuance.

(g) The commission, in a financing order and subject to the issuance advice letter process under paragraph (h) of this subdivision, shall specify the degree of flexibility to be afforded the

electrical corporation in establishing the terms and conditions for the securitized utility tariff bonds to accommodate changes in market conditions, including repayment schedules, interest rates, financing costs, collateral requirements, required debt service and other reserves and the ability of the electrical corporation, at its option, to effect a series of issuances of securitized utility tariff bonds and correlated assignments, sales, pledges, or other transfers of securitized utility tariff property. Any changes made under this paragraph to terms and conditions for the securitized utility tariff bonds shall be in conformance with the financing order.

(h) As the actual structure and pricing of the securitized utility tariff bonds will be unknown at the time the financing order is issued, prior to the issuance of each series of bonds, an issuance advice letter shall be provided to the commission by the electrical corporation following the determination of the final terms of such series of bonds no later than one day after the pricing of the securitized utility tariff bonds. The commission shall have the authority to designate a representative or representatives from commission staff, who may be advised by a financial advisor or advisors contracted with the commission, to provide input to the electrical corporation and collaborate with the electrical corporation in all facets of the process undertaken by the electrical corporation to place the securitized utility tariff bonds to market so the commission's representative or representatives can provide the commission with an opinion on the reasonableness of the pricing, terms, and conditions of the securitized utility tariff bonds on an expedited basis. Neither the designated representative or representatives from the commission staff nor one or more financial advisors advising commission staff shall have authority to direct how the electrical corporation places the bonds to market although they shall be permitted to attend all meetings convened by the electrical corporation to address placement of the bonds to market. The form of such issuance advice letter shall be included in the financing order and shall indicate the final structure of the securitized utility tariff bonds and provide the best available estimate of total ongoing financing costs. The issuance advice letter shall report the initial securitized utility tariff charges and other information specific to the securitized utility tariff bonds to be issued, as the commission may require. Unless an earlier date is specified in the financing order, the electrical corporation may proceed with the issuance of the securitized utility tariff bonds unless, prior to noon on the fourth business day after the commission receives the issuance advice letter, the commission issues a disapproval letter directing that the bonds as proposed shall not be issued and the basis for that disapproval. The financing order may provide such additional provisions relating to the issuance advice letter process as the commission considers appropriate and as are not inconsistent with this section.

(4) (a) In performing the responsibilities of this section in connection with the issuance of a financing order, approving the petition, an order approving the petition subject to conditions, or an order rejecting the petition, the commission shall undertake due diligence as it deems appropriate prior to the issuance of the order regarding the petition pursuant to which the commission may request additional information from the electrical corporation and may engage one or more financial advisors, one or more consultants, and counsel as the commission deems necessary. Any financial advisor or advisors, counsel, and consultants engaged by the commission shall have a fiduciary duty with respect to the proposed issuance of securitized utility bonds solely to the commission. All expenses associated with such services shall be included as part of the financing costs of the securitized utility tariff bonds and shall be included in the securitized utility tariff charge.

(b) If an electrical corporation's petition for a financing order is denied or withdrawn, or for any reason securitized utility tariff bonds are not issued, any costs of retaining one or more financial advisors, one or more consultants, and counsel on behalf of the commission shall be paid by the

petitioning electrical corporation and shall be eligible for full recovery, including carrying costs, if approved by the commission in the electrical corporation's future rates.

(5) At the request of an electrical corporation, the commission may commence a proceeding and issue a subsequent financing order that provides for refinancing, retiring, or refunding securitized utility tariff bonds issued pursuant to the original financing order if the commission finds that the subsequent financing order satisfies all of the criteria specified in this section for a financing order. Effective upon retirement of the refunded securitized utility tariff bonds and the issuance of new securitized utility tariff bonds, the commission shall adjust the related securitized utility tariff charges accordingly.

(6) (a) A financing order remains in effect and securitized utility tariff property under the financing order continues to exist until securitized utility tariff bonds issued pursuant to the financing order have been paid in full or defeased and, in each case, all commission-approved financing costs of such securitized utility tariff bonds have been recovered in full.

(b) A financing order issued to an electrical corporation remains in effect and unabated notwithstanding the reorganization, bankruptcy, or other insolvency proceedings, merger, or sale of the electrical corporation or its successors or assignees.

3. (1) The commission may not, in exercising its powers and carrying out its duties regarding any matter within its authority, consider the securitized utility tariff bonds issued pursuant to a financing order to be the debt of the electrical corporation other than for federal and state income tax purposes, consider the securitized utility tariff charges paid under the financing order to be the revenue of the electrical corporation for any purpose, consider the securitized utility tariff costs or financing costs specified in the financing order to be the costs of the electrical corporation, nor may the commission determine any action taken by an electrical corporation which is consistent with the financing order to be unjust or unreasonable, and section 386.300 shall not apply to the issuance of securitized utility tariff bonds.

(2) Securitized utility tariff charges shall not be utilized or accounted for in determining the electrical corporation's average overall rate, as defined in section 393.1655 and as used to determine the maximum retail rate impact limitations provided for by subsections 3 and 4 of section 393.1655.

(3) No electrical corporation is required to file a petition for a financing order under this section or otherwise utilize this section. An electrical corporation's decision not to file a petition for a financing order under this section shall not be admissible in any commission proceeding nor shall it be otherwise utilized or relied on by the commission in any proceeding respecting the electrical corporation's rates or its accounting, including, without limitation, any general rate proceeding, fuel adjustment clause docket, or proceedings relating to accounting authority, whether initiated by the electrical corporation or otherwise. The commission may not order or otherwise directly or indirectly require an electrical corporation to use securitized utility tariff bonds to recover securitized utility tariff costs or to finance any project, addition, plant, facility, extension, capital improvement, equipment, or any other expenditure.

(4) The commission may not refuse to allow an electrical corporation to recover securitized utility tariff costs in an otherwise permissible fashion, or refuse or condition authorization or approval of the issuance and sale by an electrical corporation of securities or the assumption by the electrical corporation of liabilities or obligations, because of the potential availability of securitized utility tariff bond financing.

(5) After the issuance of a financing order with or without conditions, the electrical corporation retains sole discretion regarding whether to cause the securitized utility tariff bonds to be issued, including the right to defer or postpone such sale, assignment, transfer, or issuance. Nothing shall

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

prevent the electrical corporation from abandoning the issuance of securitized utility tariff bonds under the financing order by filing with the commission a statement of abandonment and the reasons therefor; provided, that the electrical corporation's abandonment decision shall not be deemed imprudent because of the potential availability of securitized utility tariff bond financing; and provided further, that an electrical corporation's decision to abandon issuance of such bonds may be raised by any party, including the commission, as a reason the commission should not authorize, or should modify, the rate-making treatment proposed by the electrical corporation of the costs associated with the electric generating facility that was the subject of a petition under this section that would have been securitized as energy transition costs had such abandonment decision not been made, but only if the electrical corporation requests nonstandard plant retirement treatment of such costs for rate-making purposes.

(6) The commission may not, directly or indirectly, utilize or consider the debt reflected by the securitized utility tariff bonds in establishing the electrical corporation's capital structure used to determine any regulatory matter, including but not limited to the electrical corporation's revenue requirement used to set its rates.

(7) The commission may not, directly or indirectly, consider the existence of securitized utility tariff bonds or the potential use of securitized utility tariff bond financing proceeds in determining the electrical corporation's authorized rate of return used to determine the electrical corporation's revenue requirement used to set its rates.

4. The electric bills of an electrical corporation that has obtained a financing order and caused securitized utility tariff bonds to be issued shall comply with the provisions of this subsection; however, the failure of an electrical corporation to comply with this subsection does not invalidate, impair, or affect any financing order, securitized utility tariff property, securitized utility tariff charge, or securitized utility tariff bonds. The electrical corporation shall do the following:

(1) Explicitly reflect that a portion of the charges on such bill represents securitized utility tariff charges approved in a financing order issued to the electrical corporation and, if the securitized utility tariff property has been transferred to an assignee, shall include a statement to the effect that the assignee is the owner of the rights to securitized utility tariff charges and that the electrical corporation or other entity, if applicable, is acting as a collection agent or servicer for the assignee. The tariff applicable to customers shall indicate the securitized utility tariff charge and the ownership of the charge;

(2) Include the securitized utility tariff charge on each customer's bill as a separate line item and include both the rate and the amount of the charge on each bill.

5. (1) (a) All securitized utility tariff property that is specified in a financing order constitutes an existing, present intangible property right or interest therein, notwithstanding that the imposition and collection of securitized utility tariff charges depends on the electrical corporation, to which the financing order is issued, performing its servicing functions relating to the collection of securitized utility tariff charges and on future electricity consumption. The property exists:

a. Regardless of whether or not the revenues or proceeds arising from the property have been billed, have accrued, or have been collected; and

b. Notwithstanding the fact that the value or amount of the property is dependent on the future provision of service to customers by the electrical corporation or its successors or assignees and the future consumption of electricity by customers.

(b) Securitized utility tariff property specified in a financing order exists until securitized utility tariff bonds issued pursuant to the financing order are paid in full and all financing costs and other costs of such securitized utility tariff bonds have been recovered in full.

(c) All or any portion of securitized utility tariff property specified in a financing order issued to an electrical corporation may be transferred, sold, conveyed, or assigned to a successor or assignee that is wholly owned, directly or indirectly, by the electrical corporation and created for the limited purpose of acquiring, owning, or administering securitized utility tariff property or issuing securitized utility tariff bonds under the financing order. All or any portion of securitized utility tariff property may be pledged to secure securitized utility tariff bonds issued pursuant to the financing order, amounts payable to financing parties and to counterparties under any ancillary agreements, and other financing costs. Any transfer, sale, conveyance, assignment, grant of a security interest in or pledge of securitized utility tariff property by an electrical corporation, or an affiliate of the electrical corporation, to an assignee, to the extent previously authorized in a financing order, does not require the prior consent and approval of the commission.

(d) If an electrical corporation defaults on any required remittance of securitized utility tariff charges arising from securitized utility tariff property specified in a financing order, a court, upon application by an interested party, and without limiting any other remedies available to the applying party, shall order the sequestration and payment of the revenues arising from the securitized utility tariff property to the financing parties or their assignees. Any such financing order remains in full force and effect notwithstanding any reorganization, bankruptcy, or other insolvency proceedings with respect to the electrical corporation or its successors or assignees.

(e) The interest of a transferee, purchaser, acquirer, assignee, or pledgee in securitized utility tariff property specified in a financing order issued to an electrical corporation, and in the revenue and collections arising from that property, is not subject to setoff, counterclaim, surcharge, or defense by the electrical corporation or any other person or in connection with the reorganization, bankruptcy, or other insolvency of the electrical corporation or any other entity.

(f) Any successor to an electrical corporation, whether pursuant to any reorganization, bankruptcy, or other insolvency proceeding or whether pursuant to any merger or acquisition, sale, or other business combination, or transfer by operation of law, as a result of electrical corporation restructuring or otherwise, shall perform and satisfy all obligations of, and have the same rights under a financing order as, the electrical corporation under the financing order in the same manner and to the same extent as the electrical corporation, including collecting and paying to the person entitled to receive the revenues, collections, payments, or proceeds of the securitized utility tariff property. Nothing in this section is intended to limit or impair any authority of the commission concerning the transfer or succession of interests of public utilities.

(g) Securitized utility tariff bonds shall be nonrecourse to the credit or any assets of the electrical corporation other than the securitized utility tariff property as specified in the financing order and any rights under any ancillary agreement.

(2) (a) The creation, perfection, priority, and enforcement of any security interest in securitized utility tariff property to secure the repayment of the principal and interest and other amounts payable in respect of securitized utility tariff bonds, amounts payable under any ancillary agreement and other financing costs are governed by this section and not by the provisions of the code, except as otherwise provided in this section.

(b) A security interest in securitized utility tariff property is created, valid, and binding at the later of the time:

- a. The financing order is issued;
- b. A security agreement is executed and delivered by the debtor granting such security interest;
- c. The debtor has rights in such securitized utility tariff property or the power to transfer rights in such securitized utility tariff property; or
- d. Value is received for the securitized utility tariff property.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

The description of securitized utility tariff property in a security agreement is sufficient if the description refers to this section and the financing order creating the securitized utility tariff property. A security interest shall attach as provided in this paragraph without any physical delivery of collateral or other act.

(c) Upon the filing of a financing statement with the office of the secretary of state as provided in this section, a security interest in securitized utility tariff property shall be perfected against all parties having claims of any kind in tort, contract, or otherwise against the person granting the security interest, and regardless of whether the parties have notice of the security interest. Without limiting the foregoing, upon such filing a security interest in securitized utility tariff property shall be perfected against all claims of lien creditors, and shall have priority over all competing security interests and other claims other than any security interest previously perfected in accordance with this section.

(d) The priority of a security interest in securitized utility tariff property is not affected by the commingling of securitized utility tariff charges with other amounts. Any pledgee or secured party shall have a perfected security interest in the amount of all securitized utility tariff charges that are deposited in any cash or deposit account of the qualifying electrical corporation in which securitized utility tariff charges have been commingled with other funds and any other security interest that may apply to those funds shall be terminated when they are transferred to a segregated account for the assignee or a financing party.

(e) No application of the formula-based true-up mechanism as provided in this section will affect the validity, perfection, or priority of a security interest in or transfer of securitized utility tariff property.

(f) If a default occurs under the securitized utility tariff bonds that are secured by a security interest in securitized utility tariff property, the financing parties or their representatives may exercise the rights and remedies available to a secured party under the code, including the rights and remedies available under part 6 of article 9 of the code. The commission may also order amounts arising from securitized utility tariff charges be transferred to a separate account for the financing parties' benefit, to which their lien and security interest shall apply. On application by or on behalf of the financing parties, the circuit court for the county or city in which the electrical corporation's headquarters is located shall order the sequestration and payment to them of revenues arising from the securitized utility tariff charges.

(3) (a) Any sale, assignment, or other transfer of securitized utility tariff property shall be an absolute transfer and true sale of, and not a pledge of or secured transaction relating to, the seller's right, title, and interest in, to, and under the securitized utility tariff property if the documents governing the transaction expressly state that the transaction is a sale or other absolute transfer other than for federal and state income tax purposes. For all purposes other than federal and state income tax purposes, the parties' characterization of a transaction as a sale of an interest in securitized utility tariff property shall be conclusive that the transaction is a true sale and that ownership has passed to the party characterized as the purchaser, regardless of whether the purchaser has possession of any documents evidencing or pertaining to the interest. A sale or similar outright transfer of an interest in securitized utility tariff property may occur only when all of the following have occurred:

- a. The financing order creating the securitized utility tariff property has become effective;
- b. The documents evidencing the transfer of securitized utility tariff property have been executed by the assignor and delivered to the assignee; and
- c. Value is received for the securitized utility tariff property.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

After such a transaction, the securitized utility tariff property is not subject to any claims of the transferor or the transferor's creditors, other than creditors holding a prior security interest in the securitized utility tariff property perfected in accordance with this section.

(b) The characterization of the sale, assignment, or other transfer as an absolute transfer and true sale and the corresponding characterization of the property interest of the purchaser shall not be affected or impaired by the occurrence of any of the following factors:

- a. Commingling of securitized utility tariff charges with other amounts;
- b. The retention by the seller of (i) a partial or residual interest, including an equity interest, in the securitized utility tariff property, whether direct or indirect, or whether subordinate or otherwise, or (ii) the right to recover costs associated with taxes, franchise fees, or license fees imposed on the collection of securitized utility tariff charges;
- c. Any recourse that the purchaser may have against the seller;
- d. Any indemnification rights, obligations, or repurchase rights made or provided by the seller;
- e. The obligation of the seller to collect securitized utility tariff charges on behalf of an assignee;
- f. The transferor acting as the servicer of the securitized utility tariff charges or the existence of any contract that authorizes or requires the electrical corporation, to the extent that any interest in securitized utility tariff property is sold or assigned, to contract with the assignee or any financing party that it will continue to operate its system to provide service to its customers, will collect amounts in respect of the securitized utility tariff charges for the benefit and account of such assignee or financing party, and will account for and remit such amounts to or for the account of such assignee or financing party;
- g. The treatment of the sale, conveyance, assignment, or other transfer for tax, financial reporting, or other purposes;
- h. The granting or providing to bondholders a preferred right to the securitized utility tariff property or credit enhancement by the electrical corporation or its affiliates with respect to such securitized utility tariff bonds;
- i. Any application of the formula-based true-up mechanism as provided in this section.

(c) Any right that an electrical corporation has in the securitized utility tariff property before its pledge, sale, or transfer or any other right created under this section or created in the financing order and assignable under this section or assignable pursuant to a financing order is property in the form of a contract right or a chose in action. Transfer of an interest in securitized utility tariff property to an assignee is enforceable only upon the later of:

- a. The issuance of a financing order;
- b. The assignor having rights in such securitized utility tariff property or the power to transfer rights in such securitized utility tariff property to an assignee;
- c. The execution and delivery by the assignor of transfer documents in connection with the issuance of securitized utility tariff bonds; and
- d. The receipt of value for the securitized utility tariff property.

An enforceable transfer of an interest in securitized utility tariff property to an assignee is perfected against all third parties, including subsequent judicial or other lien creditors, when a notice of that transfer has been given by the filing of a financing statement in accordance with subsection 7 of this section. The transfer is perfected against third parties as of the date of filing.

(d) The priority of a transfer perfected under this section is not impaired by any later modification of the financing order or securitized utility tariff property or by the commingling of

funds arising from securitized utility tariff property with other funds. Any other security interest that may apply to those funds, other than a security interest perfected under this section, is terminated when they are transferred to a segregated account for the assignee or a financing party. If securitized utility tariff property has been transferred to an assignee or financing party, any proceeds of that property shall be held in trust for the assignee or financing party.

(e) The priority of the conflicting interests of assignees in the same interest or rights in any securitized utility tariff property is determined as follows:

a. Conflicting perfected interests or rights of assignees rank according to priority in time of perfection. Priority dates from the time a filing covering the transfer is made in accordance with subsection 7 of this section;

b. A perfected interest or right of an assignee has priority over a conflicting unperfected interest or right of an assignee;

c. A perfected interest or right of an assignee has priority over a person who becomes a lien creditor after the perfection of such assignee's interest or right.

6. The description of securitized utility tariff property being transferred to an assignee in any sale agreement, purchase agreement, or other transfer agreement, granted or pledged to a pledgee in any security agreement, pledge agreement, or other security document, or indicated in any financing statement is only sufficient if such description or indication refers to the financing order that created the securitized utility tariff property and states that the agreement or financing statement covers all or part of the property described in the financing order. This section applies to all purported transfers of, and all purported grants or liens or security interests in, securitized utility tariff property, regardless of whether the related sale agreement, purchase agreement, other transfer agreement, security agreement, pledge agreement, or other security document was entered into, or any financing statement was filed.

7. The secretary of state shall maintain any financing statement filed to perfect a sale or other transfer of securitized utility tariff property and any security interest in securitized utility tariff property under this section in the same manner that the secretary of state maintains financing statements filed under the code to perfect a security interest in collateral owned by a transmitting utility. Except as otherwise provided in this section, all financing statements filed pursuant to this section shall be governed by the provisions regarding financing statements and the filing thereof under the code, including part 5 of article 9 of the code. A security interest in securitized utility tariff property may be perfected only by the filing of a financing statement in accordance with this section, and no other method of perfection shall be effective. Notwithstanding any provision of the code to the contrary, a financing statement filed pursuant to this section is effective until a termination statement is filed under the code, and no continuation statement need be filed to maintain its effectiveness. A financing statement filed pursuant to this section may indicate that the debtor is a transmitting utility, and without regard to whether the debtor is an electrical corporation, an assignee or otherwise qualifies as a transmitting utility under the code, but the failure to make such indication shall not impair the duration and effectiveness of the financing statement.

8. The law governing the validity, enforceability, attachment, perfection, priority, and exercise of remedies with respect to the transfer of an interest or right or the pledge or creation of a security interest in any securitized utility tariff property shall be the laws of this state.

9. Neither the state nor its political subdivisions are liable on any securitized utility tariff bonds, and the bonds are not a debt or a general obligation of the state or any of its political subdivisions, agencies, or instrumentalities, nor are they special obligations or indebtedness of the state or any agency or political subdivision. An issue of securitized utility tariff bonds does not, directly, indirectly, or contingently, obligate the state or any agency, political subdivision, or instrumentality

Matter in bold-face type is proposed language.

of the state to levy any tax or make any appropriation for payment of the securitized utility tariff bonds, other than in their capacity as consumers of electricity. All securitized utility tariff bonds shall contain on the face thereof a statement to the following effect: "Neither the full faith and credit nor the taxing power of the state of Missouri is pledged to the payment of the principal of, or interest on, this bond."

10. All of the following entities may legally invest any sinking funds, moneys, or other funds in securitized utility tariff bonds:

(1) Subject to applicable statutory restrictions on state or local investment authority, the state, units of local government, political subdivisions, public bodies, and public officers, except for members of the commission, the commission's technical advisory and other staff, or employees of the office of the public counsel;

(2) Banks and bankers, savings and loan associations, credit unions, trust companies, savings banks and institutions, investment companies, insurance companies, insurance associations, and other persons carrying on a banking or insurance business;

(3) Personal representatives, guardians, trustees, and other fiduciaries;

(4) All other persons authorized to invest in bonds or other obligations of a similar nature.

11. (1) The state and its agencies, including the commission, pledge and agree with bondholders, the owners of the securitized utility tariff property, and other financing parties that the state and its agencies will not take any action listed in this subdivision. This subdivision does not preclude limitation or alteration if full compensation is made by law for the full protection of the securitized utility tariff charges collected pursuant to a financing order and of the bondholders and any assignee or financing party entering into a contract with the electrical corporation. The prohibited actions are as follows:

(a) Alter the provisions of this section, which authorize the commission to create an irrevocable contract right or chose in action by the issuance of a financing order, to create securitized utility tariff property, and make the securitized utility tariff charges imposed by a financing order irrevocable, binding, or nonbypassable charges for all existing and future retail customers of the electrical corporation except its existing special contract customers;

(b) Take or permit any action that impairs or would impair the value of securitized utility tariff property or the security for the securitized utility tariff bonds or revises the securitized utility tariff costs for which recovery is authorized;

(c) In any way impair the rights and remedies of the bondholders, assignees, and other financing parties;

(d) Except for changes made pursuant to the formula-based true-up mechanism authorized under this section, reduce, alter, or impair securitized utility tariff charges that are to be imposed, billed, charged, collected, and remitted for the benefit of the bondholders, any assignee, and any other financing parties until any and all principal, interest, premium, financing costs and other fees, expenses, or charges incurred, and any contracts to be performed, in connection with the related securitized utility tariff bonds have been paid and performed in full.

(2) Any person or entity that issues securitized utility tariff bonds may include the language specified in this subsection in the securitized utility tariff bonds and related documentation.

12. An assignee or financing party is not an electrical corporation or person providing electric service by virtue of engaging in the transactions described in this section.

13. If there is a conflict between this section and any other law regarding the attachment, assignment, or perfection, or the effect of perfection, or priority of, assignment or transfer of, or security interest in securitized utility tariff property, this section shall govern.

14. If any provision of this section is held invalid or is invalidated, superseded, replaced, repealed, or expires for any reason, that occurrence does not affect the validity of any action allowed under this section which is taken by an electrical corporation, an assignee, a financing party, a collection agent, or a party to an ancillary agreement; and any such action remains in full force and effect with respect to all securitized utility tariff bonds issued or authorized in a financing order issued under this section before the date that such provision is held invalid or is invalidated, superseded, replaced, or repealed, or expires for any reason.

393.1900. RESOURCE PLANNING — COMMISSION DUTIES — SCHEDULE TO FILE PLANS, CONTENTS — REPORT — COMMISSION APPROVAL, PROCEDURE — RULEMAKING — DEFINITIONS. — 1. The commission shall, by August 28, 2027, and every four years or as needed thereafter, commence an integrated resource planning proceeding for electrical corporations. As part of such proceeding, the commission shall:

(1) Identify any required planning reserve margins and applicable local clearing requirements, and any proposed planning reserve margins and local clearing requirements which are scheduled to take effect within a relevant future timeframe;

(2) Identify significant existing state or federal environmental regulations, laws, or rules and identify how each such regulation, law, or rule may apply to electrical corporations in this state;

(3) Identify separately significant proposed state or federal environmental regulations, laws, or rules and identify how each such regulation, law, or rule may apply to electrical corporations in this state;

(4) Establish an alternative resource plan or plans that shall be included in an electrical corporation's integrated resource plan filing pursuant to subsection 3 of this section, and the factors that each electrical corporation may take into account in developing such plans, including, but not limited to, all of the following:

(a) Projected planning reserve margins and local clearing requirements and the environmental regulations, laws, or rules pursuant to subdivisions (1) and (2) of this subsection, respectively;

(b) Projections of future loads including both energy and capacity over the planning period;

(c) The supply-side and demand-side resources that may reasonably address any need for additional energy and capacity, including, but not limited to, the type of generation technology for any proposed generation facility, projected load impact due to electrification or economic development projects, and projected load management and demand response savings;

(d) The projected cost of different types of technologies and fuel used for electric generation;
and

(e) Any other factors the commission may order to be considered;

(5) Identify or designate any software, data standards, and formatting to be used in modeling the alternative resource plan or plans pursuant to subdivision (4) of this subsection;

(6) Complete such proceeding no less than eighteen months prior to the first integrated resource plan filing pursuant to subsection 2 of this section.

2. Not later than August 28, 2027, the commission shall publish a schedule for electrical corporations to file an integrated resource plan every four years, with the first integrated resource plan or plans filing to occur not before the first day of the nineteenth month after publication of such schedule. Each electrical corporation shall, pursuant to the published schedule, file with the commission an integrated resource plan that includes an alternative resource plan or plans meeting the requirements of subdivision (4) of subsection 1 of this section, and such other alternative resource plans as the electrical corporation deems appropriate. All alternative resource plans shall cover a minimum sixteen-year planning horizon. All such plans shall reflect projections of an

electrical corporation's load obligations and how under each such plan the electrical corporation would reliably meet its projected load obligations over such periods consistent with applicable planning reserve margins, local clearing requirements, and applicable state and federal environmental regulations, laws, or rules.

3. Without limiting the requirements set forth in subsection 2 of this section, an electrical corporation's integrated resource plan filing shall include:

(1) Information regarding generating units in the electrical corporation's existing portfolio, including, but not limited to, unit characteristics, current and expected accredited capacity by season, licensing status, current depreciation rates for each generating unit, currently expected retirement dates and, if applicable, any remaining useful life of each generating unit, and identification of potential capital projects that are reasonably expected to result in the extension of the retirement date of each generating unit;

(2) Plans for meeting current and future generation attribute needs, with estimates of the capital and operating and maintenance costs over the planning horizon for all proposed construction and major investments in new generating units, including costs associated with transmission or distribution infrastructure that would be required to integrate such investments into the electrical corporation's system;

(3) Identification of the generation attribute necessary for the provision of safe and adequate service at just and reasonable rates;

(4) Analysis of the cost, performance, expected accredited capacity by season, and viability of all reasonable options available to meet projected generation attribute needs, including, but not limited to, existing electric generation facilities, and an explanation why an electrical corporation selected the options outlined in the plan;

(5) Analysis of alternative resource plans to test risk factors identified by the electrical corporation;

(6) An explanation of how the electrical corporation uses capacity expansion optimization software for the development of alternative resource plans;

(7) Projections of rate impacts including rate impacts from fuel costs of the top four alternative resource plans including the preferred plan for the periods covered by the plan;

(8) Forecasts of the electrical corporation's sales by hour under reasonable scenarios;

(9) The types of generation technologies proposed for generation facilities contained in the plans and the proposed accredited capacity of the generation facilities as estimated by the corporation and the relevant regional transmission organization or independent system operator, including projected fuel costs under reasonable scenarios;

(10) An analysis of potential new or upgraded electric transmission and distribution options for the electrical corporation;

(11) Analysis of the projected firm gas transportation contracts or natural gas storage the electrical corporation will hold to provide an adequate supply of fuel to new generation facilities;

(12) Projected load management, demand response impact, and peak demand reduction for the electrical corporation, including, but not limited to, the magnitude of expected load impacts during the anticipated hours, seasons, and years and the projected costs for such plans;

(13) An explanation of how the electrical corporation will comply with all applicable state and federal environmental regulations, laws, and rules, and the projected costs of complying with those regulations, laws, and rules;

(14) Expected resource planning and system impacts of contemplated programs and mechanisms associated with new load, reduced load, or retained load associated with economic

development rates or riders and programs offered in accordance with section 393.1075, as well as other programs offered under current law;

(15) Results from a request for information or proposals to provide any new supply-side resources needed to serve the corporation's projected electric load, applicable planning reserve margin, and local clearing requirement during the initial four-year planning period. The request for information or proposals may define qualifying performance standards, contract terms, technical competence, capability, reliability, creditworthiness, past performance, and other criteria that responses or respondents to the request for information shall meet in order to be considered by the corporation in its integrated resource plan. Respondents to a request for information or proposals may request that certain proprietary information be treated as confidential or highly confidential pursuant to the commission's governing rules. A corporation that issues a request for information or proposals under this subsection shall use the resulting information or proposals to inform its integrated resource plan and include all of the submitted information or proposals as attachments to its integrated resource plan filing;

(16) Selection of a preferred resource plan;

(17) Delineation of an implementation plan covering a four-year implementation period ending three hundred sixty-five days after the electrical corporation's next-scheduled quadrennial integrated resource plan filing, which shall specify the construction or acquisition by the utility of specific supply-side resources or a specified quantity of supply-side resources by supply-side resource type, or both, for which construction or acquisition is planned to commence within said four-year implementation period; and

(18) Any other information that the commission may specify by rule.

4. The commission shall, after a hearing is conducted, issue a report and order no later than three hundred sixty days after the electrical corporation files an integrated resource plan under this section, unless the commission grants itself an extension for good cause for the issuance of the report and order. Up to one hundred fifty days after an electrical corporation makes its initial integrated resource plan filing, the electrical corporation may file an update of the cost estimates provided under subdivision (2) of subsection 3 of this section if the cost estimates have materially changed. An electrical corporation shall not modify any other aspect of the initial integrated resource plan filing unless the commission grants the electrical corporation the ability to do so. The commission's report and order shall determine whether the electrical corporation has submitted sufficient documentation and selected a preferred resource plan that represents a reasonable and prudent means of meeting the electrical corporation's load serving obligations at just and reasonable rates. In making the determination, the commission shall consider whether the plan appropriately balances all of the following factors:

(1) Resource adequacy to serve anticipated peak electric load and seasonal peak demand forecasts, applicable planning reserve margin, local clearing requirements, and the role of energy and capacity markets;

(2) Reliability;

(3) Rate impacts;

(4) The availability for purchase from third parties of affordable and reliable generation, together with any required transmission;

(5) Overall cost-effectiveness in providing service;

(6) Commodity price risks;

(7) Diversity of supply-side resources;

(8) Competitive pricing;

(9) Participation in regional transmission organization markets; and

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

(10) Compliance with applicable state and federal environmental regulations.

5. (1) If the commission determines that the preferred resource plan is a reasonable and prudent means of meeting the electrical corporation's load serving obligations, such determination shall constitute the commission's permission for the electrical corporation to construct or acquire the specified supply-side resources, or a specified quantity of supply-side resources by supply-side resource type, or both, identified by the commission, that were reflected in the implementation plan submitted under subdivision (17) of subsection 3 of this section, provided that construction commences or the acquisition agreement is executed within the four-year implementation period. With respect to such resources, when the electrical corporation files an application for a certificate of convenience and necessity to authorize construction or acquisition of such resource or resources pursuant to subsection 1 of section 393.170, the commission shall be deemed to have determined that the supply-side resources for which such a determination was made are necessary or convenient for the public interest. In such a certificate of convenience and necessity proceeding, the commission's inquiry shall be limited to considering the electrical corporation's qualifications to construct and operate the resources, the electrical corporation's ability to finance the construction or acquisition of the resources, and siting considerations. The commission shall take all reasonable steps to expedite such a certificate of convenience and necessity proceeding and shall issue its decision in such a proceeding within one hundred twenty days of the date that the electrical corporation files its application. Prior to the expiration of the one hundred and twenty-day period, the commission, upon a showing of good cause, can extend the one hundred twenty-day period for up to an additional sixty days. An electrical corporation shall annually, or more frequently if required by the commission, report to the commission the status of supply-side resources being implemented during the implementation period.

(2) If the commission determines that the preferred resource plan, in whole or in part, is not a reasonable and prudent means of meeting the electrical corporation's load serving obligations, the commission shall have the authority to specify in its report and order the deficiencies in the preferred resource plan and may require the electrical corporation to make a further filing within sixty days after issuance of the report and order addressing the deficiencies and the electrical corporation may propose modifications to its original preferred resource plan. If such an order requiring a further filing by the electrical corporation is issued, the commission's report and order issued under this subsection shall not be final for purposes of rehearing pursuant to section 386.500 or an appeal pursuant to section 386.510. Other parties to the integrated resource plan docket shall have sixty days to respond to the electrical corporation's further filing, unless the commission grants an extension for good cause to respond to the electrical corporation's further filing. Within sixty days after the deadline for such other parties' filings, the commission shall issue a report and order, which shall be final for purposes of rehearing pursuant to section 386.500, and appeal pursuant to section 386.510, indicating whether the deficiencies have been cured by the electrical corporation's further filing and the commission may approve the electrical corporation's modified preferred resource plan and may approve specific supply-side resources, or a specified quantity of supply-side resources by supply-side resource type, or both. If the commission finds continued deficiencies in the electrical corporation's modified preferred resource plan:

(a) The commission may initiate a complaint proceeding pursuant to the provisions of section 393.270;

(b) The electrical corporation shall not be eligible for a limited inquiry in any proceeding under section 393.170 as set forth in subdivision (1) of this subsection for any resource additions not approved by the commission; and

(c) The electrical corporation shall not be eligible for construction work in progress as set forth in subdivision (3) of this subsection for any resource additions not approved by the commission.

(3) Notwithstanding section 393.135 to the contrary, if approved in a proceeding granting permission and approval under subsection 1 of section 393.170, an electrical corporation may be permitted to include in the corporation's rate base any amounts recorded to construction work in progress for the investments for which permission is given under subdivision (1) of subsection 5 of this section. The inclusion of construction work in progress shall be in lieu of any otherwise applicable allowance for funds used during construction that would have accrued from and after the effective date of new base rates that reflect inclusion of the construction work in progress in rate base. The commission shall determine, in a proceeding under section 393.170, the amount of construction work in progress that may be included in rate base. The amount shall be limited by:

- (a) The estimated cost of such project, identified in subdivision (1) of this subsection; and
- (b) Project expenditures made within the estimated construction period for such project.

Base rate recoveries arising from inclusion of construction work in progress in base rates are subject to refund, together with interest on the refunded amount at the same rate as the rate of interest for delinquent taxes determined by the director of revenue in accordance with section 32.065, if and to the extent the commission determines, in a subsequent complaint or general rate proceeding, that construction costs giving rise to the construction work in progress included in rate base were imprudently incurred or if the project for which construction costs have been included in the rate base is not placed in service within a reasonable amount of time, as determined by the commission. Rate base used to determine return deferred under subdivision (2) of subsection 3 of section 393.1400 shall include an offset for rate base that has been used to determine return included in base rates as a result of construction work in progress inclusion in rate base under this subsection. The offset shall apply from and after the in-service date of the asset that has been used to determine return included in base rates as result of construction work in progress inclusion in rate base under subdivision (1) of subsection 2 of section 393.135.

(4) Commission determination of the reasonableness and prudence of a preferred resource plan as set forth in subdivision (1) of this subsection does not preclude the commission from making ratemaking adjustments arising from the electrical corporation's unreasonableness and imprudence in executing the construction or acquisition of the specific supply-side resource, or the specified quantity of supply-side resources, or both, identified by the commission under subdivision (1) of this subsection, during a subsequent general rate or complaint proceeding.

6. The commission shall promulgate rules necessary to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2025, shall be invalid and void.

7. As used in this section, the following terms shall mean:

(1) "Electrical corporation", the same as defined in section 386.020, but shall not include an electrical corporation as described in subsection 2 of section 393.110;

(2) "Firm gas transportation", an anticipated agreement entered into between the electrical corporation and a natural gas transmission provider for a set period of time to provide firm delivery of natural gas to an electric generation facility;

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

(3) "Generation attribute", the capacity, energy, and other generating unit capabilities used in regional energy and capacity markets to differentiate services that can be provided by various types of generating units.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

116.160. SUMMARY STATEMENT TO BE PROVIDED BY THE SECRETARY OF STATE IF SUMMARY NOT PROVIDED BY GENERAL ASSEMBLY — CONTENT. — 1. If the general assembly adopts a joint resolution proposing a constitutional amendment or a bill without a fiscal note summary, which is to be referred to a vote of the people, after receipt of such resolution or bill the secretary of state shall promptly forward the resolution or bill to the state auditor. If the general assembly adopts a joint resolution proposing a constitutional amendment or a bill without an official summary statement, which is to be referred to a vote of the people, within twenty days after receipt of the resolution or bill, the secretary of state shall prepare and transmit to the attorney general a summary statement of the measure as the proposed summary statement. The secretary of state may seek the advice of the legislator who introduced the constitutional amendment or bill and the speaker of the house or the president pro tem of the legislative chamber that originated the measure. The summary statement may be distinct from the legislative title of the proposed constitutional amendment or bill. The attorney general shall within ten days approve the legal content and form of the proposed statement.

2. If the general assembly adopts a joint resolution proposing a constitutional amendment or statutory measure that includes an official summary statement, the statement shall appear on the ballot, unless it is challenged pursuant to section 116.190, in which case the provisions of that section shall apply.

3. The official summary statement shall contain no more than [fifty] one hundred words, excluding articles. The title shall be a true and impartial statement of the purposes of the proposed measure in language neither intentionally argumentative nor likely to create prejudice either for or against the proposed measure.

116.190. BALLOT TITLE MAY BE CHALLENGED, PROCEDURE — WHO ARE PARTIES DEFENDANT — CHANGES MAY BE MADE, PROCEDURE — APPEAL TO SUPREME COURT, WHEN — ACTION EXTINGUISHED, WHEN. — 1. Any citizen who wishes to challenge the official ballot title or the fiscal note prepared for a proposed constitutional amendment submitted by the general assembly, by initiative petition, or by constitutional convention, or for a statutory initiative or referendum measure, may bring an action in the circuit court of Cole County. The action [must] shall be brought within ten days after the official ballot title is certified by the secretary of state in accordance with the provisions of this chapter, in the case of an initiative petition and not later than the twenty-second Tuesday prior to the general election at which the ballot measure will be submitted to the voters, in the case of all other statewide ballot measures.

2. The secretary of state shall be named as a party defendant in any action challenging the official ballot title prepared by the secretary of state. When the action challenges the fiscal note or the fiscal note summary prepared by the auditor, the state auditor shall also be named as a party defendant. The president pro tem of the senate, the speaker of the house and the sponsor of the measure and the secretary of state shall be the named party defendants in any action challenging the official summary statement, fiscal note or fiscal note summary prepared pursuant to section 116.155.

3. The petition shall state the reason or reasons why the summary statement portion of the official ballot title is insufficient or unfair [and shall request a different summary statement portion of the official ballot title]. Alternatively, the petition shall state the reasons why the fiscal note or the fiscal note summary portion of the official ballot title is insufficient or unfair and shall request a different fiscal note or fiscal note summary portion of the official ballot title.

4. (1) The action shall be placed at the top of the civil docket.

(2) (a) Insofar as the action challenges the summary statement portion of the official ballot title, the court shall consider the petition, hear arguments, and in its decision certify the summary statement portion of the official ballot title to the secretary of state as originally written if the court finds the summary statement to be sufficient and fair. If the court finds the summary statement to be insufficient or unfair, the court may offer suggested revisions for the summary statement to remedy the legal flaws, but it shall, in its decision, order the secretary of state to write a first revised summary statement that is sufficient and fair.

(b) The secretary of state shall submit a first revised summary statement to the court within seven days. If, after submission to the court of a first revised summary statement by the secretary of state, the court finds the first revised summary statement to be sufficient and fair, the court shall certify to the secretary of state that statement and order it to appear on the ballot. If the court finds the first revised summary statement to be insufficient or unfair, the court may offer suggested revisions for the statement to remedy the legal flaws, but it shall, in its decision, order the secretary of state to write a second revised summary statement that is sufficient and fair.

(c) The secretary of state shall submit a second revised summary statement to the court within five days. If, after submission to the court of a second revised summary statement by the secretary of state, the court finds the second revised summary statement to be sufficient and fair, the court shall certify to the secretary of state that statement and order it to appear on the ballot. If the court finds the second revised summary statement to be insufficient or unfair, the court may offer suggested revisions for the statement to remedy the legal flaws, but it shall, in its decision, order the secretary of state to write a third revised summary statement that is sufficient and fair.

(d) The secretary of state shall submit a third revised summary statement to the court within three days. If, after submission to the court of a third revised summary statement by the secretary of state, the court finds the third revised summary statement to be sufficient and fair, the court shall certify to the secretary of state that statement and order it to appear on the ballot. If the court finds the third revised summary statement to be insufficient or unfair, or if the secretary of state neglects or refuses to submit any of the revised summary statements within the times mandated by this subdivision when so ordered, the court shall revise the summary statement in a manner that is sufficient and fair and order the secretary of state to place that summary statement on the ballot with the measure.

(e) During all revisions as provided in this subdivision, the case shall remain open.

(f) Any non-prevailing party may make appeals as provided by law only following:

a. The finding of the circuit court that a summary statement was sufficient and fair; or

b. The circuit court ordering its own summary statement to be placed on the ballot pursuant to paragraph (d) of this subdivision.

(g) Any action brought pursuant to this section challenging a statewide ballot measure appearing on the ballot at an election called by the governor pursuant to Article XII, Section 2(b), Missouri Constitution, whether at the primary election or at a special election, or at a special election for a referendum petition measure called by the general assembly pursuant to Article III, Section 52(b), Missouri Constitution, shall be expedited by the court to bring a resolution of the matter prior to the printing of ballots. The court may shorten any timeframe under this section to achieve this purpose.

(3) Insofar as the action challenges the fiscal note or the fiscal note summary portion of the official ballot title, the court shall consider the petition, hear arguments, and in its decision, either certify the fiscal note or the fiscal note summary portion of the official ballot title to the secretary of state or remand the fiscal note or the fiscal note summary to the auditor for preparation of a new fiscal note or fiscal note summary pursuant to the procedures set forth in section 116.175. Any

party to the suit may appeal to the supreme court within ten days after a circuit court decision pursuant to this subdivision. [In making the legal notice to election authorities under section 116.240, and for the purposes of section 116.180, the secretary of state shall certify the language which the court certifies to him.]

5. Any action brought under this section that is not fully and finally adjudicated within one hundred eighty days of filing, and more than [fifty-six] seventy days prior to election in which the measure is to appear, including all appeals, shall be extinguished, unless a court extends such period upon a finding of good cause for such extension. Such good cause shall consist only of court-related scheduling issues and shall not include requests for continuance by the parties.

116.334. PETITION APPROVAL REQUIRED, PROCEDURE TO OBTAIN PETITION TITLE OR SUMMARY STATEMENT — REJECTION OR APPROVAL OF PETITION, PROCEDURE — CIRCULATION OF PETITION PRIOR TO APPROVAL, EFFECT — SIGNATURES, DEADLINE FOR FILING. — 1. If the petition form is approved, the secretary of state shall make a copy of the sample petition available on the secretary of state's website. For a period of fifteen days after the petition is approved as to form, the secretary of state shall accept public comments regarding the proposed measure and provide copies of such comments upon request. Within twenty-three days of receipt of such approval, the secretary of state shall prepare and transmit to the attorney general a summary statement of the measure which shall be a concise statement not exceeding one hundred words. This statement shall be in the form of a question using language neither intentionally argumentative nor likely to create prejudice either for or against the proposed measure. The attorney general shall within ten days approve the legal content and form of the proposed statement.

2. Signatures obtained prior to the date the official ballot title is certified by the secretary of state shall not be counted. Once the secretary of state certifies the official ballot title, signatures may be collected, even if the ballot title is subject to an action in court challenging the sufficiency and fairness of the ballot title. director of the department of revenue shall direct motor vehicle dealers and authorized agents to obtain temporary permits from an authorized producer. Amounts received by the director of the department of revenue for temporary permits shall constitute state revenue; however, amounts received by an authorized producer other than the director of the department of revenue shall not constitute state revenue and any amounts received by motor vehicle dealers or authorized agents for temporary permits purchased from a producer other than the director of the department of revenue shall not constitute state revenue. In no event shall revenues from the general revenue fund or any other state fund be utilized to compensate motor vehicle dealers or other producers for their role in producing temporary permits as authorized under this section. Amounts that do not constitute state revenue under this section shall also not constitute fees for registration or certificates of title to be collected by the director of the department of revenue under section 301.190. No motor vehicle dealer, authorized agent or the department of revenue shall charge more than five dollars for each permit issued. The permit shall be valid for a period of thirty days, or no more than ninety days if issued by a dealer selling the motor vehicle under the provisions of section 301.213, or no more than sixty days if issued by a dealer selling the motor vehicle under the provisions of subsection 5 of section 301.210, from the date of purchase of a motor vehicle or trailer, or from the date of sale of the motor vehicle or trailer by a motor vehicle dealer for which the purchaser obtains a permit as set out above. No permit shall be issued for a vehicle under this section unless the buyer shows proof of financial responsibility. Each temporary permit issued shall be securely fastened to the back or rear of the motor vehicle in a manner and place on the motor vehicle consistent with registration plates so that all parts and qualities of the temporary permit thereof shall be plainly and clearly visible, reasonably clean and are not impaired in any way.

(2) The provisions of subdivision (1) of this subsection requiring satisfaction of all applicable taxes under chapter 144 shall become effective only upon notification by the director of the department of revenue that implementation of such requirements are technologically feasible following the development and maintenance of a modernized, integrated system for the titling of vehicles, the issuance and renewal of vehicle registrations, the issuance and renewal of drivers' licenses and identification cards, and the perfection and release of liens and encumbrances on vehicles.

5. The permit shall be issued on a form prescribed by the director of the department of revenue and issued only for the applicant's temporary operation of the motor vehicle or trailer purchased to enable the applicant to temporarily operate the motor vehicle while proper title and registration plates are being obtained, or while awaiting receipt of registration plates, and shall be displayed on no other motor vehicle. Temporary permits issued pursuant to this section shall not be transferable or renewable, shall not be valid upon issuance of proper registration plates for the motor vehicle or trailer, and shall be returned to the department or to the department's agent upon the issuance of such proper registration plates. Any temporary permit returned to the department or to the department's agent shall be immediately destroyed. The provisions of this subsection shall not apply to temporary permits issued for commercial motor vehicles licensed in excess of twenty-four thousand pounds gross weight. The director of the department of revenue shall determine the size, material, design, numbering configuration, construction, and color of the permit. The director of the department of revenue, at his or her discretion, shall have the authority to reissue, and thereby extend the use of, a temporary permit previously and legally issued for a motor vehicle or trailer while proper title and registration are being obtained.

6. Every motor vehicle dealer that issues temporary permits shall keep, for inspection by proper officers, an accurate record of each permit issued by recording the permit number, the motor vehicle dealer's number, buyer's name and address, the motor vehicle's year, make, and

manufacturer's vehicle identification number, and the permit's date of issuance and expiration date. Upon the issuance of a temporary permit by either the central office of the department of revenue, a motor vehicle dealer or an authorized agent of the department of revenue, the director of the department of revenue shall make the information associated with the issued temporary permit immediately available to the law enforcement community of the state of Missouri.

7. Upon the transfer of ownership of any currently registered motor vehicle wherein the owner cannot transfer the license plates due to a change of motor vehicle category, the owner may surrender the license plates issued to the motor vehicle and receive credit for any unused portion of the original registration fee against the registration fee of another motor vehicle. Such credit shall be granted based upon the date the license plates are surrendered. No refunds shall be made on the unused portion of any license plates surrendered for such credit.

8. An additional temporary license plate produced in a manner and of materials determined by the director to be the most cost-effective means of production with a configuration that matches an existing or newly issued plate may be purchased by a motor vehicle owner to be placed in the interior of the vehicle's rear window such that the driver's view out of the rear window is not obstructed and the plate configuration is clearly visible from the outside of the vehicle to serve as the visible plate when a bicycle rack or other item obstructs the view of the actual plate. Such temporary plate is only authorized for use when the matching actual plate is affixed to the vehicle in the manner prescribed in subsection 5 of section 301.130. The fee charged for the temporary plate shall be equal to the fee charged for a temporary permit issued under subsection 4 of this section. Replacement temporary plates authorized in this subsection may be issued as needed upon the payment of a fee equal to the fee charged for a temporary permit under subsection 4 of this section. The newly produced third plate may only be used on the vehicle with the matching plate, and the additional plate shall be clearly recognizable as a third plate and only used for the purpose specified in this subsection.

9. Notwithstanding the provisions of section 301.217, the director may issue a temporary permit to an individual who possesses a salvage motor vehicle which requires an inspection under subsection 9 of section 301.190. The operation of a salvage motor vehicle for which the permit has been issued shall be limited to the most direct route from the residence, maintenance, or storage facility of the individual in possession of such motor vehicle to the nearest authorized inspection facility and return to the originating location. Notwithstanding any other requirements for the issuance of a temporary permit under this section, an individual obtaining a temporary permit for the purpose of operating a motor vehicle to and from an examination facility as prescribed in this subsection shall also purchase the required motor vehicle examination form which is required to be completed for an examination under subsection 9 of section 301.190 and provide satisfactory evidence that such vehicle has passed a motor vehicle safety inspection for such vehicle as required in section 307.350.

10. The director of the department of revenue may promulgate all necessary rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2012, shall be invalid and void.

11. The repeal and reenactment of this section shall become effective on the date the department of revenue or a producer authorized by the director of the department of revenue begins

If the director of revenue or a producer authorized by the director of the department of revenue begins producing temporary permits prior to July 1, 2013, the director of the department of revenue shall notify the revisor of statutes of such fact.

Any such person shall make application for the special license plates on a form provided by the director of revenue and furnish such proof that such person is a member or former member of any such branch of service as the director may require. Upon presentation of the proof of eligibility and annual payment of the fee required for personalized license plates in section 301.144, and other fees and documents which may be required by law, the department shall issue personalized license plates which shall bear the seal, logo or emblem, along with a word or words designating the branch or subdivision of such service for which the person applies. All seals, logos, emblems or special symbols shall become an integral part of the license plate; however, no plate shall contain more than one seal, logo, emblem or special symbol and the design of such plates shall be approved by the advisory committee established in section 301.129 and by the branch or subdivision of such service or the Marine Corps League prior to issuing such plates. The plates shall have a white background with a blue and red configuration at the discretion of the advisory committee established in section 301.129. The plates shall be clearly visible at night and shall be aesthetically attractive, as prescribed by section 301.130. The bidding process used to select a vendor for the material to manufacture the license plates authorized by this section shall consider the aesthetic appearance of the plate. The director of revenue shall make necessary rules and regulations for the enforcement of this section, and shall design all necessary forms. All license plates issued under this provision must be renewed in accordance with law. License plates issued under the provisions of this section shall not be transferable to any other person, except that any registered co-owner of the motor vehicle shall be entitled to operate the motor vehicle for the duration of the year licensed, in the event of the death of the qualified applicant.

301.469. MISSOURI CONSERVATION HERITAGE FOUNDATION, SPECIAL LICENSE PLATE — APPLICATION, PROCEDURE, DESIGN, FEE. — 1. Any vehicle owner may receive license plates as prescribed in this section, for any motor vehicle such person owns, either solely or jointly, other than an apportioned motor vehicle or a commercial motor vehicle licensed in excess of twenty-four thousand pounds gross weight, after an annual payment of an emblem-use authorization fee to the Missouri conservation heritage foundation. The foundation hereby authorizes the use of its official emblems to be affixed on multiyear license plates as provided in this section. Any vehicle owner may annually apply for the use of the emblems.

2. Upon annual application and payment of a twenty-five dollar emblem-use authorization fee to the Missouri conservation heritage foundation, the foundation shall issue to the vehicle owner, without further charge, an emblem-use authorization statement, which shall be presented to the director of the department of revenue at the time of registration of a motor vehicle.

3. Upon presentation of the annual statement, payment of a fifteen dollar fee in addition to the regular registration fees and documents which may be required by law, the director of the department of revenue shall issue a license plate, which shall bear an emblem of the Missouri conservation heritage foundation in a form prescribed by the director, to the vehicle owner. Such license plates shall be made with fully reflective material with a common color scheme and design, shall be clearly visible at night, and shall be aesthetically attractive, as prescribed by section 301.130. Notwithstanding the provisions of section 301.144, no additional fee shall be charged for the personalization of license plates pursuant to this section.

4. Application for the emblem-use authorization and payment of the twenty-five-dollar contribution may also be made at the time of registration to the director of the department of revenue, who shall deposit the contribution to the credit of the Missouri conservation heritage foundation.

5. A vehicle owner, who was previously issued a plate with a Missouri conservation heritage foundation emblem authorized by this section but who does not provide an emblem-use authorization statement at a subsequent time of registration, shall be issued a new plate which does not bear the foundation emblem, as otherwise provided by law.

[5.] 6. The director of the department of revenue may promulgate rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is promulgated under the authority delegated in this section shall become effective only if it has been promulgated pursuant to the provisions of chapter 536. All rulemaking authority delegated prior to August 28, 1999, is of no force and effect; however, nothing in this section shall be interpreted to repeal or affect the validity of any rule filed or adopted prior to August 28, 1999, if it fully complied with the provisions of chapter 536. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 1999, shall be invalid and void.

301.558. DEALER MAY FILL IN BLANKS ON STANDARDIZED FORMS, WHEN — FEE AUTHORIZED, FUND CREATED — PRELIMINARY WORKSHEET ON COMPUTATION OF SALE PRICE, REQUIREMENTS. — 1. A motor vehicle dealer, trailer dealer, boat dealer, or powersport dealer may fill in the blanks on standardized forms in connection with the sale or lease of a new or used motor vehicle, trailer, vessel, or vessel trailer if the motor vehicle dealer, trailer dealer, boat dealer, or powersport dealer does not charge for the services of filling in the blanks or otherwise charge for preparing documents.

2. A motor vehicle dealer, trailer dealer, boat dealer, or powersport dealer may charge an administrative fee in connection with the sale or lease of a new or used motor vehicle, trailer, vessel, or vessel trailer for the storage of documents or any other administrative or clerical services not prohibited by this section. A portion of the administrative fee may result in profit to the motor vehicle dealer, trailer dealer, boat dealer, or powersport dealer.

3. (1) Ten percent of any fee authorized under this section and charged by motor vehicle dealers or trailer dealers shall be remitted to the motor vehicle administration technology fund established in this subsection, for the development of the system specified in this subsection.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

Following the development of the system specified in this subsection, the director of the department of revenue shall notify motor vehicle dealers and trailer dealers, and implement the system, and the percentage of any fee authorized under this section required to be remitted to the fund shall be reduced to ~~[one]~~ three and one-half percent, which shall be used for maintenance of the system. This subsection shall expire on January 1, 2037.

(2) There is hereby created in the state treasury the "Motor Vehicle Administration Technology Fund", which shall consist of money collected as specified in this subsection. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and money in the fund shall be used solely by the department of revenue for the purpose of development and maintenance of a modernized, integrated system for the titling of vehicles, issuance and renewal of vehicle registrations, issuance and renewal of driver's licenses and identification cards, and perfection and release of liens and encumbrances on vehicles.

(3) Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

(4) The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

4. No motor vehicle dealer, trailer dealer, boat dealer, or powersport dealer that sells or leases new or used motor vehicles, trailers, vessels, or vessel trailers and imposes an administrative fee of five hundred dollars or less in connection with the sale or lease of a new or used motor vehicle, trailer, vessel, or vessel trailer for the storage of documents or any other administrative or clerical services shall be deemed to be engaging in the unauthorized practice of law. The maximum administrative fee permitted under this subsection shall be increased annually by an amount equal to the percentage change in the annual average of the Consumer Price Index for All Urban Consumers or its successor index, as reported by the federal Bureau of Labor Statistics or its successor agency, or by zero, whichever is greater. The director of the department of revenue shall annually furnish the maximum administrative fee determined under this section to the secretary of state, who shall publish such value in the Missouri Register as soon as practicable after January fourteenth of each year.

5. If an administrative fee is charged under this section, the same administrative fee shall be charged to all retail customers unless the fee is limited by the dealer's franchise agreement to certain classes of customers. The fee shall be disclosed on the retail buyer's order form as a separate itemized charge.

6. A preliminary worksheet on which a sale price is computed and that is shown to the purchaser, a retail buyer's order form from the purchaser, or a retail installment contract shall include, in reasonable proximity to the place on the document where the administrative fee authorized by this section is disclosed, the amount of the administrative fee and the following notice in type that is boldfaced, capitalized, underlined, or otherwise conspicuously set out from the surrounding written material:

"AN ADMINISTRATIVE FEE IS NOT AN OFFICIAL FEE AND IS NOT REQUIRED BY LAW BUT MAY BE CHARGED BY A DEALER. THIS ADMINISTRATIVE FEE MAY RESULT IN A PROFIT TO DEALER. NO PORTION OF THIS ADMINISTRATIVE FEE IS FOR THE DRAFTING, PREPARATION, OR COMPLETION OF DOCUMENTS OR THE PROVIDING OF LEGAL ADVICE. THIS NOTICE IS REQUIRED BY LAW."

7. The general assembly believes that an administrative fee charged in compliance with this section is not the unauthorized practice of law or the unauthorized business of law so long as the activity or service for which the fee is charged is in compliance with the provisions of this section and does not result in the waiver of any rights or remedies. Recognizing, however, that the judiciary is the sole arbitrator of what constitutes the practice of law, in the event that a court determines that an administrative fee charged in compliance with this section, and that does not waive any rights or remedies of the buyer, is the unauthorized practice of law or the unauthorized business of law, then no person who paid that administrative fee may recover said fee or treble damages, as permitted under section 484.020, and no person who charged that fee shall be guilty of a misdemeanor, as provided under section 484.020.

307.010. LOADS WHICH MIGHT BECOME DISLODGED TO BE SECURED — COTTON TRAILERS — FAILURE, PENALTY. — 1. All motor vehicles, and every trailer and semitrailer operating upon the public highways of this state and carrying goods or material or farm products which may reasonably be expected to become dislodged and fall from the vehicle, trailer or semitrailer as a result of wind pressure or air pressure and/or by the movement of the vehicle, trailer or semitrailer shall have a protective cover or be sufficiently secured so that no portion of such goods or material can become dislodged and fall from the vehicle, trailer or semitrailer while being transported or carried.

2. (1) Immobilized, such so that it cannot shift or tip to the extent that the vehicle's stability or maneuverability is adversely affected;

(3) Fully contained within the structure of the vehicle, and firmly immobilized or secured on or within the vehicle by structures of adequate strength, dunnage or dunnage bags, shoring bars, tiedowns, or a combination of these; or

(4) Otherwise secured in accordance with federal law.

407.1034. UNLAWFUL MERCHANDISING PRACTICES BY MOTORCYCLE OR ALL-TERRAIN VEHICLE (ATV) FRANCHISOR. — Notwithstanding the terms of any franchise agreement, the performance, whether by act or omission, by a motorcycle or all-terrain vehicle franchisor of any or all of the following acts enumerated in this section are hereby defined as unlawful practices, the remedies for which are set forth in section 407.1043:

(1) To engage in any conduct which is capricious, in bad faith, or unconscionable and which causes damage to a motorcycle or all-terrain vehicle franchisee or to the public; provided, that good faith conduct engaged in by motorcycle or all-terrain vehicle franchisors as sellers of new motorcycles, all-terrain vehicles or parts or as holders of security interests therein, in pursuit of rights or remedies accorded to sellers of goods or to holders of security interests pursuant to the provisions of chapter 400, uniform commercial code, shall not constitute unfair practices pursuant to sections 407.1025 to 407.1049;

(2) To coerce any motorcycle or all-terrain vehicle franchisee to accept delivery of any new motorcycle, motorcycles, all-terrain vehicles, equipment, parts or accessories therefor, or any other commodity or commodities which such motorcycle or all-terrain vehicle franchisee has not ordered after such motorcycle or all-terrain vehicle franchisee has rejected such commodity or commodities. It shall not be deemed a violation of sections 407.1025 to 407.1049 for a motorcycle or all-terrain vehicle franchisor to require a motorcycle or all-terrain vehicle franchisee to have an inventory of parts, tools and equipment reasonably necessary to service the motorcycles or all-terrain vehicles sold by a motorcycle or all-terrain vehicle franchisor; or new motorcycles or all-terrain vehicles reasonably necessary to meet the demands of dealers or the public;

(3) To unreasonably refuse to deliver in reasonable quantities and within a reasonable time after receipt of orders for new motorcycles or all-terrain vehicles, such motorcycles or all-terrain vehicles as are so ordered and as are covered by such franchise and as are specifically publicly advertised by such motorcycle or all-terrain vehicle franchisor to be available for immediate delivery; provided, however, the failure to deliver any motorcycle or all-terrain vehicle shall not be considered a violation of sections 407.1025 to 407.1049 if such failure is due to an act of God, work stoppage, or delay due to a strike or labor difficulty, shortage of products or materials, freight delays, embargo or other cause of which such motorcycle or all-terrain vehicle franchisor has no control;

(4) To coerce any motorcycle or all-terrain vehicle franchisee to enter into any agreement with such motorcycle or all-terrain vehicle franchisor or to do any other act prejudicial to such motorcycle or all-terrain vehicle franchisee, by threatening to cancel any franchise or any contractual agreement existing between such motorcycle or all-terrain vehicle franchisor and motorcycle or all-terrain vehicle franchisee; provided, however, that notice in good faith to any motorcycle or all-terrain vehicle franchisee of such motorcycle or all-terrain vehicle franchisee's violation of any provisions of such franchise or contractual agreement shall not constitute a violation of sections 407.1025 to 407.1049;

(5) To terminate, cancel or refuse to continue any franchise, directly or indirectly through the actions of the franchisor, unless such new motorcycle or all-terrain vehicle franchisee substantially defaults in the performance of such franchisee's reasonable and lawful obligations under such franchisee's franchise, or such new motorcycle or all-terrain vehicle franchisor discontinues the sale in the state of Missouri of such franchisor's products which are the subject of the franchise:

(a) Notwithstanding the terms of any franchise agreement to the contrary, good cause to terminate, cancel or refuse to continue any franchise agreement shall not be established based upon the fact that the motorcycle or all-terrain vehicle franchisee owns, has an investment in, participates in the management of or holds a franchise agreement for the sale or service of another make or line of new motorcycles or all-terrain vehicles or the motorcycle or all-terrain vehicle dealer has established another make or line of new motorcycles or all-terrain vehicles or service in the same dealership facilities as those of the motorcycle or all-terrain vehicle franchisor prior to February 1, 1998, or such establishment is approved in writing by the franchisee and the franchisor. However, a franchisor may require a franchisee to maintain a reasonable line of credit for each franchise and to comply with each franchisor's reasonable requirements concerning capital, management and facilities. If the franchise agreement requires the approval of the franchisor, such approval shall be requested in writing by the franchisee and the franchisor shall approve or disapprove such a request in writing within sixty days of receipt of such request. A request from a franchisee shall be deemed to have been approved if the franchisor fails to notify the franchisee, in writing, of its disapproval within sixty days after its receipt of the written request;

(b) In determining whether good cause exists, the administrative hearing commission shall take into consideration the existing circumstances, including, but not limited to, the following factors:

- a. The franchisee's sales in relation to sales in the market;
- b. The franchisee's investment and obligations;
- c. Injury to the public welfare;
- d. The adequacy of the franchisee's service facilities, equipment, parts and personnel in relation to those of other franchisees of the same line-make;
- e. Whether warranties are being honored by the franchisee;
- f. The parties' compliance with their franchise agreement;
- g. The desire of a franchisor for market penetration or a market study, if any, prepared by the franchisor or franchisee are two factors which may be considered;
- h. The harm to the franchisor;

(6) To prevent by contract or otherwise, any motorcycle or all-terrain vehicle franchisee from changing the capital structure of the franchisee's franchise of such motorcycle or all-terrain vehicle franchisee or the means by or through which the franchisee finances the operation of the franchisee's franchise, provided the motorcycle or all-terrain vehicle franchisee at all times meets any reasonable capital standards agreed to between the motorcycle or all-terrain vehicle franchisee and the motorcycle or all-terrain vehicle franchisor and grants to the motorcycle or all-terrain vehicle franchisor a purchase money security interest in the new motorcycles or all-terrain vehicles, new parts and accessories purchased from the motorcycle or all-terrain vehicle franchisor;

(7) (a) Prevent, by contract or otherwise, any sale or transfer of a franchisee's franchise or franchises or interest or management thereof; provided, if the franchise specifically permits the franchisor to approve or disapprove any such proposed sale or transfer, a franchisor shall only be allowed to disapprove a proposed sale or transfer if the interest being sold or transferred when added to any other interest owned by the transferee constitutes fifty percent or more of the ownership interest in the franchise and if the proposed transferee fails to satisfy any standards of the franchisor which are in fact normally relied upon by the franchisor prior to its entering into a franchise, and which relate to the proposed management or ownership of the franchise operations or to the qualification, capitalization, integrity or character of the proposed transferee and which are reasonable. A franchisee may request, at any time, that the franchisor provide a copy of the standards which are normally relied upon by the franchisor to evaluate a proposed sale or transfer and a proposed transferee;

(b) The franchisee and the prospective franchisee shall cooperate fully with the franchisor in providing information relating to the prospective transferee's qualifications, capitalization, integrity and character;

(c) In the event of a proposed sale or transfer of a franchise, the franchisor shall be permitted to exercise a right of first refusal to acquire the franchisee's assets or ownership if:

- a. The franchise agreement permits the franchisor to exercise a right of first refusal to acquire the franchisee's assets or ownership in the event of a proposed sale or transfer;
- b. Such sale or transfer is conditioned upon the franchisor or franchisee entering a franchise agreement with the proposed transferee;
- c. The exercise of the right of first refusal shall result in the franchisee and the franchisee's owners receiving the same or greater consideration and the same terms and conditions as contracted to receive in connection with the proposed sale or transfer;

d. The sale or transfer does not involve the sale or transfer to an immediate member or members of the family of one or more franchisee owners, defined as a spouse, child, grandchild,

spouse of a child or grandchild, brother, sister or parent of the franchisee owner, or to the qualified manager, defined as an individual who has been employed by the franchisee for at least two years and who otherwise qualifies as a franchisee operator, or a partnership or corporation controlled by such persons; and

e. The franchisor agrees to pay the reasonable expenses, including attorney's fees which do not exceed the usual, customary and reasonable fees charged for similar work done for other clients, incurred by the proposed transferee prior to the franchisor's exercise of its right of first refusal in negotiating and implementing the contract for the proposed sale or transfer of the franchise or the franchisee's assets. Notwithstanding the foregoing, no payment of such expenses and attorney's fees shall be required if the franchisee has not submitted or caused to be submitted an accounting of those expenses within fourteen days of the franchisee's receipt of the franchisor's written request for such an accounting. Such accounting may be requested by a franchisor before exercising its right of first refusal;

(d) For determining whether good cause exists for the purposes of this subdivision, the administrative hearing commission shall take into consideration the existing circumstances, including, but not limited to, the following factors:

a. Whether the franchise agreement specifically permits the franchisor to approve or disapprove any proposed sale or transfer;

b. Whether the interest to be sold or transferred when added to any other interest owned by the proposed transferee constitutes fifty percent or more of the ownership interest in the franchise;

c. Whether the proposed transferee fails to satisfy any standards of the franchisor which are in fact normally relied upon by the franchisor prior to its entering into a franchise, and which are related to the proposed management or ownership of the franchise operations or to the qualification, capitalization, integrity or character of the proposed transferee which are reasonable;

d. Injury to the public welfare;

e. The harm to the franchisor;

(8) To prevent by contract or otherwise any motorcycle or all-terrain vehicle franchisee from changing the executive management of motorcycle or all-terrain vehicle franchisee's business, except that any attempt by a motorcycle or all-terrain vehicle franchisor to demonstrate by giving reasons that such change in executive management will be detrimental to the distribution of the motorcycle or all-terrain vehicle franchisor's motorcycles shall not constitute a violation of this subdivision;

(9) To impose unreasonable standards of performance upon a motorcycle or all-terrain vehicle franchisee;

(10) To require a motorcycle or all-terrain vehicle franchisee at the time of entering into a franchise arrangement to assent to a release, assignment, novation, waiver or estoppel which would relieve any person from liability imposed by sections 407.1025 to 407.1049;

(11) To prohibit directly or indirectly the right of free association among motorcycle or all-terrain vehicle franchisees for any lawful purpose;

(12) To provide any term or condition in any lease or other agreement ancillary or collateral to a franchise, which term or condition directly or indirectly violates the provisions of sections 407.1025 to 407.1049;

(13) [Upon any termination, cancellation or refusal to continue any franchise or any discontinuation of any line-make or parts or products related to such line-make by a franchisor, fail to pay reasonable compensation to a franchisee as follows] To fail to repurchase a franchisee's inventory and other items as set forth in this subdivision if a motorcycle or all-terrain franchise agreement is terminated, cancelled, or not renewed by the manufacturer for cause; if the dealer

voluntarily terminates a motorcycle or all-terrain dealer agreement in a manner permitted by such agreement; if the manufacturer terminates or discontinues a franchise by discontinuing a line-make or by ceasing to do business in this state; or if the manufacturer changes the distributor or method of distribution of its products in this state or alters its sales regions or marketing areas within this state in a manner that eliminates or diminishes the dealer's market area. In such circumstances the manufacturer shall, at the election of the motorcycle or all-terrain vehicle dealer, within thirty days of termination, repurchase:

(a) Any new, undamaged and unsold motorcycles or all-terrain vehicles in the franchisee's inventory of either the current model year or purchased from the franchisor within one hundred twenty days prior to receipt of a notice of termination or nonrenewal, provided the motorcycle or all-terrain vehicle has less than twenty miles registered on the odometer, including mileage incurred in delivery from the franchisor or in transporting the motorcycle or all-terrain vehicle between dealers for sale, at the dealer's net acquisition cost;

(b) The current parts catalog cost to the dealer of each new, unused, undamaged and unsold part or accessory if the part or accessory is in the current parts catalog, less applicable allowances. If the part or accessory was purchased by the franchisee from an outgoing authorized franchisee, the franchisor shall purchase the part for either the price in the current parts catalog or the franchisee's actual purchase price of the part, whichever is less;

(c) The depreciated value determined pursuant to generally accepted accounting principles of each undamaged sign owned by the franchisee which bears a trademark or trade name used or claimed by the franchisor if the sign was purchased from, or purchased at the request of, the franchisor;

(d) The fair market value of all special tools, data processing equipment and motorcycle or all-terrain vehicle service equipment owned by the franchisee which were recommended in writing and designated as special tools and equipment and purchased from, or purchased at the request of, the franchisor within three years of the termination of the franchise, if the tools and equipment are in usable and good condition, except for reasonable wear and tear; and

(e) The franchisor shall pay the franchisee the amounts specified in this subdivision within ninety days after the tender of the property subject to the franchisee providing evidence of good and clear title upon return of the property to the franchisor. Unless previous arrangements have been made and agreed upon, the franchisee is under no obligation to provide insurance for the property left after one hundred eighty days;

(14) To prevent or refuse to honor the succession to a franchise or franchises by any legal heir or devisee under the will of a franchisee, under any written instrument filed with the franchisor designating any person as the person's successor franchisee, or pursuant to the laws of descent and distribution of this state; provided:

(a) Any designated family member of a deceased or incapacitated franchisee shall become the succeeding franchisee of such deceased or incapacitated franchisee if such designated family member gives the franchisor written notice of such family member's intention to succeed to the franchise or franchises within forty-five days after the death or incapacity of the franchisee, and agrees to be bound by all of the terms and conditions of the current franchise agreement, and the designated family member meets the current reasonable criteria generally applied by the franchisor in qualifying franchisees. (d) The provisions of this subdivision shall not preclude a franchisee from designating any person as the person's successor by written instrument filed with the franchisor, and if such an instrument is filed, it alone shall determine the succession rights to the management and operation of the franchise; and

(e) For determining whether good cause exists, the administrative hearing commission shall take into consideration the existing circumstances, including, but not limited to, the following factors:

a. Whether the franchise agreement specifically permits the franchisor to approve or disapprove any successor;

b. Whether the proposed successor fails to satisfy any standards of the franchisor which are in fact normally relied upon by the franchisor prior to the successor entering into a franchise, and which relate to the proposed management or ownership of the franchise operation or to the qualification, capitalization, integrity or character of the proposed successor and which are reasonable;

c. Injury to the public welfare;

Any contracts or agreements which contain such provisions shall be deemed against the public policy of the state of Missouri and are void and unenforceable. Nothing in this section shall be construed to prohibit voluntary settlement agreements;

(16) To initiate any act enumerated in this subsection on grounds that it has advised a franchisee of its intention to discontinue representation at the time of a franchisee change.

 - (4) Any provider of direct services to children and families shall have the appropriate and relevant training, education, and expertise to provide the highest quality of services possible which shall be consistent with federal and state standards;
 - (5) Resources and efforts shall be committed to pursue the best possible opportunity for a successful outcome for each child. Successful outcomes may include preparing youth for a productive and successful life as an adult outside the foster care system, such as independent living. For those providers that work with children requiring intensive twenty-four-hour treatment services, successful outcomes shall be based on the least restrictive alternative possible based on the child's needs as well as the quality of care received; and
 - (6) All service providers shall prioritize methods of reducing or eliminating a child's need for residential treatment through community-based services and supports.
2. (1) In conjunction with the response and evaluation team established under subsection 3 of this section, as well as other individuals the division deems appropriate, the division shall establish an evaluation tool that complies with state and federal guidelines.
- (2) The evaluation tool shall include metrics supporting best practices for case management and service provision including, but not limited to, the frequency of face-to-face visits with the child.
- (3) There shall be a mechanism whereby providers may propose different evaluation metrics on a case-by-case basis if such case may have circumstances far beyond those that would be expected. Such cases shall be evaluated by the response and evaluation team under subsection 3 of this section.
- (4) Data regarding all evaluation metrics shall be collected by the division on a monthly basis, and the division shall issue a quarterly report regarding the evaluation data for each provider, both public and private, by county. The response and evaluation team shall determine how to aggregate cases for the division and large contractors so that performance and outcomes may be compared effectively while also protecting confidentiality. Such reports shall be made public and shall include information by county.
- (5) The standards and metrics developed through this evaluation tool shall be used to evaluate competitive bids for future contracts established under subsection 4 of this section.

3. The division shall create a response and evaluation team. Membership of the team shall be composed of five staff members from the division with experience in foster care appointed by the director of the division; five representatives, one from each contract region for foster care case management contracts under this section, who shall be annually rotated among contractors in each region, which shall appoint the agency; two experts working in either research or higher education

(a) Cases that a provider feels are anomalous and should not be part of developing the case management tool under subsection 2 of this section;

(b) Alternative evaluation metrics recommended by providers based on the best interests of the child under subsections 2 and 5 of this section; or

(c) Review and recommend any structure for incentives or other reimbursement strategies under subsection 6 of this section;

(2) Develop and execute periodic provider evaluations of cases managed by the division and children service providers contracted with the state to provide foster care case management services, in the field under the evaluation tool created under subsection 2 of this section to ensure basic requirements of the program are met, which shall include, but are not limited to, random file review to ensure documentation shows required visits and case management plan notes; and

(3) Develop a system for reviewing and working with providers identified under subdivision (2) of this subsection or providers who request such assistance from the division who show signs of performance weakness to ensure technical assistance and other services are offered to assist the providers in achieving successful outcomes for their cases.

4. The children's division and any other state agency deemed necessary by the division shall, in consultation with service providers and other relevant parties, enter into and implement contracts with qualified children's services providers and agencies to provide a comprehensive and deliberate system of service delivery for children and their families. Contracts shall be awarded through a competitive process and provided by qualified public and private not-for-profit or limited liability corporations owned exclusively by not-for-profit corporations children's services providers and agencies which have:

5. The division shall accept as prima facie evidence of completion of the requirements for licensure under sections 210.481 to 210.511 proof that an agency is accredited by any of the following nationally recognized bodies: the Council on Accreditation of Services, Children and Families, Inc.; the Joint Commission on Accreditation of Hospitals; or the Commission on Accreditation of Rehabilitation Facilities.

6. Payment to the children's services providers and agencies shall be made based on the reasonable costs of services, including responsibilities necessary to execute the contract. Any reimbursement increases made through enhanced appropriations for services shall be allocated to providers regardless of whether the provider is public or private. Such increases shall be considered additive to the existing contracts. In addition to payments reflecting the cost of services, contracts shall include incentives provided in recognition of performance based on the evaluation tool created under subsection 2 of this section and the corresponding savings for the state. The response and evaluation team under subsection 3 of this section shall review a formula to distribute such payments, as recommended by the division.

7. The division shall consider immediate actions that are in the best interests of the children served including, but not limited to, placing the agency on a corrective plan, halting new referrals, transferring cases to other performing providers, or terminating the provider's contract. The division shall take steps necessary to evaluate the nature of the issue and act accordingly in the most timely fashion possible.

8. By July 1, 2021, the children's division shall promulgate and have in effect rules to implement the provisions of this section and, pursuant to this section, shall define implementation plans and dates. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void.

4. No qualified service provider, or any employees or contractors of such qualified service provider, shall be liable in damages for any services and duties provided under a contract entered into under subsection 2 of this section, provided that such services and duties are performed in good faith and without gross negligence. In no case shall a qualified service provider be immune for abuse or neglect of a child, as such terms are defined in section 210.110. The provisions of this subsection shall be void if the state creates a fund or entity that indemnifies or provides coverage in an amount of not less than one million dollars, which shall be increased or decreased on an annual basis effective January first of each year in accordance with the Implicit Price Deflator for Personal Consumption Expenditures as published by the Bureau of Economic Analysis of the U.S. Department of Commerce, for damages due to a cause of action against a qualified service provider, or an employee or contractor of such qualified service provider, under this section for personal injury.

5. The department may promulgate such rules and regulations as are necessary to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2025, shall be invalid and void.

The division shall develop protocols which give priority to:

- (1) Ensuring the well-being and safety of the child in instances where child abuse or neglect has been alleged;
- (2) Promoting the preservation and reunification of children and families consistent with state and federal law;
- (3) Providing due process for those accused of child abuse or neglect; and
- (4) Maintaining an information system operating at all times, capable of receiving and maintaining reports. This information system shall have the ability to receive reports over a single, statewide toll-free number. Such information system shall maintain the results of all investigations, family assessments and services, and other relevant information.

2. (1) The division shall utilize structured decision-making protocols, including a standard risk assessment that shall be completed within seventy-two hours of the report of abuse or neglect, for classification purposes of all child abuse and neglect reports. The protocols developed by the

division shall give priority to ensuring the well-being and safety of the child. All child abuse and neglect reports shall be initiated within twenty-four hours and shall be classified based upon the reported risk and injury to the child. The division shall promulgate rules regarding the structured decision-making protocols to be utilized for all child abuse and neglect reports.

(2) The director of the division and the office of state courts administrator shall develop a joint safety assessment tool before December 31, 2020, and such tool shall be implemented before January 1, 2022. The safety assessment tool shall replace the standard risk assessment required under subdivision (1) of this subsection and shall also be completed within seventy-two hours of the report of abuse or neglect.

3. Upon receipt of a report, the division shall determine if the report merits investigation, including reports which if true would constitute a suspected violation of any of the following: section 565.020, 565.021, 565.023, 565.024, or 565.050 if the victim is a child less than eighteen years of age, section 566.030 or 566.060 if the victim is a child less than eighteen years of age, or other crimes under chapter 566 if the victim is a child less than eighteen years of age and the perpetrator is twenty-one years of age or older, section 567.050 if the victim is a child less than eighteen years of age, section 568.020, 568.030, 568.045, 568.050, 568.060, 573.200, or 573.205, section 573.025, 573.035, 573.037, or 573.040, or an attempt to commit any such crimes. The division shall immediately communicate all reports that merit investigation to its appropriate local office and any relevant information as may be contained in the information system. The local division staff shall determine, through the use of protocols developed by the division, whether an investigation or the family assessment and services approach should be used to respond to the allegation. The protocols developed by the division shall give priority to ensuring the well-being and safety of the child.

4. The division may accept a report for investigation or family assessment if either the child or alleged perpetrator resides in Missouri, may be found in Missouri, or if the incident occurred in Missouri.

5. If the division receives a report in which neither the child nor the alleged perpetrator resides in Missouri or may be found in Missouri and the incident did not occur in Missouri, the division shall document the report and communicate it to the appropriate agency or agencies in the state where the child is believed to be located, along with any relevant information or records as may be contained in the division's information system.

6. When the child abuse and neglect hotline receives three or more calls, within a seventy-two hour period, from one or more individuals concerning the same child, the division shall conduct a review to determine whether the calls meet the criteria and statutory definition for a child abuse and neglect report to be accepted. In conducting the review, the division shall contact the hotline caller or callers in order to collect information to determine whether the calls meet the criteria for harassment.

7. The local office shall contact the appropriate law enforcement agency immediately upon receipt of a report which division personnel determine merits an investigation and provide such agency with a detailed description of the report received. In such cases the local division office shall request the assistance of the local law enforcement agency in all aspects of the investigation of the complaint. The appropriate law enforcement agency shall either assist the division in the investigation or provide the division, within twenty-four hours, an explanation in writing detailing the reasons why it is unable to assist.

8. (1) The local office of the division shall cause an investigation or family assessment and services approach to be initiated in accordance with the protocols established in subsection 2 of this section, except in cases where the sole basis for the report is educational neglect. If the report

indicates that educational neglect is the only complaint and there is no suspicion of other neglect or abuse, the investigation shall be initiated within seventy-two hours of receipt of the report. If the report indicates the child is in danger of serious physical harm or threat to life, an investigation shall include direct observation of the subject child within twenty-four hours of the receipt of the report. Local law enforcement shall take all necessary steps to facilitate such direct observation. Callers to the child abuse and neglect hotline shall be instructed by the division's hotline to call 911 in instances where the child may be in immediate danger. If the parents of the child are not the alleged perpetrators, a parent of the child must be notified prior to the child being interviewed by the division. No person responding to or investigating a child abuse and neglect report shall call prior to a home visit or leave any documentation of any attempted visit, such as business cards, pamphlets, or other similar identifying information if he or she has a reasonable basis to believe the following factors are present:

- [(1)]** (a) a. No person is present in the home at the time of the home visit; and
- [(b)]** b. The alleged perpetrator resides in the home or the physical safety of the child may be compromised if the alleged perpetrator becomes aware of the attempted visit;
- [(2)]** (b) The alleged perpetrator will be alerted regarding the attempted visit; or
- [(3)]** (c) The family has a history of domestic violence or fleeing the community.

(2) If the division is responding to an investigation of abuse or neglect, the person responding shall first ensure safety of the child through direct observation and communication with the child. If the parent or alleged perpetrator is present during a visit by the person responding to or investigating the report, such person shall present identification and verbally identify himself or herself and his or her role in the investigation and shall provide written material to the parent or alleged perpetrator informing him or her of his or her rights regarding such visit, including but not limited to the right to contact an attorney. The parent or alleged perpetrator shall be given a reasonable amount of time to read such written material or have such material read to him or her by the case worker before the visit commences, but in no event shall such time exceed five minutes; except that, such requirement to provide written material and reasonable time to read such material shall not apply in cases where the child faces an immediate threat or danger, or the person responding to or investigating the report is or feels threatened or in danger of physical harm. If the abuse is alleged to have occurred in a school or child care facility the division shall not meet with the child in any school building or child-care facility building where abuse of such child is alleged to have occurred. When the child is reported absent from the residence, the location and the well-being of the child shall be verified. For purposes of this subsection, "child care facility" shall have the same meaning as such term is defined in section 210.201.

(3) If the division is responding to an assessment of abuse or neglect, the person responding shall present identification and verbally identify himself or herself and his or her role in the investigation and provide a parent of the child with notification prior to the child being interviewed by the person responding and shall provide written material to the parent informing him or her of his or her rights regarding such visit, including, but not limited to, the right to contact an attorney. The parent shall be given a reasonable amount of time to read such written material or have such material read to him or her by the case worker before the visit commences, but in no event shall such time exceed five minutes; except that, such requirement to provide written material and reasonable time to read such material shall not apply in cases where the child faces immediate threat or danger, the person responding to or investigating the report is or feels threatened or in danger of physical harm, or any of the exceptions in subdivision (1) of this subsection would apply.

9. The director of the division shall name at least one chief investigator for each local division office, who shall direct the division response on any case involving a second or subsequent incident regarding the same subject child or perpetrator. The duties of a chief investigator shall include verification of direct observation of the subject child by the division and shall ensure information regarding the status of an investigation is provided to the public school district liaison. The public school district liaison shall develop protocol in conjunction with the chief investigator to ensure information regarding an investigation is shared with appropriate school personnel. The superintendent of each school district shall designate a specific person or persons to act as the public school district liaison. Should the subject child attend a nonpublic school the chief investigator shall notify the school principal of the investigation. Upon notification of an investigation, all information received by the public school district liaison or the school shall be subject to the provisions of the federal Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. Section 1232g, and federal rule 34 C.F.R. Part 99.

10. The investigation shall include but not be limited to the nature, extent, and cause of the abuse or neglect; the identity and age of the person responsible for the abuse or neglect; the names and conditions of other children in the home, if any; the home environment and the relationship of the subject child to the parents or other persons responsible for the child's care; any indication of incidents of physical violence against any other household or family member; and other pertinent data.

11. When a report has been made by a person required to report under section 210.115, the division shall contact the person who made such report within forty-eight hours of the receipt of the report in order to ensure that full information has been received and to obtain any additional information or medical records, or both, that may be pertinent.

12. Upon completion of the investigation, if the division suspects that the report was made maliciously or for the purpose of harassment, the division shall refer the report and any evidence of malice or harassment to the local prosecuting or circuit attorney.

13. Multidisciplinary teams shall be used whenever conducting the investigation as determined by the division in conjunction with local law enforcement. Multidisciplinary teams shall be used in providing protective or preventive social services, including the services of law enforcement, a liaison of the local public school, the juvenile officer, the juvenile court, and other agencies, both public and private.

14. For all family support team meetings involving an alleged victim of child abuse or neglect, the parents, legal counsel for the parents, foster parents, the legal guardian or custodian of the child, the guardian ad litem for the child, the child's counsel, and the volunteer advocate for the child shall be provided notice and be permitted to attend all such meetings. Family members, other than alleged perpetrators, or other community informal or formal service providers that provide significant support to the child and other individuals may also be invited at the discretion of the parents of the child. In addition, the parents, the legal counsel for the parents, the legal guardian or custodian and the foster parents may request that other individuals, other than alleged perpetrators, be permitted to attend such team meetings. Once a person is provided notice of or attends such team meetings, the division or the convenor of the meeting shall provide such persons with notice of all such subsequent meetings involving the child. Families may determine whether individuals invited at their discretion shall continue to be invited.

15. If the appropriate local division personnel determine after an investigation has begun that completing an investigation is not appropriate, the division shall conduct a family assessment and services approach. The division shall provide written notification to local law enforcement prior to terminating any investigative process. The reason for the termination of the investigative

process shall be documented in the record of the division and the written notification submitted to local law enforcement. Such notification shall not preclude nor prevent any investigation by law enforcement.

16. If the appropriate local division personnel determines to use a family assessment and services approach, the division shall:

(1) Assess any service needs of the family. The assessment of risk and service needs shall be based on information gathered from the family and other sources;

(2) Provide services which are voluntary and time-limited unless it is determined by the division based on the assessment of risk that there will be a high risk of abuse or neglect if the family refuses to accept the services. The division shall identify services for families where it is determined that the child is at high risk of future abuse or neglect. The division shall thoroughly document in the record its attempt to provide voluntary services and the reasons these services are important to reduce the risk of future abuse or neglect to the child. If the family continues to refuse voluntary services or the child needs to be protected, the division may commence an investigation;

(3) Commence an immediate investigation if at any time during the family assessment and services approach the division determines that an investigation, as delineated in sections 210.109 to 210.183, is required. The division staff who have conducted the assessment may remain involved in the provision of services to the child and family;

(4) Document at the time the case is closed, the outcome of the family assessment and services approach, any service provided and the removal of risk to the child, if it existed.

17. (1) Within forty-five days of an oral report of abuse or neglect, the local office shall update the information in the information system. The information system shall contain, at a minimum, the determination made by the division as a result of the investigation, identifying information on the subjects of the report, those responsible for the care of the subject child and other relevant dispositional information. The division shall complete all investigations within forty-five days, unless good cause for the failure to complete the investigation is specifically documented in the information system. Good cause for failure to complete an investigation shall include, but not be limited to:

(a) The necessity to obtain relevant reports of medical providers, medical examiners, psychological testing, law enforcement agencies, forensic testing, and analysis of relevant evidence by third parties which has not been completed and provided to the division;

(b) The attorney general or the prosecuting or circuit attorney of the city or county in which a criminal investigation is pending certifies in writing to the division that there is a pending criminal investigation of the incident under investigation by the division and the issuing of a decision by the division will adversely impact the progress of the investigation; or

(c) The child victim, the subject of the investigation or another witness with information relevant to the investigation is unable or temporarily unwilling to provide complete information within the specified time frames due to illness, injury, unavailability, mental capacity, age, developmental disability, or other cause.

The division shall document any such reasons for failure to complete the investigation.

(2) If a child fatality or near-fatality is involved in a report of abuse or neglect, the investigation shall remain open until the division's investigation surrounding such death or near-fatal injury is completed.

(3) If the investigation is not completed within forty-five days, the information system shall be updated at regular intervals and upon the completion of the investigation, which shall be

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

completed no later than ninety days after receipt of a report of abuse or neglect, or one hundred twenty days after receipt of a report of abuse or neglect involving sexual abuse, or until the division's investigation is complete in cases involving a child fatality or near-fatality. The information in the information system shall be updated to reflect any subsequent findings, including any changes to the findings based on an administrative or judicial hearing on the matter.

18. A person required to report under section 210.115 to the division and any person making a report of child abuse or neglect made to the division which is not made anonymously shall be informed by the division of his or her right to obtain information concerning the disposition of his or her report. Such person shall receive, from the local office, if requested, information on the general disposition of his or her report. Such person may receive, if requested, findings and information concerning the case. Such release of information shall be at the discretion of the director based upon a review of the reporter's ability to assist in protecting the child or the potential harm to the child or other children within the family. The local office shall respond to the request within forty-five days. The findings shall be made available to the reporter within five days of the outcome of the investigation. If the report is determined to be unsubstantiated, the reporter may request that the report be referred by the division to the office of child advocate for children's protection and services established in sections 37.700 to 37.730. Upon request by a reporter under this subsection, the division shall refer an unsubstantiated report of child abuse or neglect to the office of child advocate for children's protection and services.

19. The division shall provide to any individual who is not satisfied with the results of an investigation information about the office of child advocate and the services it may provide under sections 37.700 to 37.730.

20. In any judicial proceeding involving the custody of a child the fact that a report may have been made pursuant to sections 210.109 to 210.183 shall not be admissible. However:

(1) Nothing in this subsection shall prohibit the introduction of evidence from independent sources to support the allegations that may have caused a report to have been made; and

(2) The court may on its own motion, or shall if requested by a party to the proceeding, make an inquiry not on the record with the children's division to determine if such a report has been made.

If a report has been made, the court may stay the custody proceeding until the children's division completes its investigation.

21. Nothing in this chapter shall be construed to prohibit the children's division from coinvestigating a report of child abuse or neglect or sharing records and information with child welfare, law enforcement, or judicial officers of another state, territory, or nation if the children's division determines it is appropriate to do so under the standard set forth in subsection 4 of section 210.150 and if such receiving agency is exercising its authority under the law.

22. In any judicial proceeding involving the custody of a child where the court determines that the child is in need of services under paragraph (d) of subdivision (1) of subsection 1 of section 211.031 and has taken jurisdiction, the child's parent, guardian or custodian shall not be entered into the registry.

23. The children's division is hereby granted the authority to promulgate rules and regulations pursuant to the provisions of section 207.021 and chapter 536 to carry out the provisions of sections 210.109 to 210.183.

24. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and

chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2000, shall be invalid and void.

3. (1) Beginning January 1, 2028, and subject to necessary appropriations made for that purpose, the judge shall appoint counsel for a child who is at least fourteen but less than eighteen years of age and who is the subject of proceedings under sections 210.110 to 210.165 except proceedings under subsection 6 of section 210.152, sections 210.700 to 210.760, or sections 211.442 to 211.487. A judge may implement the provisions of this subsection at any time before January 1, 2028, pursuant to a pilot project implemented under section 477.715, and, if doing so, shall not be required to appoint a guardian ad litem and child's counsel concurrently unless the judge finds it necessary in accordance with subdivision (3) of this subsection.

(2) Counsel shall represent the child at all stages of the proceeding, including appeal. The child and the child's parent or guardian shall not be represented by the same counsel.

(3) A guardian ad litem appointed for a child under this section shall transition to serving as the child's counsel upon the child's fourteenth birthday, provided that the proceeding for which the guardian ad litem was appointed is ongoing. The transition shall occur unless the judge finds it necessary to continue the guardian ad litem appointment if it is determined that the child is at risk for substantial physical, financial, or other harm and cannot adequately act in his or her own interests or if those responsible for the care, custody, and control of the child have been and still are under the jurisdiction of the department of corrections; provided, however, a judge may appoint the child counsel in addition to a guardian ad litem.

(4) The judge may appoint the same attorney to serve as guardian ad litem for children in a sibling group who are under fourteen years of age as the attorney serving as child's counsel for any sibling at least fourteen but less than eighteen years of age; provided that the attorney or judge does not find a conflict of interest in such appointment.

(5) In the event that a child's counsel is appointed under this subsection, the court may appoint or continue the appointment of a volunteer advocate, who shall be governed by the provisions of this section.

(6) Either sua sponte or upon the motion of a party, the judge shall issue an order of appointment for the child's counsel no later than thirty days of the filing of the motion and the counsel shall notify the parties of the change in appointment.

(7) In any court case or proceeding in which child's counsel is appointed by the court, the court shall set a reasonable fee for such services. The court shall award such fees as a judgment to be paid by the state from funds appropriated by the legislature to the judicial branch for such purpose.

4. The guardian ad litem and child's counsel shall be provided with all reports relevant to the case made to or by any agency or person, shall have access to all records of such agencies or persons relating to the child or such child's family members or placements of the child, and upon appointment by the court to a case, shall be informed of and have the right to attend any and all family support team meetings involving the child. Employees of the division, officers of the court, and employees of any agency involved shall fully inform the guardian ad litem and child's counsel of all aspects of the case of which they have knowledge or belief.

[4.] 5. The appointing judge shall require the guardian ad litem or the child's counsel to faithfully discharge such guardian ad litem's or the counsel's duties, and upon failure to do so shall discharge such guardian ad litem or counsel and appoint another. The appointing judge shall have the authority to examine the general and criminal background of persons appointed as guardians ad litem and children's counsel, including utilization of the family care safety registry and access line pursuant to sections 210.900 to 210.937, to ensure the safety and welfare of the children such persons are appointed to represent. The judge in making appointments pursuant to this section shall give preference to persons who served as guardian ad litem or child's counsel for the child in the earlier proceeding, unless there is a reason on the record for not giving such preference.

[5.] 6. The guardian ad litem may be awarded a reasonable fee for such services to be set by the court. The court, in its discretion, may award such fees as a judgment to be paid by any party to the proceedings or from public funds. However, no fees as a judgment shall be taxed against a party or parties who have not been found to have abused or neglected a child or children. Such an award of guardian fees shall constitute a final judgment in favor of the guardian ad litem. Such final judgment shall be enforceable against the parties in accordance with chapter 513.

[6.] 7. The court may designate volunteer advocates, who may or may not be attorneys licensed to practice law, to assist in the performance of the guardian ad litem duties for the court. Nonattorney volunteer advocates shall not provide legal representation. The court shall have the authority to examine the general and criminal background of persons designated as volunteer advocates, including utilization of the family care safety registry and access line pursuant to sections 210.900 to 210.937, to ensure the safety and welfare of the children such persons are designated to represent. The volunteer advocate shall be provided with all reports relevant to the case made to or by any agency or person, shall have access to all records of such agencies or persons relating to the child or such child's family members or placements of the child, and upon designation by the court to a case, shall be informed of and have the right to attend any and all family support team meetings involving the child. Any such designated person shall receive no compensation from public funds. This shall not preclude reimbursement for reasonable expenses.

[7.] 8. Any person appointed to perform guardian ad litem or children's counsel duties shall have completed a training program in permanency planning and shall advocate for timely court hearings whenever possible to attain permanency for a child as expeditiously as possible to reduce the effects that prolonged foster care may have on a child. A nonattorney volunteer advocate shall have access to a court appointed attorney guardian ad litem or child's counsel should the circumstances of the particular case so require.

As used in this section, the following terms shall mean:

- (1) "Child", any child placed in the legal custody of the division under chapter 211;
- (2) "Division", the children's division of the department of social services of the state of Missouri;
- (3) "Money", any legal tender, note, draft, certificate of deposit, stocks, bond or check;
- (4) "Vested right", a legal right that is more than a mere expectancy and may be reduced to a present monetary value.

2. The child, the child's parents, any fiduciary or any representative payee holding or receiving money that are vested rights solely for or on behalf of a child are jointly and severally liable for funds expended by the division to or on behalf of the child. The liability of any person, except a parent of the child, shall be limited to the money received in his or her fiduciary or representative capacity. The Missouri state government shall not require a trustee or a financial institution acting as a trustee to exercise any discretionary powers in the operation of a trust.

3. The division may accept an appointment to serve as representative payee or fiduciary, or in a similar capacity for payments to a child under any public or private benefit arrangement. Money so received shall be governed by this section to the extent that laws and regulations governing payment of such benefits provide otherwise.

4. Any money received by the division on behalf of a child shall be accounted for in the name of the child. Any money in the account of a child may be expended by the division for care or services for the child. The division shall by rule adopted under chapter 536 establish procedures for the accounting of the money and the protection of the money against theft, loss or misappropriation.

5. The division shall deposit money with a financial institution. Any earnings attributable to the money in the account of a child shall be credited to that child's account. The division shall receive bids from banking corporations, associations or trust companies which desire to be selected as depositories of children's moneys for the division.

6. The division may accept funds which a parent, guardian or other person wishes to provide for the use or benefit of the child. The use and deposit of such funds shall be governed by this section and any additional directions given by the provider of the funds.

7. Each child for whose benefit funds have been received by the division **[and]**, the guardian ad litem of such child, and the child's counsel shall be furnished annually with a statement listing all transactions involving the funds which have been deposited on the child's behalf, to include each receipt and disbursement.

8. The division shall use all proper diligence to dispose of the balance of money accumulated in the child's account when the child is released from the care and custody of the division or the child dies. When the child is deceased the balance shall be disposed of as provided by law for descent and distribution. If, after the division has diligently used such methods and means as considered reasonable to refund such funds, there shall remain any money, the owner of which is unknown to the division, or if known, cannot be located by the division, in each and every such instance such money shall escheat and vest in the state of Missouri, and the director and officials of the division shall pay the same to the state director of the department of revenue, taking a receipt therefor, who shall deposit the money in the state treasury to be credited to a fund to be designated as "escheat".

9. Within five years after money has been paid into the state treasury, any person who appears and claims the money may file a petition in the circuit court of Cole County, Missouri, stating the nature of the claim and praying that such money be paid to him. A copy of the petition shall be served upon the director of the department of revenue who shall file an answer to the same. The court shall proceed to examine the claim and the allegations and proof, and if it finds that such person is entitled to any money so paid into the state treasury, it shall order the commissioner of administration to issue a warrant on the state treasurer for the amount of such claim, but without interest or costs. A certified copy of the order shall be sufficient voucher for issuing a warrant; provided, that either party may appeal from the decision of the court in the same manner as provided by law in other civil actions.

10. All moneys paid into the state treasury under the provisions of this section after remaining there unclaimed for five years shall escheat and vest absolutely in the state and be credited to the state treasury, and all persons shall be forever barred and precluded from setting up title or claim to any such funds.

210.565. RELATIVES OF CHILD SHALL BE GIVEN FOSTER HOME PLACEMENT, WHEN — DEFINITIONS — ORDER OF PREFERENCE — SPECIFIC FINDINGS REQUIRED, WHEN — SIBLING PLACEMENT — AGE OF RELATIVE NOT A FACTOR, WHEN — FEDERAL REQUIREMENTS TO BE FOLLOWED FOR PLACEMENT OF NATIVE AMERICAN CHILDREN — WAIVER OF CERTAIN STANDARDS, WHEN — GAL OR COUNSEL TO ASCERTAIN CHILD'S WISHES, WHEN. — 1. Whenever a child is placed in a foster home and the court has determined pursuant to subsection 4 of this section that foster home placement with relatives is not contrary to the best interest of the child, the children's division shall give foster home placement to relatives of the child. Notwithstanding any rule of the division to the contrary and under section 210.305, the children's division shall complete a diligent search to locate and notify the grandparents, adult siblings, parents of siblings of the child, and all other relatives and determine whether they wish to be considered for placement of the child. Grandparents who request consideration shall be given preference and first consideration for foster home placement of the child. If more than one grandparent requests consideration, the family support team shall make recommendations to the juvenile or family court about which grandparent should be considered for placement.

2. As used in this section, the following terms shall mean:

(1) "Adult sibling", any brother or sister of whole or half-blood who is at least eighteen years of age;

(2) "Relative", a grandparent or any other person related to another by blood or affinity or a person who is not so related to the child but has a close relationship with the child or the child's family. A foster parent or kinship caregiver with whom a child has resided for nine months or more is a person who has a close relationship with the child. The status of a grandparent shall not be affected by the death or the dissolution of the marriage of a son or daughter;

(3) "Sibling", one of two or more individuals who have one or both parents in common through blood, marriage, or adoption, including siblings as defined by the child's tribal code or custom.

Matter in bold-face type is proposed language.

(3) Relatives; and

(4) Any foster parent who is currently licensed and capable of accepting placement of the child.

4. The preference for placement and first consideration for grandparents or preference for placement with other relatives created by this section shall only apply where the court finds that placement with such grandparents or other relatives is not contrary to the best interest of the child considering all circumstances. If the court finds that it is contrary to the best interest of a child to be placed with grandparents or other relatives, the court shall make specific findings on the record detailing the reasons why the best interests of the child necessitate placement of the child with persons other than grandparents or other relatives. Absent evidence to the contrary, the court may presume that continuation of the child's placement with his or her current caregivers is in the child's best interests.

5. Recognizing the critical nature of sibling bonds for children, the children's division shall make reasonable efforts to place siblings in the same foster care, kinship, guardianship, or adoptive placement, unless doing so would be contrary to the safety or well-being of any of the siblings. If siblings are not placed together, the children's division shall make reasonable efforts to provide frequent visitation or other ongoing interaction between the siblings, unless this interaction would be contrary to a sibling's safety or well-being.

6. The age of the child's grandparent or other relative shall not be the only factor that the children's division takes into consideration when it makes placement decisions and recommendations to the court about placing the child with such grandparent or other relative.

7. For any Native American child placed in protective custody, the children's division shall comply with the placement requirements set forth in 25 U.S.C. Section 1915.

8. A grandparent or other relative may, on a case-by-case basis, have standards for licensure not related to safety waived for specific children in care that would otherwise impede licensing of the grandparent's or relative's home. In addition, any person receiving a preference may be licensed in an expedited manner if a child is placed under such person's care.

9. The guardian ad litem or child's counsel shall ascertain the child's wishes and feelings about his or her placement by conducting an interview or interviews with the child, if appropriate based on the child's age and maturity level, which shall be considered as a factor in placement decisions and recommendations, but shall not supersede the preference for relative placement created by this section or be contrary to the child's best interests.

210.762. FAMILY SUPPORT TEAM MEETINGS TO BE HELD, WHEN — WHO MAY ATTEND — FORM TO BE USED. — 1. When a child is taken into custody by a juvenile officer or law enforcement official under subdivision (1) of subsection 1 of section 211.031 and initially placed with the division, the division may make a temporary placement and shall arrange for a family support team meeting prior to or within twenty-four hours following the protective custody hearing held under section 211.032. After a child is in the division's custody and a temporary placement has been made, the division shall arrange an additional family support team meeting prior to taking any action relating to the placement of such child; except that, when the welfare of a child in the custody of the division requires an immediate or emergency change of placement, the division may make a temporary placement and shall schedule a family support team meeting within seventy-two hours. The requirement for a family support team meeting shall not apply when the parent has consented in writing to the termination of his or her parental rights in conjunction with a placement in a licensed child-placing agency under subsection 6 of section 453.010.

2. The parents, the legal counsel for the parents, the foster parents, the legal guardian or custodian of the child, the guardian ad litem for the child, the child's counsel, and the volunteer advocate, and any designee of the parent that has written authorization shall be notified and invited to participate in all family support team meetings. The family support team meeting may include such other persons whose attendance at the meeting may assist the team in making appropriate decisions in the best interests of the child. If the division finds that it is not in the best interest of a child to be placed with relatives, the division shall make specific findings in the division's report detailing the reasons why the best interests of the child necessitate placement of the child with persons other than relatives.

3. The division shall use the form created in subsection 2 of section 210.147 to be signed upon the conclusion of the meeting pursuant to subsection 1 of this section confirming that all involved parties are aware of the team's decision regarding the custody and placement of the child. Any dissenting views must be recorded and attested to on such form.

4. The case manager shall be responsible for including such form with the case records of the child.

2. Upon apprehension and arrest, jurisdiction over the criminal offense allegedly committed by any person between eighteen and twenty-one years of age over whom the juvenile court has retained continuing jurisdiction shall automatically terminate and that offense shall be dealt with in the court of general jurisdiction as provided in section 211.041.

3. Knowing and willful age misrepresentation by a juvenile subject shall not affect any action or proceeding which occurs based upon the misrepresentation. Any evidence obtained during the period of time in which a child misrepresents his or her age may be used against the child and will be subject only to rules of evidence applicable in adult proceedings.

4. Written notification of a transfer hearing shall be given to the juvenile and his or her custodian in the same manner as provided in sections 211.101 and 211.111. Notice of the hearing may be waived by the custodian. Notice shall contain a statement that the purpose of the hearing is to determine whether the child is a proper subject to be dealt with under the provisions of this chapter, and that if the court finds that the child is not a proper subject to be dealt with under the

provisions of this chapter, the petition or motion to modify will be dismissed to allow for prosecution of the child under the general law.

5. The juvenile officer may consult with the office of prosecuting attorney concerning any offense for which the child could be certified as an adult under this section. The prosecuting or circuit attorney shall have access to police reports, reports of the juvenile or deputy juvenile officer, statements of witnesses and all other records or reports relating to the offense alleged to have been committed by the child. The prosecuting or circuit attorney shall have access to the disposition records of the child when the child has been adjudicated pursuant to subdivision (3) of subsection 1 of section 211.031. The prosecuting attorney shall not divulge any information regarding the child and the offense until the juvenile court at a judicial hearing has determined that the child is not a proper subject to be dealt with under the provisions of this chapter.

6. A written report shall be prepared in accordance with this chapter developing fully all available information relevant to the criteria which shall be considered by the court in determining whether the child is a proper subject to be dealt with under the provisions of this chapter and whether there are reasonable prospects of rehabilitation within the juvenile justice system. These criteria shall include but not be limited to:

- (1) The seriousness of the offense alleged and whether the protection of the community requires transfer to the court of general jurisdiction;
- (2) Whether the offense alleged involved viciousness, force and violence;
- (3) Whether the offense alleged was against persons or property with greater weight being given to the offense against persons, especially if personal injury resulted;
- (4) Whether the offense alleged is a part of a repetitive pattern of offenses which indicates that the child may be beyond rehabilitation under the juvenile code;
- (5) The record and history of the child, including experience with the juvenile justice system, other courts, supervision, commitments to juvenile institutions and other placements;
- (6) The sophistication and maturity of the child as determined by consideration of his or her home and environmental situation, emotional condition and pattern of living;
- (7) The age of the child;
- (8) The program and facilities available to the juvenile court in considering disposition;
- (9) Whether or not the child can benefit from the treatment or rehabilitative programs available to the juvenile court; and
- (10) Racial disparity in certification.

7. If the court dismisses the petition to permit the child to be prosecuted under the general law, the court shall enter a dismissal order containing:

- (1) Findings showing that the court had jurisdiction of the cause and of the parties;
- (2) Findings showing that the child was represented by counsel;
- (3) Findings showing that the hearing was held in the presence of the child and his or her counsel; and
- (4) Findings showing the reasons underlying the court's decision to transfer jurisdiction.

8. A copy of the petition or motion to modify and order of the dismissal shall be sent to the prosecuting attorney.

9. When a petition or motion to modify has been dismissed thereby permitting a child to be prosecuted under the general law and the prosecution of the child results in a conviction, the jurisdiction of the juvenile court over that child is forever terminated, except as provided in subsection 10 of this section, for an act that would be a violation of a state law or municipal ordinance.

10. If a petition or motion to modify has been dismissed thereby permitting a child to be prosecuted under the general law and the child is found not guilty by a court of general jurisdiction, the juvenile court shall have jurisdiction over any later offense committed by that child which would be considered a misdemeanor or felony if committed by an adult, subject to the certification provisions of this section.

11. If the court does not dismiss the petition or motion to modify to permit the child to be prosecuted under the general law, it shall set a date for the hearing upon the petition as provided in section 211.171.

211.072. CERTIFICATION AS AN ADULT, PLACEMENT IN SECURE DETENTION FACILITY TO CONTINUE TRANSFER TO ADULT JAIL, WHEN, PROCEDURE — LIMITATION ON TIME IN ADULT JAIL — REQUIREMENTS FOR PRETRIAL-CERTIFIED JUVENILES — PER DIEM. — 1. A juvenile under eighteen years of age who has been certified to stand trial as an adult for offenses pursuant to section 211.071, if currently placed in a secure juvenile detention facility, shall remain in a secure juvenile detention facility pending finalization of the judgment and completion of appeal, if any, of the judgment dismissing the juvenile petition to allow for prosecution under the general law unless otherwise ordered by the juvenile court. Upon the judgment dismissing the petition to allow prosecution under the general laws becoming final and adult charges being filed, if the juvenile is currently in a secure juvenile detention facility, the juvenile shall remain in such facility unless the juvenile posts bond or the juvenile is transferred to an adult jail. If the juvenile officer does not believe juvenile detention would be the appropriate placement or would continue to serve as the appropriate placement, the juvenile officer may file a motion in the adult criminal case requesting that the juvenile be transferred from a secure juvenile detention facility to an adult jail. The court shall hear evidence relating to the appropriateness of the juvenile remaining in a secure juvenile detention facility or being transferred to an adult jail. At such hearing, the following shall have the right to be present and have the opportunity to present evidence and recommendations at such hearing: the juvenile; the juvenile's parents; the juvenile's counsel; the prosecuting attorney; the juvenile officer or his or her designee for the circuit in which the juvenile was certified; the juvenile officer or his or her designee for the circuit in which the pretrial-certified juvenile is proposed to be held, if different from the circuit in which the juvenile was certified; counsel for the juvenile officer; and representatives of the county proposed to have custody of the pretrial-certified juvenile.

2. Following the hearing, the court shall order that the juvenile continue to be held in a secure juvenile detention facility subject to all Missouri juvenile detention standards, or the court shall order that the pretrial-certified juvenile be held in an adult jail but only after the court has made findings that it would be in the best interest of justice to move the pretrial-certified juvenile to an adult jail. The court shall weigh the following factors when deciding whether to detain a certified juvenile in an adult facility:

- (1) The certified juvenile's age;
- (2) The certified juvenile's physical and mental maturity;
- (3) The certified juvenile's present mental state, including whether he or she presents an imminent risk of self-harm;
- (4) The nature and circumstances of the charges;
- (5) The certified juvenile's history of delinquency;
- (6) The relative ability of the available adult and juvenile facilities to both meet the needs of the certified juvenile and to protect the public and other youth in their custody;

(7) The opinion of the juvenile officer in the circuit of the proposed placement as to the ability of that juvenile detention facility to provide for appropriate care, custody, and control of the pretrial-certified juvenile; and

(8) Any other relevant factor.

3. In the event the court finds that it is in the best interest of justice to require the certified juvenile to be held in an adult jail, the court shall hold a hearing once every thirty days to determine whether the placement of the certified juvenile in an adult jail is still in the best interests of justice. If a pretrial-certified juvenile under eighteen years of age is ordered released on the juvenile's adult criminal case from an adult jail following a transfer order under subsection 2 of this section and the juvenile is detained on violation of the conditions of release or bond, the juvenile shall return to the custody of the adult jail pending further court order.

4. A certified juvenile cannot be held in an adult jail for more than one hundred eighty days unless the court finds, for good cause, that an extension is necessary or the juvenile, through counsel, waives the one hundred eighty day maximum period. If no extension is granted under this subsection, the certified juvenile shall be transferred from the adult jail to a secure juvenile detention facility. If an extension is granted under this subsection, the court shall hold a hearing once every thirty days to determine whether the placement of the certified juvenile in an adult jail is still in the best interests of justice.

5. Effective December 31, 2021, all previously pretrial-certified juveniles under eighteen years of age who had been certified prior to August 28, 2021, shall be transferred from adult jail to a secure juvenile detention facility, unless a hearing is held and the court finds, based upon the factors in subsection 2 of this section, that it would be in the best interest of justice to keep the juvenile in the adult jail.

6. All pretrial-certified juveniles under eighteen years of age who are held in adult jails pursuant to the best interest of justice exception shall continue to be subject to the protections of the Prison Rape Elimination Act (PREA) and shall be physically separated from adult inmates.

7. If the certified juvenile remains in juvenile detention, the juvenile officer may file a motion to reconsider placement. The court shall consider the factors set out in subsection 2 of this section and the individuals set forth in subsection 1 of this section shall have a right to be present and present evidence. The court may amend its earlier order in light of the evidence and arguments presented at the hearing if the court finds that it would not be in the best interest of justice for the juvenile to remain in a secure juvenile detention facility.

8. Issues related to the setting of, and posting of, bond along with any bond forfeiture proceedings shall be held in the pretrial-certified juvenile's adult criminal case.

9. Upon attaining eighteen years of age or upon a plea of guilty or conviction on the adult charges, the juvenile shall be transferred from juvenile detention to the appropriate adult facility.

10. Any responsibility for transportation of and contracted service for the certified juvenile who remains in a secure juvenile detention facility shall be handled by county jail staff in the same manner as in all other adult criminal cases where the defendant is in custody.

11. The county jail staff shall designate a liaison assigned to each pretrial-certified juvenile while housed in a juvenile detention facility, who shall assist in communication with the juvenile detention facility on the needs of the juvenile including, but not limited to, visitation, legal case status, medical and mental health needs, and phone contact.

12. The per diem provisions as set forth in section 211.156 shall apply to certified juveniles who are being held in a secure juvenile detention facility.

211.211. RIGHT TO COUNSEL OR GUARDIAN AD LITEM — COUNSEL APPOINTED, WHEN — WAIVER, EXCEPTIONS FOR CERTAIN PROCEEDINGS. — 1. A child is entitled to be represented by counsel in all proceedings under subdivision (2) or (3) of subsection 1 of section 211.031 and by a guardian ad litem in all proceedings under subdivision (1) of subsection 1 of section 211.031, except as otherwise provided in subsection 3 of section 210.160 when the child shall be represented by counsel and the provisions of section 210.160 shall apply to the appointment of such counsel. Counsel appointed under subsection 3 of section 210.160 shall not be waived.

2. The court shall appoint counsel for a child prior to the filing of a petition if a request is made therefor to the court and the court finds that the child is the subject of a juvenile court proceeding and that the child making the request is indigent.

3. (1) When a petition has been filed under subdivision (2) or (3) of subsection 1 of section 211.031, the court may appoint counsel for the child except if private counsel has entered his or her appearance on behalf of the child or if counsel has been waived in accordance with law; except that, counsel shall not be waived for any proceeding specified under subsection 10 of this section unless the child has had the opportunity to meaningfully consult with counsel and the court has conducted a hearing on the record.

(2) If a child waives his or her right to counsel, such waiver shall be made in open court and be recorded and in writing and shall be made knowingly, intelligently, and voluntarily. In determining whether a child has knowingly, intelligently, and voluntarily waived his or her right to counsel, the court shall look to the totality of the circumstances including, but not limited to, the child's age, intelligence, background, and experience generally and in the court system specifically; the child's emotional stability; and the complexity of the proceedings.

4. When a petition has been filed and the child's custodian appears before the court without counsel, the court shall appoint counsel for the custodian if it finds:

- (1) That the custodian is indigent; and
- (2) That the custodian desires the appointment of counsel; and
- (3) That a full and fair hearing requires appointment of counsel for the custodian.

5. Counsel shall be allowed a reasonable time in which to prepare to represent his client.

6. Counsel shall serve for all stages of the proceedings, including appeal, unless relieved by the court for good cause shown. If no appeal is taken, services of counsel are terminated following the entry of an order of disposition.

7. The child and his custodian may be represented by the same counsel except where a conflict of interest exists. Where it appears to the court that a conflict exists, it shall order that the child and his custodian be represented by separate counsel, and it shall appoint counsel if required by subsection 3 or 4 of this section.

8. When a petition has been filed, a child may waive his or her right to counsel only with the approval of the court and if such waiver is not prohibited under subsection 10 of this section. If a child waives his or her right to counsel for any proceeding except proceedings under subsection 10 of this section, the waiver shall only apply to that proceeding. In any subsequent proceeding, the child shall be informed of his or her right to counsel.

9. Waiver of counsel by a child may be withdrawn at any stage of the proceeding, in which event the court shall appoint counsel for the child if required by subsection 3 of this section.

10. A child's right to be represented by counsel shall not be waived in any of the following proceedings:

(1) At any contested detention hearing under Missouri supreme court rule 127.08 where the petitioner alleges that the child violated any law that, if committed by an adult, would be a felony unless an agreement is otherwise reached;

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

(2) At a certification hearing under section 211.071 or a dismissal hearing under Missouri supreme court rule 129.04;

(3) At an adjudication hearing under Missouri supreme court rule 128.02 for any felony offense or at any detention hearing arising from a misdemeanor or felony motion to modify or revoke, including the acceptance of an admission;

(4) At a dispositional hearing under Missouri supreme court rule 128.03; or

(5) At a hearing on a motion to modify or revoke supervision under subdivision (2) or (3) of subsection 1 of section 211.031.

211.261. APPEALS. — 1. An appeal shall be allowed to the child from any final judgment, order or decree made under the provisions of this chapter and may be taken on the part of the child by its parent, guardian, legal custodian, spouse, relative or next friend. An appeal shall be allowed to a parent from any final judgment, order or decree made under the provisions of this chapter which adversely affects him. An appeal shall be allowed to the juvenile officer from any final judgment, order or decree made under this chapter, except that no such appeal shall be allowed concerning a final determination pursuant to subdivision (3) of subsection 1 of section 211.031. Notice of appeal shall be filed within thirty days after the final judgment, order or decree has been entered but neither the notice of appeal nor any motion filed subsequent to the final judgment acts as a supersedeas unless the court so orders.

2. Notwithstanding the provisions of subsection 1 of this section, an appeal shall be allowed to the:

(1) Juvenile officer from any order suppressing evidence, a confession or an admission, in proceedings under subdivision (3) of subsection 1 of section 211.031; or

(2) Parent, guardian ad litem, child's counsel, or juvenile officer from any order changing or modifying the placement of a child.

3. The appeal provided for in subsection 2 of this section shall be an interlocutory appeal, filed in the appropriate district of the Missouri court of appeals. Notice of such interlocutory appeal shall be filed within three days of the entry of the order of trial court; the time limits applicable to such appeal shall be the same as in interlocutory appeals allowed to the state in criminal cases.

211.436. INSTRUMENTS OF RESTRAINT PROHIBITED, WHEN — EXCEPTIONS — PROCEDURE TO USE RESTRAINTS. — 1. Instruments of restraint, including handcuffs, chains, irons, or straitjackets, shall not be used on a child during a proceeding in a juvenile court and shall be removed prior to the child's appearance before the court unless, after a hearing, the court finds both that:

(1) The use of restraints is necessary due to one of the following factors:

(a) Instruments of restraint are necessary to prevent physical harm to the child or another person;

(b) The child has a history of disruptive courtroom behavior that has placed others in potentially harmful situations or presents a substantial risk of inflicting physical harm on himself or herself or others as evidenced by recent behavior; or

(c) There is evidence that the child presents a substantial risk of flight from the courtroom; and

(2) There are no less restrictive alternatives to restraints that will prevent flight or physical harm to the child or another person including, but not limited to, the presence of court personnel, law enforcement officers, or bailiffs.

2. If the juvenile officer believes that there is an immediate safety or flight risk, as provided under subsection 1 of this section, the juvenile officer shall advise the attorney for the child and make a request in writing prior to the commencement of the proceeding for the child to remain restrained during the court proceeding while in the presence of the parties to the proceeding.

3. If a request for restraints is made by the juvenile officer, the court shall order a hearing and provide the child's attorney an opportunity to be heard before the court orders the use of restraints. If restraints are ordered, the court shall make findings of fact in support of the order.

4. If restraints are used, the restraints shall allow the child limited movement of the hands to read and handle documents and writings necessary to the proceeding. Under no circumstances shall a child be restrained using restraints fixed to a wall, floor, furniture, or other stationary object.

211.462. APPOINTMENT OF GUARDIAN AD LITEM OR CHILD'S COUNSEL, WHEN — RIGHTS OF PARENT, GUARDIAN, OR COUNSEL — COUNTY TO PAY COURT COSTS, EXCEPTIONS. — 1. In all actions to terminate parental rights, if not previously appointed pursuant to section 210.160, a guardian ad litem or child's counsel shall be appointed for the child as soon as practicable after the filing of the petition.

2. The parent or guardian of the person of the child shall be notified of the right to have counsel, and if they request counsel and are financially unable to employ counsel, counsel shall be appointed by the court. Notice of this provision shall be contained in the summons. When the parent is a minor or incompetent the court shall appoint a guardian ad litem to represent such parent.

3. The guardian ad litem or child's counsel shall, during all stages of the proceedings:

(1) Be the legal representative of the child, and may examine, cross-examine, subpoena witnesses and offer testimony. The guardian ad litem or child's counsel may also initiate an appeal of any disposition that he determines to be adverse to the best interests of the child;

(2) Be an advocate for the child during the dispositional hearing and aid in securing a permanent placement plan for the child. To ascertain the child's wishes, feelings, attachments, and attitudes, he shall conduct all necessary interviews with persons, other than the parent, having contact with or knowledge of the child and, if appropriate, with the child;

(3) Protect the rights, interest and welfare of a minor or incompetent parent by exercising the powers and duties enumerated in subdivisions (1) and (2) of this subsection.

4. Court costs shall be paid by the county in which the proceeding is instituted, except that the court may require the agency or person having or receiving legal or actual custody to pay the costs.

219.021. CHILD MAY BE COMMITTED TO DIVISION, WHEN — NOTICE TO COURT OF RELEASE TO AFTERCARE SUPERVISION, CONTENTS, FORMAL OBJECTIONS MAY BE MADE, WHEN — DIVISION TO OPERATE AND MAINTAIN FACILITIES AND PROGRAMS — DAY RELEASE AUTHORIZED — PAYMENT OF JUDGMENTS. — 1. Except as provided in subsections 2 and 3 of this section, any child may be committed to the custody of the division when the juvenile court determines a suitable community-based treatment service does not exist, or has proven ineffective; and when the child is adjudicated pursuant to the provisions of subdivision (3) of subsection 1 of section 211.031 or when the child is adjudicated pursuant to subdivision (2) of subsection 1 of section 211.031 and is currently under court supervision for adjudication under subdivision (2) or (3) of subsection 1 of section 211.031. The division shall not keep any youth beyond his [eighteenth birth date] or her nineteenth birthday, except upon petition and a showing of just cause

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

in which case the division may maintain custody until the youth's twenty-first birth date. Notwithstanding any other provision of law to the contrary, the committing court shall review the treatment plan to be provided by the division. The division shall notify the court of original jurisdiction from which the child was committed at least three weeks prior to the child's release to aftercare supervision. The notification shall include a summary of the treatment plan and progress of the child that has resulted in the planned release. The court may formally object to the director of the division in writing, stating its reasons in opposition to the release. The director shall review the court's objection in consideration of its final approval for release. The court's written objection shall be made within a one-week period after it receives notification of the division's planned release; otherwise the division may assume court agreement with the release. The division director's written response to the court shall occur within five working days of service of the court's objection and preferably prior to the release of the child. The division shall not place a child directly into a precare setting immediately upon commitment from the court until it advises the court of such placement.

2. No child who has been diagnosed as having a mental disease or a communicable or contagious disease shall be committed to the division; except the division may, by regulation, when services for the proper care and treatment of persons having such diseases are available at any of the facilities under its control, authorize the commitment of children having such diseases to it for treatment in such institution. Notice of any such regulation shall be promptly mailed to the judges and juvenile officers of all courts having jurisdiction of cases involving children.

3. When a child has been committed to the division, the division shall forthwith examine the individual and investigate all pertinent circumstances of his background for the purpose of facilitating the placement and treatment of the child in the most appropriate program or residential facility to assure the public safety and the rehabilitation of the child; except that, no child committed under the provisions of subdivision (2) of subsection 1 of section 211.031 may be placed in the residential facilities designated by the division as a maximum security facility, unless the juvenile is subsequently adjudicated under subdivision (3) of subsection 1 of section 211.031.

4. The division may transfer any child under its jurisdiction to any other institution for children if, after careful study of the child's needs, it is the judgment of the division that the transfer should be effected. If the division determines that the child requires treatment by another state agency, it may transfer the physical custody of the child to that agency, and that agency shall accept the child if the services are available by that agency.

5. The division shall make periodic reexaminations of all children committed to its custody for the purpose of determining whether existing dispositions should be modified or continued. Reexamination shall include a study of all current circumstances of such child's personal and family situation and an evaluation of the progress made by such child since the previous study. Reexamination shall be conducted as frequently as the division deems necessary, but in any event, with respect to each such child, at intervals not to exceed six months. Reports of the results of such examinations shall be sent to the child's committing court and to his parents or guardian.

6. Failure of the division to examine a child committed to it or to reexamine him within six months of a previous examination shall not of itself entitle the child to be discharged from the custody of the division but shall entitle the child, his parent, guardian, or agency to which the child may be placed by the division to petition for review as provided in section 219.051.

7. The division is hereby authorized to establish, build, repair, maintain, and operate, from funds appropriated or approved by the legislature for these purposes, facilities and programs necessary to implement the provisions of this chapter. Such facilities or programs may include,

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

but not be limited to, the establishment and operation of training schools, maximum security facilities, moderate care facilities, group homes, day treatment programs, family foster homes, aftercare, counseling services, educational services, and such other services as may be required to meet the needs of children committed to it. The division may terminate any facility or program no longer needed to meet the needs of children.

8. The division may institute day release programs for children committed to it. The division may arrange with local schools, public or private agencies, or persons approved by the division for the release of children committed to the division on a daily basis to the custody of such schools, agencies, or persons for participation in programs.

9. The division shall make all reasonable efforts to ensure that any outstanding judgment entered in accordance with section 211.185 or any outstanding assessments ordered in accordance with section 211.181 be paid while a child is in the care, custody or control of the division.

221.044. PERSONS UNDER EIGHTEEN MAY NOT BE CONFINED IN ADULT JAILS, EXCEPTIONS. — No person under the age of eighteen years, except those transferred to the court of general jurisdiction under the provisions of section 211.071, shall be detained in a jail or other adult detention facility as that term is defined in section 211.151. [A traffic court judge may request the juvenile court to order the commitment of a person under the age of eighteen to a juvenile detention facility.] If a person is eighteen years of age or older or attains the age of eighteen while in detention, upon a motion filed by the juvenile officer, the court may order that the person be detained in a jail or other adult detention facility as that term is defined in section 211.151 until the disposition of that person's juvenile court case.

Before applicants for a marriage license shall receive a license, and before the recorder of deeds shall be authorized to issue a license, the parties to the marriage shall present an application for the license, duly executed and signed in the presence of the recorder of deeds or their deputy or electronically through an online process. If an applicant is unable to sign the application in the presence of the recorder of deeds as a result of the applicant's incarceration or because the applicant has been called or ordered to active military duty out of the state or country, the recorder of deeds may issue a license if:

(1) An affidavit or sworn statement is submitted by the incarcerated or military applicant on a form furnished by the recorder of deeds which includes the necessary information for the recorder of deeds to issue a marriage license under this section. The form shall include, but not be limited to, the following:

- (c) An attestation by the incarcerated or military applicant that both applicants are not related;
- (d) The date the marriage ended if the incarcerated or military applicant was previously married;

(e) An attestation signed by the incarcerated or military applicant stating in substantial part that the applicant is unable to appear in the presence of the recorder of deeds as a result of the applicant's incarceration or because the applicant has been called or ordered to active military duty out of the state or country, which will be verified by the professional or official who directs the operation of the jail or prison or the military applicant's military officer, or such professional's or official's designee, and acknowledged by a notary public commissioned by the state of Missouri at the time of verification. However, in the case of an applicant who is called or ordered to active military duty outside Missouri, acknowledgment may be obtained by a notary public who is duly commissioned by a state other than Missouri or by notarial services of a military officer in accordance with the Uniform Code of Military Justice at the time of verification;

(2) The completed marriage license application of the incarcerated or military applicant is submitted which includes the applicant's Social Security number; except that, in the event the applicant does not have a Social Security number, a sworn statement by the applicant to that effect; and

3. Each application for a license shall contain the Social Security number of the applicant, provided that the applicant in fact has a Social Security number, or the applicant shall sign a statement provided by the recorder that the applicant does not have a Social Security number. The Social Security number contained in an application for a marriage license shall be exempt from examination and copying pursuant to section 610.024. After the receipt of the application the recorder of deeds shall issue the license, unless one of the parties withdraws the application. The license shall be void after thirty days from the date of issuance.

4. Any person violating the provisions of this section shall be deemed guilty of a misdemeanor.

5. Common-law marriages shall be null and void.

6. Provided, however, that no marriage shall be deemed or adjudged invalid, nor shall the validity be in any way affected for want of authority in any person so solemnizing the marriage pursuant to section 451.100, if consummated with the full belief on the part of the persons, so married, or either of them, that they were lawfully joined in marriage.

7. In the event a recorder of deeds utilizes an online process to accept applications for a marriage license or to issue a marriage license and the applicants' identity has not been verified in person, the recorder of deeds shall have a two-step identity verification process or a process that independently verifies the identity of such applicants. Such process shall be adopted as part of any electronic system for marriage licenses if the applicants do not present themselves to the recorder of deeds or his or her designee in person. It shall be the responsibility of the recorder of deeds to ensure any process adopted to allow electronic application or issuance of a marriage license verifies the identities of both applicants. The recorder of deeds shall not accept applications for or issue marriage licenses through the process provided in this subsection unless [both applicants are at least eighteen years of age and] at least one of the applicants is a resident of the county or city not within a county in which the application was submitted.

Any unexpended balance remaining in the crime victims' compensation fund at the end of each biennium shall not be subject to the provision of section 33.080 requiring the transfer of such unexpended balance to the ordinary revenue fund of the state, but shall remain in the crime victims' compensation fund. In the event that there are insufficient funds in the crime victims' compensation fund to pay all claims in full, all claims shall be paid on a pro rata basis. on which installments remain due shall be paid in full in chronological order before any other postdated award shall be paid. Any award pursuant to this subsection is specifically not a claim against the state, if it cannot be paid due to a lack of funds in the crime victims' compensation fund.

13. When judgment is entered against a defendant as provided in this section and such sum, or any part thereof, remains unpaid, there shall be withheld from any disbursement, payment, benefit, compensation, salary, or other transfer of money from the state of Missouri to such defendant an amount equal to the unpaid amount of such judgment. Such amount shall be paid forthwith to the crime victims' compensation fund and satisfaction of such judgment shall be entered on the court record. Under no circumstances shall the general revenue fund be used to reimburse court costs or pay for such judgment. The director of the department of corrections shall have the authority to pay into the crime victims' compensation fund from an offender's compensation or account the amount owed by the offender to the crime victims' compensation fund, provided that the offender has failed to pay the amount owed to the fund prior to entering a correctional facility of the department of corrections.

14. All interest earned as a result of investing funds in the crime victims' compensation fund shall be paid into the crime victims' compensation fund and not into the general revenue of this state.

15. Any person who knowingly makes a fraudulent claim or false statement in connection with any claim hereunder is guilty of a class A misdemeanor.

Modifies a Supreme Court Rule relating to class actions.

AN ACT to amend supreme court rule 52.08, relating to class actions.

SECTION

- A. Enacting clause.
- 52.08 Class actions.

Be it enacted by the General Assembly of the State of Missouri, as follows:

SECTION A. ENACTING CLAUSE. — Supreme court rule 52.08 is amended, to read as follows:

52.08. CLASS ACTIONS. — Class Actions

[(a) Prerequisites to a Class Action. One or more members of a class may sue or be sued as representative parties on behalf of all only if (1) the class is so numerous that joinder of all members is impracticable, (2) there are questions of law or fact common to the class, (3) the claims or

defenses of the representative parties are typical of the claims or defenses of the class, and (4) the representative parties will fairly and adequately protect the interests of the class.

(b) Class Actions Maintainable. An action may be maintained as a class action if the prerequisites of subdivision (a) are satisfied, and in addition:

(1) the prosecution of separate actions by or against individual members of the class would create a risk of

(A) inconsistent or varying adjudications with respect to individual members of the class which would establish incompatible standards of conduct for the party opposing the class, or

(B) adjudications with respect to individual members of the class which would as a practical matter be dispositive of the interests of the other members not parties to the adjudications or substantially impair or impede their ability to protect their interests; or

(2) the party opposing the class has acted or refused to act on grounds generally applicable to the class, thereby making appropriate final injunctive relief or corresponding declaratory relief with respect to the class as a whole; or

(3) the court finds that the questions of law or fact common to the members of the class predominate over any questions affecting only individual members, and that a class action is superior to other available methods for the fair and efficient adjudication of the controversy. The matters pertinent to the findings include:

(A) the interest of members of the class in individually controlling the prosecution or defense of separate actions;

(B) the extent and nature of any litigation concerning the controversy already commenced by or against members of the class;

(C) the desirability or undesirability of concentrating the litigation of the claims in the particular forum;

(D) the difficulties likely to be encountered in the management of a class action.

(c) Determination by Order Whether Class Action to Be Maintained - Notice - Judgment - Actions Conducted Partially as Class Actions.

(1) As soon as practicable after the commencement of an action brought as a class action, the court shall determine by order whether it is to be so maintained. An order under this Rule 52.08(c)(1) may be conditional and may be altered or amended before the decision on the merits.

(2) In any class action maintained under Rule 52.08(b)(3), the court shall direct to the members of the class the best notice practicable under the circumstances, including individual notice to all members who can be identified through reasonable effort. The notice shall advise each member that: (A) the court will exclude the member from the class if requested by a specified date; (B) the judgment, whether favorable or not, will include all members who do not request exclusion; and (C) any member who does not request exclusion may, if desired, enter an appearance through counsel.

(3) The judgment in an action maintained as a class action under Rule 52.08(b)(1) or Rule 52.08(b)(2), whether or not favorable to the class, shall include and describe those whom the court finds to be members of the class. The judgment in an action maintained as a class action under Rule 52.08(b)(3), whether or not favorable to the class, shall include and specify or describe those to whom the notice provided in Rule 52.08(c)(2) was directed, and who have not requested exclusion, and whom the court finds to be members of the class.

(4) When appropriate an action may be brought or maintained as a class action with respect to particular issues or a class may be divided into subclasses and each subclass treated as a class, and the provisions of this Rule 52.08 shall then be construed and applied accordingly.

(d) Orders in Conduct of Actions. In the conduct of actions to which this Rule applies, the court may make appropriate orders:

(1) determining the course of proceedings or prescribing measures to prevent undue repetition or complication in the presentation of evidence or argument;

(2) requiring, for the protection of the members of the class or otherwise for the fair conduct of the action, that notice be given in such manner as the court may direct to some or all of the members of any step in the action, or of the proposed extent of the judgment, or of the opportunity of members to signify whether they consider the representation fair and adequate, to intervene and present claims or defenses, or otherwise to come into the action;

(3) imposing conditions on the representative parties or on intervenors;

(4) requiring that the pleadings be amended to eliminate therefrom allegations as to representation of absent persons, and that the action proceed accordingly;

(5) dealing with similar procedural matters.

The orders may be combined with an order under Rule 62, and may be altered or amended as may be desirable from time to time.

(e) Dismissal or Compromise. A class action shall not be dismissed or compromised without the approval of the court, and notice of the proposed dismissal or compromise shall be given to all members of the class in such manner as the court directs.

(f) Appeals. An appellate court may permit an appeal from an order of a circuit court granting or denying class action certification under this Rule 52.08 if a petition is timely filed as provided in Rule 84.035. The filing of a petition shall not stay the proceedings in the trial court unless the trial judge or the appellate court so orders.]

(a) Prerequisites. One or more members of a class may sue or be sued as representative parties on behalf of all members only if:

(1) the class is so numerous that joinder of all members is impracticable;

(2) there are questions of law or fact common to the class;

(3) the claims or defenses of the representative parties are typical of the claims or defenses of the class; and

(4) the representative parties will fairly and adequately protect the interests of the class.

(b) Types of Class Actions. A class action may be maintained if Rule 52.08(a) is satisfied, and if:

(1) prosecuting separate actions by or against individual class members would create a risk of:

(A) inconsistent or varying adjudications with respect to individual class members that would establish incompatible standards of conduct for the party opposing the class; or

(B) adjudications with respect to individual class members that, as a practical matter, would be dispositive of the interests of the other members not parties to the individual adjudications or would substantially impair or impede their ability to protect their interests;

(2) the party opposing the class has acted or refused to act on grounds that apply generally to the class, so that final injunctive relief or corresponding declaratory relief is appropriate respecting the class as a whole; or

(3) the court finds that the questions of law or fact common to class members predominate over any questions affecting only individual members, and that a class action is superior to other available methods for fairly and efficiently adjudicating the controversy. The matters pertinent to these findings include:

(A) the class members' interests in individually controlling the prosecution or defense of separate actions;

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

(B) the extent and nature of any litigation concerning the controversy already begun by or against class members;

(C) the desirability or undesirability of concentrating the litigation of the claims in the particular forum; and

(D) the likely difficulties in managing a class action.

(c) Certification Order - Notice to Class Members - Judgment - Issues Classes - Subclasses.

(1) Certification Order.

(A) Time to Issue. At an early practicable time after a person sues or is sued as a class representative, the court shall determine by order whether to certify the action as a class action.

(B) Defining the Class - Appointing Class Counsel. An order that certifies a class action shall define the class and the class claims, issues, or defenses, and shall appoint class counsel under Rule 52.08(g).

(C) Altering or Amending the Order. An order that grants or denies class certification may be altered or amended before final judgment.

(2) Notice.

(A) For (b)(1) or (b)(2) Classes. For any class certified under Rule 52.08(b)(1) or Rule 52.08(b)(2), the court may direct appropriate notice to the class.

(B) For (b)(3) Classes. For any class certified under Rule 52.08(b)(3), or upon ordering notice under Rule 52.08(e)(1) to a class proposed to be certified for purposes of settlement under Rule 52.08(b)(3), the court shall direct to class members the best notice that is practicable under the circumstances, including individual notice to all members who can be identified through reasonable effort. The notice may be by one or more of the following: United States mail, electronic means, or other appropriate means. The notice shall clearly and concisely state in plain, easily understood language:

(i) the nature of the action;

(ii) the definition of the class certified;

(iii) the class claims, issues, or defenses;

(iv) that a class member may enter an appearance through an attorney if the member so desires;

(v) that the court will exclude from the class any member who requests exclusion;

(vi) the time and manner for requesting exclusion; and

(vii) the binding effect of a class judgment on members under Rule 52.08(c)(3).

(3) Judgment. Whether or not favorable to the class, the judgment in a class action shall:

(A) for any class certified under Rule 52.08(b)(1) or Rule 52.08(b)(2), include and describe those whom the court finds to be class members; and

(B) for any class certified under Rule 52.08(b)(3), include and specify or describe those to whom the notice under Rule 52.08(c)(2) was directed, who have not requested exclusion, and whom the court finds to be class members.

(4) Particular Issues. When appropriate, an action may be brought or maintained as a class action with respect to particular issues.

(5) Subclasses. When appropriate, a class may be divided into subclasses that are each treated as a class under this Rule 52.08.

(d) Conducting the Action.

(1) In General. In conducting an action under this Rule 52.08, the court may issue orders that:

(A) determine the course of proceedings or prescribe measures to prevent undue repetition or complication in presenting evidence or argument;

(B) require, to protect class members and fairly conduct the action, giving appropriate notice to some or all class members of:

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

- (i) any step in the action;
- (ii) the proposed extent of the judgment; or
- (iii) the members' opportunity to signify whether they consider the representation fair and adequate, to intervene and present claims or defenses, or to otherwise come into the action;
- (C) impose conditions on the representative parties or on intervenors;
- (D) require that the pleadings be amended to eliminate allegations about representation of absent persons and that the action proceed accordingly; or
- (E) deal with similar procedural matters.
- (2) Combining and Amending Orders. An order under Rule 52.08(d)(1) may be altered or amended from time to time and may be combined with an order under Rule 62.01.
- (e) Settlement, Voluntary Dismissal, or Compromise. The claims, issues, or defenses of a certified class, or a class proposed to be certified for purposes of settlement, may be settled, voluntarily dismissed, or compromised only with the court's approval. The following procedures apply to a proposed settlement, voluntary dismissal, or compromise:
 - (1) Notice to the Class.
 - (A) Information That Parties Shall Provide to the Court. The parties shall provide the court with information sufficient to enable it to determine whether to give notice of the proposal to the class.
 - (B) Grounds for a Decision to Give Notice. The court shall direct notice in a reasonable manner to all class members who would be bound by the proposal if giving notice is justified by the parties' showing that the court will likely be able to:
 - (i) approve the proposal under Rule 52.08(e)(2); and
 - (ii) certify the class for purposes of judgment on the proposal.
 - (2) Approval of the Proposal. If the proposal would bind class members, the court may approve it only after a hearing and only on finding that it is fair, reasonable, and adequate after considering whether:
 - (A) the class representatives and class counsel have adequately represented the class;
 - (B) the proposal was negotiated at arm's length;
 - (C) the relief provided for the class is adequate, taking into account:
 - (i) the costs, risks, and delay of trial and appeal;
 - (ii) the effectiveness of any proposed method of distributing relief to the class, including the method of processing class-member claims;
 - (iii) the terms of any proposed award of attorney's fees, including timing of payment; and
 - (iv) any agreement required to be identified under Rule 52.08(e)(3); and
 - (D) the proposal treats class members equitably relative to each other.
 - (3) Identifying Agreements. The parties seeking approval shall file a statement identifying any agreement made in connection with the proposal.
 - (4) New Opportunity to Be Excluded. If the class action was previously certified under Rule 52.08(b)(3), the court may refuse to approve a settlement unless it affords a new opportunity to request exclusion to individual class members who had an earlier opportunity to request exclusion but did not do so.
 - (5) Class-Member Objections.
 - (A) In General. Any class member may object to the proposal if it requires court approval under this Rule 52.08(e). The objection shall state whether it applies only to the objector, to a specific subset of the class, or to the entire class, and also state with specificity the grounds for the objection.

(B) Court Approval Required for Payment in Connection with an Objection. Unless approved by the court after a hearing, no payment or other consideration may be provided in connection with:

(i) forgoing or withdrawing an objection; or

(ii) forgoing, dismissing, or abandoning an appeal from a judgment approving the proposal.

(f) Appeals. A court of appeals may permit an appeal from an order granting or denying class-action certification under this Rule 52.08, but not from an order under Rule 52.08(e)(1). An appeal does not stay the proceedings in the trial court unless the trial judge or the court of appeals so orders.

(g) Class Counsel.

(1) Appointing Class Counsel. Unless a statute provides otherwise, a court that certifies a class shall appoint class counsel. In appointing class counsel, the court:

(A) shall consider:

(i) the work counsel has done in identifying or investigating potential claims in the action;

(ii) counsel's experience in handling class actions, other complex litigation, and the types of claims asserted in the action;

(iii) counsel's knowledge of the applicable law; and

(iv) the resources that counsel will commit to representing the class;

(B) may consider any other matter pertinent to counsel's ability to fairly and adequately represent the interests of the class;

(C) may order potential class counsel to provide information on any subject pertinent to the appointment and to propose terms for attorney's fees and nontaxable costs;

(D) may include in the appointing order provisions about the award of attorney's fees or nontaxable costs under Rule 52.08(h); and

(E) may make further orders in connection with the appointment.

(2) Standard for Appointing Class Counsel. When one applicant seeks appointment as class counsel, the court may appoint that applicant only if the applicant is adequate under Rule 52.08(g)(1) and Rule 52.08(g)(4). If more than one adequate applicant seeks appointment, the court shall appoint the applicant best able to represent the interests of the class.

(3) Interim Counsel. The court may designate interim counsel to act on behalf of a putative class before determining whether to certify the action as a class action.

(4) Duty of Class Counsel. Class counsel shall fairly and adequately represent the interests of the class.

(h) Attorney's Fees and Nontaxable Costs. In a certified class action, the court may award reasonable attorney's fees and nontaxable costs that are authorized by law or by the parties' agreement. The following procedures apply:

(1) A claim for an award shall be made by motion under Rule 74.16, subject to the provisions of this Rule 52.08(h), at a time the court sets. Notice of the motion shall be served on all parties and, for motions by class counsel, directed to class members in a reasonable manner.

(2) A class member, or a party from whom payment is sought, may object to the motion.

(3) The court may hold a hearing and shall find the facts and state its legal conclusions.

(4) The court may refer issues related to the amount of the award to a special master.

160.077. GET THE LEAD OUT OF SCHOOL DRINKING WATER ACT — DEFINITIONS — LEAD CONCENTRATION LEVEL LIMIT — DUTIES OF SCHOOLS — TESTING REQUIREMENTS — FUNDING — REPORT — RULES. — 1. This section shall be known and may be cited as the "Get the Lead Out of School Drinking Water Act".

2. As used in this section, the following terms mean:

- (1) "Department", the Missouri department of health and senior services;
- (2) "Disadvantaged school district", any school district that serves students from a county in which at least twenty-five percent of the households in such county are below the federal poverty guidelines updated periodically in the Federal Register by the U.S. Department of Health and Human Services under the authority of 42 U.S.C. Section 9902(2), as amended, or any school district in which more than seventy percent of students in the district qualify for a free or reduced price lunch under the federal Richard B. Russell National School Lunch Act, 42 U.S.C. Section 1751 et seq.;
- (3) "Drinking water outlet", a potable water fixture that is used for drinking or food preparation. Drinking water outlet includes, but is not limited to:
 - (a) A water fountain, faucet, or tap that is used or potentially used for drinking or food preparation or for cleaning cooking or eating utensils; and
 - (b) Ice-making and hot drink machines;
- (4) "First draw", a two hundred fifty-milliliter sample immediately collected from a drinking water outlet that has been turned on after a stagnation period of at least eight hours;
- (5) "Parent", a parent, guardian, or other person having control or custody of a child;
- (6) "Private school", the same definition as in section 166.700;
- (7) "Public school", the same definition as in section 160.011;

(8) "Remediation", decreasing the lead concentration in water from a drinking water outlet to less than five parts per billion [without relying solely on flushing practices, or] using methods such as the replacement of lead-containing pipes, solder, fittings, or fixtures with lead-free components or filtering when the water supply is the source of contamination. Flushing [as a stand alone action] shall not be considered remediation;

(9) "School", any public school, private school, or provider of an early childhood education program that receives state funding.

3. Beginning in the 2023-24 school year and for each subsequent school year, each school shall provide drinking water with a lead concentration level below five parts per billion in sufficient amounts to meet the drinking water needs of all students and staff as provided in this section.

4. (1) On or before January 1, 2024, each school shall:

(a) Conduct an inventory of all drinking water outlets [and all outlets that are used for dispensing water for cooking or for cleaning cooking and eating utensils] in each of the school's buildings;

(b) Develop a plan for testing each outlet inventoried under paragraph (a) of this subdivision and make such plan available to the public; and

(c) Upon request, provide general information on the health effects of lead contamination and additional informational resources for employees and parents of children at each school.

(2) Each school shall make buildings housing early childhood education programs, kindergartens, and elementary schools the priority when complying with paragraphs (a) and (b) of subdivision (1) of this subsection.

(3) Before August 1, 2024, or the first day on which students will be present in the building, whichever is later, each school shall:

(a) Perform all testing as required by subsection 5 of this section and within two weeks after receiving test results, make all testing results and any lead remediation plans available on the school's website;

(b) Remove and replace any drinking water coolers or drinking water outlets that the United States Environmental Protection Agency has determined are not lead-free under the federal Lead Contamination Control Act of 1988, as amended; except the school shall not be required to replace those drinking water outlets or water coolers that tested under the requirements of this section and have been determined to be dispensing drinking water with a lead concentration less than five part per billion; however, such drinking water outlet or water cooler shall be subject to all testing requirements and shall not be excluded from testing under subdivision (3) of subsection [10] 5 of this section.

(4) If testing indicates that the water source is causing the contamination and until such time that the source of the contamination has been remediated, the school shall:

(a) Install a filter that reduces lead in drinking water at each point at which the water supply enters the building in accordance with any relevant requirements set forth by the department of natural resources to ensure lead concentrations are below the standard set in subsection 3 of this section;

(b) Install a filter that reduces lead in drinking water on each water outlet inventoried under paragraph (a) of subdivision (1) of this subsection to ensure lead concentrations are below five parts per billion; or

(c) Provide purified water at each water outlet inventoried under paragraph (a) of subdivision (1) of this subsection.

(5) If testing indicates that the internal building piping is causing the contamination and until such time that the source of the contamination has been remediated, the school shall:

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

(a) Install a filter that reduces lead in drinking water on each water outlet inventoried under paragraph (a) of subdivision (1) of this subsection to ensure lead concentrations are below five parts per billion; ~~or~~

(b) Provide purified water at each water outlet inventoried under paragraph (a) of subdivision (1) of this subsection; ~~or~~

~~(c) Remove the outlet from service.~~

(6) If a pipe, solder, fitting, or fixture is replaced as part of remediation, the replacement shall be lead free, as such term is defined in 40 CFR 143.12, as amended.

(7) If a test result exceeds five parts per billion, the affected school shall:

(a) Contact parents and staff via written notification within seven business days after receiving the test result. The notification shall include at least:

a. The test results and a summary that explains such results;

b. A description of any remedial steps taken; and

c. A description of general health effects of lead contamination and community specific resources; and

(b) Provide bottled water if there is not enough water to meet the drinking water needs of the students, teachers, and staff.

(8) School districts shall submit such annual testing results to the department.

(9) This subsection shall not be construed to prevent a school from conducting more frequent testing than required under this section.

5. (1) Before August 1, 2024, or the first day on which students will be present in the building, whichever is later, and annually thereafter, each school shall conduct testing for lead by first-draw and follow-up flush samples of a random sampling of at least twenty-five percent of remediated drinking water outlets until all remediated sources have been tested as recommended by the 2018 version of the United States Environmental Protection Agency's Training, Testing, and Taking Action program. The testing shall be conducted and the results analyzed for both types of tests by an entity or entities approved by the department. All drinking water outlets with test results of less than five parts per billion for lead shall be retested at intervals described in subdivision (3) of this subsection.

(2) If, in the ten years prior to the 2023-24 school year, a fixture tested above five parts per billion for lead, such fixture does not need to be repeat tested for lead, but instead remediation shall begin on such fixture.

(3) A school that tests and does not find a drinking water outlet with a lead concentration above the standard described in subsection 3 of this section shall be required to test only every five years. This subdivision shall not be construed to prevent a school from conducting more frequent testing than required under this subsection.

6. (1) In addition to the apportionments payable to a school district under chapter 163, the department of natural resources, with support from the department of elementary and secondary education and the department of health and senior services, is hereby authorized to apportion to any school additional funding for the filtration, testing, and other remediation of drinking water systems required under this section, subject to appropriation.

(2) To the extent permitted by federal law, a school district may seek reimbursement or other funds for compliance incurred under this section under any applicable federal law including, but not limited to, the America's Water Infrastructure Act of 2018 and the Water Infrastructure Finance and Innovation Act of 2014, 33 U.S.C. Section 3901 et seq.

(3) Disadvantaged school districts shall receive funding priority under this subsection.

7. The department, in conjunction with the department of elementary and secondary education, shall publish a report biennially based on the findings from the water testing conducted under this section. Such report shall be published on the department of natural resources website.

8. For public schools, the department shall ensure compliance with this section. Each school district shall be responsible for ensuring compliance within each school within the school district's jurisdiction.

9. [No school building constructed after January 4, 2014, as provided in the federal Reduction of Lead in Drinking Water Act (42 U.S.C. Section 300g-6), as amended, shall be required to install, maintain, or replace filters under paragraph (c) of subdivision (1) of subsection 4 of this section.

10. A school that tests and does not find a drinking water source with a lead concentration above the acceptable level as described in subsection 3 of this section shall be required to test only every five years.

11.] The department may promulgate all necessary rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

160.265. SUSPENSION OR EXPULSION, EFFECT ON ATTENDANCE. — A student who is subject to suspension or expulsion as provided under this chapter or chapter 167 shall be counted as being in attendance for the following purposes:

(13) "Ventricular fibrillation", the most common arrhythmia that causes cardiac arrest and a condition in which the heart's electrical impulses suddenly become chaotic, often without warning, causing the heart's pumping action to stop abruptly.

2. For the 2026-27 school year and all subsequent school years, each public school shall develop and implement a cardiac emergency response plan that addresses the appropriate use of school personnel to respond to incidents involving an individual experiencing sudden cardiac arrest or a similar life-threatening emergency while on a school campus.

The AED shall be accessible during the school day and any school-sponsored athletic event or team practice in which pupils of the school are participating. To the extent possible, the governing body of a public school shall make the best effort to ensure that the AED placement as described in this subsection is accessible within three minutes of cardiac arrest.

7. Appropriate school personnel shall be certified in first aid, CPR, and AED use that follow evidence-based guidelines set forth by the American Heart Association or nationally recognized guidelines focused on emergency cardiovascular care. The school personnel required to be certified shall be determined by the cardiac emergency response plan and shall include, but not be limited to, athletics coaches, school nurses, and athletic trainers.

The adult student shall meet the requirements with the same level of academic rigor as would otherwise be necessary to attain such credits.

(3) The adult high school authorized under this section shall award high school diplomas to students who successfully meet the established academic requirements. The adult high school authorized under this section shall confer the diploma as though the student earned the diploma at a traditional high school. The diploma shall have no differentiating marks, titles, or other symbols.

(4) Students at adult high schools may complete required coursework at their own pace and as available through the adult high school. They shall not be required to satisfy any specific number of class minutes. The adult high school may also make classes available to students online as may be appropriate. For the purposes of this subsection, synchronous instruction connecting students to a live class conducted in a Missouri adult high school shall be treated the same as in-person instruction.

(5) The department of elementary and secondary education shall not create additional regulations or burdens on the adult high school or the students attending the adult high schools beyond certifying necessary credits and ensuring that students have sufficiently mastered the subject matter to make them eligible for credit.

5. An adult high school shall be deemed a secondary school system for the purposes of subdivision ~~[(15)]~~ (16) of subsection 1 of section 210.211.

160.2710. MINIMUM ENROLLMENT AGE — PREFERENCE GIVEN TO STUDENTS RECEIVING CERTAIN INCOME-BASED ASSISTANCE — TRANSFERS TO ADULT HIGH SCHOOLS, EFFECT ON DROPOUT RATES. — 1. 3. For the purposes of compiling and tracking dropout rates of a local education agency by the department of elementary and secondary education, a student transferring from a local education agency to an adult high school shall be considered a transfer student and not a dropout student from the local education agency.

(b) Increasing the likelihood that students will go on to study a STEM-related subject at a four-year college upon graduation from high school; or
(c) Increasing the likelihood that students will enter the STEM workforce upon graduation from high school or college.
- (3) The department shall select a provider that delivers a program that meets the following criteria:
- (a) Provides an activity program that is led by teachers who are fully certified to teach in STEM-related subjects in grades nine through twelve under the laws governing the certification of teachers in Missouri; and
(b) Facilitates a cohort of students in grades nine through twelve to participate in STEM-related activities at state, national, or international competitions.
4. Notwithstanding the provisions of subsections 2 and 3 of this section to the contrary, the department of elementary and secondary education may choose a third-party nonprofit entity to implement the statewide program, solicit proposals, and select a provider as described under subsection 3 of this section.
5. There is hereby created in the state treasury the "STEM Career Awareness Activity Fund". The fund shall consist of any appropriations, gifts, bequests, or public or private donations to such fund. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements of public moneys in accordance with distribution requirements and procedures developed by the department of elementary and secondary education. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of this section. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.
6. The department of elementary and secondary education may promulgate all necessary rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. 161.670. COURSE ACCESS AND VIRTUAL SCHOOL PROGRAM ESTABLISHED, ELIGIBILITY FOR ENROLLMENT — STATE AID CALCULATION — ENROLLMENT PROCESS, PAYMENT BY DISTRICT — INSTRUCTIONAL ACTIVITIES, REQUIREMENTS — DEPARTMENT DUTIES, ANNUAL REPORT — STATEWIDE ASSESSMENTS — RULEMAKING AUTHORITY — 1. Notwithstanding any other law, prior to July 1, 2007, the state board of education shall establish the "Missouri Course Access and Virtual School Program" to serve school-age students residing in the state. The Missouri course access and virtual school program shall offer nonclassroom-based instruction in a virtual setting using technology, intranet, or internet methods of communication. Any student under the age of twenty-one in grades kindergarten through twelve who resides in this state shall be eligible to enroll in the Missouri course access and virtual school program pursuant to subsection 3 of this section.

2. (1) For purposes of calculation and distribution of state school aid, students enrolled in the Missouri course access and virtual school program shall be included in the student enrollment of the school district in which the student is enrolled under the relevant provisions of subsection 3 of this section for such enrollment. Student attendance for full-time virtual program students shall only be included in any district pupil attendance calculation under chapter 163 using current-year pupil attendance for such full-time virtual program pupils. For the purpose of calculating average daily attendance in full-time virtual programs under this section, average daily attendance shall be defined as the quotient or the sum of the quotients obtained by dividing the total number of hours attended in a term by enrolled pupils between the ages of five and twenty-one by the actual number of hours that the program was in session in that term, and the provisions of section 162.1250 shall not apply to such funding calculation. Such calculation shall be generated by the virtual provider and provided to the host district for submission to the department of elementary and secondary education. Such students may complete their instructional activities, as defined in subsection 4 of this section, during any hour of the day and during any day of the week. The hours attended for each enrolled pupil shall be documented by the pupil's weekly progress in the educational program according to a process determined by the virtual program and published annually in the virtual program's enrollment handbook or policy. To the average daily attendance of the following school term shall be added the full-time equivalent average daily attendance of summer school students. In the case of a host school district enrolling one or more full-time virtual school students, such enrolling district shall, as part of its monthly state allocation, receive no less under the state aid calculation for such students than an amount equal to the state adequacy target multiplied by the weighted average daily attendance of such full-time students. Students residing in Missouri and enrolled in a full-time virtual school program operated by a public institution of higher education in this state shall be counted for a state aid calculation by the department, and the department shall pay, from funds dedicated to state school aid payments made under section 163.031, to such institution an amount equal to the state adequacy target multiplied by the weighted average daily attendance of such full-time students.

(2) The Missouri course access and virtual school program shall report to the district of residence the following information about each student served by the Missouri course access and virtual school program: name, address, eligibility for free or reduced-price lunch, limited English proficiency status, special education needs, and the number of courses in which the student is enrolled. The Missouri course access and virtual school program shall promptly notify the resident district when a student discontinues enrollment. A "full-time equivalent student" is a student who is enrolled in the instructional equivalent of six credits per regular term. Each Missouri course access and virtual school program course shall count as one class and shall generate that portion of a full-time equivalent that a comparable course offered by the school district would generate.

(3) Pursuant to an education services plan and collaborative agreement under subsection 3 of this section, full-time equivalent students may be allowed to use a physical location of the resident school district for all or some portion of ongoing instructional activity, and the enrollment plan shall provide for reimbursement of costs of the resident district for providing such access pursuant to rules promulgated under this section by the department.

(4) In no case shall more than the full-time equivalency of a regular term of attendance for a single student be used to claim state aid. Full-time equivalent student credit completed shall be reported to the department of elementary and secondary education in the manner prescribed by the department. Nothing in this section shall prohibit students from enrolling in additional courses under a separate agreement that includes terms for paying tuition or course fees.

(5) A full-time virtual school program serving full-time equivalent students shall be considered an attendance center in the host school district and shall participate in the statewide assessment system as defined in section 160.518. The academic performance of students enrolled in a full-time virtual school program shall be assigned to the designated attendance center of the full-time virtual school program and shall be considered in like manner to other attendance centers. The academic performance of any student who disenrolls from a full-time virtual school program and enrolls in a public school or charter school shall not be used in determining the annual performance report score of the attendance center or school district in which the student enrolls for twelve months from the date of enrollment.

(6) For the purposes of this section, a public institution of higher education operating a full-time virtual school program shall be subject to all requirements applicable to a host school district with respect to its full-time equivalent students.

3. (1) A student who resides in this state may enroll in Missouri course access and virtual school program courses of his or her choice as a part of the student's annual course load each school year, with any costs associated with such course or courses to be paid by the school district or charter school if:

(a) The student is enrolled full-time in a public school, including any charter school; and

(b) Prior to enrolling in any Missouri course access and virtual school program course, a student has received approval from his or her school district or charter school through the procedure described under subdivision (2) of this subsection.

(2) Each school district or charter school shall adopt a policy that delineates the process by which a student may enroll in courses provided by the Missouri course access and virtual school program that is substantially similar to the typical process by which a district student would enroll in courses offered by the school district and a charter school student would enroll in courses offered by the charter school. The policy may include consultation with the school's counselor and may include parental notification or authorization. The policy shall ensure that available opportunities for in-person instruction are considered prior to moving a student to virtual courses. The policy shall allow for continuous enrollment throughout the school year. If the school district or charter school disapproves a student's request to enroll in a course or courses provided by the Missouri course access and virtual school program, the reason shall be provided in writing and it shall be for good cause. Good cause justification to disapprove a student's request for enrollment in a course shall be a determination that doing so is not in the best educational interest of the student, and shall be consistent with the determination that would be made for such course request under the process by which a district student would enroll in a similar course offered by the school district and a charter school student would enroll in a similar course offered by the charter school, except that the determination may consider the suitability of virtual courses for the student based on prior participation in virtual courses by the student. Appeals of any course denials under this subsection shall be considered under a policy that is substantially similar to the typical process by which appeals would be considered for a student seeking to enroll in courses offered by the school district and a charter school student seeking to enroll in courses offered by the charter school.

(3) For students enrolled in any Missouri course access and virtual school program course in which costs associated with such course are to be paid by the school district or charter school as described under this subdivision, the school district or charter school shall pay the content provider directly on a pro rata monthly basis based on a student's completion of assignments and assessments. If a student discontinues enrollment, the district or charter school may stop making monthly payments to the content provider. No school district or charter school shall pay, for any one course for a student, more than the market necessary costs but in no case shall pay more than

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

fourteen percent of the state adequacy target, as defined under section 163.011, as calculated at the end of the most recent school year for any single, year-long course and no more than seven percent of the state adequacy target as described above for any single semester equivalent course.

(4) (a) A student who lives in this state may enroll in a virtual program of their choice as provided in this subdivision, and the provisions of subdivisions (1) to (3) of this subsection shall not apply to such enrollment in a full-time virtual program. Each host school district operating a full-time virtual program under this section shall adopt, operate and implement an enrollment policy as specified by the provisions of this subdivision. The student, the student's parent or guardian if the student is not considered homeless, the virtual program, the host district, and the resident district shall collaborate in good faith to implement the enrollment policy regarding the student's enrollment, and the resident school district and the host school district may mutually agree that the resident district shall offer or continue to offer services for the student under an agreement that includes financial terms for reimbursement by the host school district for the necessary costs of the resident school district providing such services. An enrollment policy specified under this subsection shall:

- a. Require a student's parent or guardian, if the student is not considered homeless, to apply for enrollment in a full-time virtual program directly with the virtual program;
- b. Specify timelines for timely participation by the virtual program, the host district, and resident district; provided that the resident district shall provide any relevant information and input on the enrollment within ten business days of notice from the virtual program of the enrollment application;
- c. Include a survey of the reasons for the student's and parent's interests in participating in the virtual program;
- d. Include consideration of available opportunities for in-person instruction prior to enrolling a student in a virtual program;
- e. Evaluate requests for enrollment based on meeting the needs for a student to be successful considering all relevant factors;
- f. Ensure that, for any enrolling student with a covered disability, an individualized education program and a related services agreement, in cases where such agreement is needed, are created to provide all services required to ensure a free and appropriate public education, including financial terms for reimbursement by the host district for the necessary costs of any virtual program, school district, or public or private entity providing all or a portion of such services;
- g. Require the virtual program to determine whether an enrolling student will be admitted, based on the enrollment policy, in consideration of all relevant factors and provide the basis for its determination and any service plan for the student, in writing, to the student, the student's parent or guardian, the host district, and the resident district; and
- h. Provide a process for reviewing appeals of decisions made under this subdivision.

(b) The department shall publish an annual report based on the enrollments and enrollment surveys conducted under this subdivision that provides data at the statewide and district levels of sufficient detail to allow analysis of trends regarding the reasons for participation in the virtual program at the statewide and district levels; provided that no such survey results will be published in a manner that reveals individual student information. The department shall also include, in the annual report, data at the statewide and district levels of sufficient detail to allow detection and analysis of the racial, ethnic, and socio-economic balance of virtual program participation among schools and districts at the statewide and district levels, provided that no such survey results will be published in a manner that reveals individual student information.

(5) In the case of a student who is a candidate for A+ tuition reimbursement and taking a virtual course under this section, the school shall attribute no less than ninety-five percent attendance to any such student who has completed such virtual course.

(6) The Missouri course access and virtual school program shall ensure that individual learning plans designed by certified teachers and professional staff are developed for all students enrolled in more than two full-time course access program courses or a full-time virtual school.

(7) Virtual school programs shall monitor individual student success and engagement of students enrolled in their program and, for students enrolled in virtual courses on a part-time basis, the virtual school program shall provide regular student progress reports for each student at least four times per school year to the school district or charter school, provide the host school district and the resident school district ongoing access to academic and other relevant information on student success and engagement, and shall terminate or alter the course offering if it is found the course is not meeting the educational needs of the students enrolled in the course.

(8) The department of elementary and secondary education shall monitor the aggregate performance of providers and make such information available to the public under subsection 11 of this section.

(9) Pursuant to rules to be promulgated by the department of elementary and secondary education, when a student transfers into a school district or charter school, credits previously gained through successful passage of approved courses under the Missouri course access and virtual school program shall be accepted by the school district or charter school.

(10) Pursuant to rules to be promulgated by the department of elementary and secondary education, if a student transfers into a school district or charter school while enrolled in a Missouri course access and virtual school program course or full-time virtual school, the student shall continue to be enrolled in such course or school.

(11) Nothing in this section shall prohibit home school or FPE school students, private school students, or students wishing to take additional courses beyond their regular course load from enrolling in Missouri course access and virtual school program courses under an agreement that includes terms for paying tuition or course fees.

(12) Nothing in this subsection shall require any school district, charter school, virtual program, or the state to provide computers, equipment, or internet access to any student unless required under the education services plan created for an eligible student under subdivision (4) of this subsection or for an eligible student with a disability to comply with federal law. An education services plan may require an eligible student to have access to school facilities of the resident school district during regular school hours for participation and instructional activities of a virtual program under this section, and the education services plan shall provide for reimbursement of the resident school district for such access pursuant to rules adopted by the department under this section.

(13) The authorization process shall provide for continuous monitoring of approved providers and courses. The department shall revoke or suspend or take other corrective action regarding the authorization of any course or provider no longer meeting the requirements of the program. Unless immediate action is necessary, prior to revocation or suspension, the department shall notify the provider and give the provider a reasonable time period to take corrective action to avoid revocation or suspension. The process shall provide for periodic renewal of authorization no less frequently than once every three years.

(14) Courses approved as of August 28, 2018, by the department to participate in the Missouri virtual instruction program shall be automatically approved to participate in the Missouri course access and virtual school program, but shall be subject to periodic renewal.

(15) Any online course or virtual program offered by a school district or charter school, including those offered prior to August 28, 2018, which meets the requirements of section 162.1250 shall be automatically approved to participate in the Missouri course access and virtual school program. Such course or program shall be subject to periodic renewal. A school district or charter school offering such a course or virtual school program shall be deemed an approved provider.

(16) A host district may contract with a provider to perform any required services involved with delivering a full-time virtual education.

4. (1) As used in this subsection, the term "instructional activities" means classroom-based or nonclassroom-based activities that a student shall be expected to complete, participate in, or attend during any given school day, such as:

- (a) Online logins to curricula or programs;
- (b) Offline activities;
- (c) Completed assignments within a particular program, curriculum, or class;
- (d) Testing;
- (e) Face-to-face communications or meetings with school staff;
- (f) Telephone or video conferences with school staff;
- (g) School-sanctioned field trips; or
- (h) Orientation.

(2) A full-time virtual school shall submit a notification to the parent or guardian of any student who is not consistently engaged in instructional activities and shall provide regular student progress reports for each student at least four times per school year.

(3) Each full-time virtual school shall develop, adopt, and post on the school's website a policy setting forth the consequences for a student who fails to complete the required instructional activities. Such policy shall state, at a minimum, that if a student fails to complete the instructional activities after receiving a notification under subdivision (2) of this subsection, and after reasonable intervention strategies have been implemented, that the student shall be subject to certain consequences which may include disenrollment from the school. Prior to any disenrollment, the parent or guardian shall have the opportunity to present any information that the parent deems relevant, and such information shall be considered prior to any final decision.

(4) If a full-time virtual school disenrolls a student under subdivision (3) of this subsection, the school shall immediately provide written notification to such student's school district of residence. The student's school district of residence shall then provide to the parents or guardian of the student a written list of available educational options and promptly enroll the student in the selected option. Any student disenrolled from a full-time virtual school shall be prohibited from reenrolling in the same virtual school for the remainder of the school year.

5. School districts or charter schools shall inform parents of their child's right to participate in the program. Availability of the program shall be made clear in the parent handbook, registration documents, and featured on the home page of the school district or charter school's website.

6. The department shall:

(1) Establish an authorization process for course or full-time virtual school providers that includes multiple opportunities for submission each year;

(2) Pursuant to the time line established by the department, authorize course or full-time virtual school providers that:

- (a) Submit all necessary information pursuant to the requirements of the process; and
- (b) Meet the criteria described in subdivision (3) of this subsection;

(3) Review, pursuant to the authorization process, proposals from providers to provide a comprehensive, full-time equivalent course of study for students through the Missouri course access and virtual school program. The department shall ensure that these comprehensive courses of study align to state academic standards and that there is consistency and compatibility in the curriculum used by all providers from one grade level to the next grade level;

(4) Within thirty days of any denial, provide a written explanation to any course or full-time virtual school providers that are denied authorization;

(5) Allow a course or full-time virtual school provider denied authorization to reapply at any point in the future.

7. The department shall publish the process established under this section, including any deadlines and any guidelines applicable to the submission and authorization process for course or full-time virtual school providers on its website.

8. If the department determines that there are insufficient funds available for evaluating and authorizing course or full-time virtual school providers, the department may charge applicant course or full-time virtual school providers a fee up to, but no greater than, the amount of the costs in order to ensure that evaluation occurs. The department shall establish and publish a fee schedule for purposes of this subsection.

9. Except as specified in this section and as may be specified by rule of the state board of education, the Missouri course access and virtual school program shall comply with all state laws and regulations applicable to school districts, including but not limited to the Missouri school improvement program (MSIP), annual performance report (APR), teacher certification, curriculum standards, audit requirements under chapter 165, access to public records under chapter 610, and school accountability report cards under section 160.522. Teachers and administrators employed by a virtual provider shall be considered to be employed in a public school for all certification purposes under chapter 168.

10. The department shall submit and publicly publish an annual report on the Missouri course access and virtual school program and the participation of entities to the governor, the chair and ranking member of the senate education committee, and the chair and ranking member of the house of representatives elementary and secondary education committee. The report shall at a minimum include the following information:

(1) The annual number of unique students participating in courses authorized under this section and the total number of courses in which students are enrolled in;

(2) The number of authorized providers;

(3) The number of authorized courses and the number of students enrolled in each course;

(4) The number of courses available by subject and grade level;

(5) The number of students enrolled in courses broken down by subject and grade level;

(6) Student outcome data, including completion rates, student learning gains, student performance on state or nationally accepted assessments, by subject and grade level per provider. This outcome data shall be published in a manner that protects student privacy;

(7) The costs per course;

(8) Evaluation of in-school course availability compared to course access availability to ensure gaps in course access are being addressed statewide.

11. (1) The department shall be responsible for creating the Missouri course access and virtual school program catalog providing a listing of all courses authorized and available to students in the state, detailed information, including costs per course, about the courses to inform student enrollment decisions, and the ability for students to submit their course enrollments.

(2) On or before January 1, 2023, the department shall publish on its website, and distribute to all school districts and charter schools in this state, a guidance document that details the options for virtual course access and full-time virtual course access for all students in the state. Any child, determined to be a child with disabilities, shall be eligible for such services upon reaching his or her third birthday and state school funds shall be apportioned accordingly. This subsection shall apply to each full school year beginning on or after July 1, 1991. In the event that federal funding fails to be appropriated at the authorized level as described in 20 U.S.C. 1419(b)(2), the implementation of this subsection relating to services for children with disabilities three and four years of age may be delayed until such time as funds are appropriated to meet such level. Each local school district and each special school district shall be responsible to engage in a planning process to design the service delivery system necessary to provide special education and related services for children three and four years of age with disabilities. The planning process shall include public, private, and private not-for-profit agencies which have provided such services for this population. The school district, or school districts, or special school district, shall be responsible for designing an efficient service delivery system which uses the present resources of the local community which may be funded by the department of elementary and secondary education or the department of mental health. 2. Every local school district or, if a special district is in operation, every special school district shall obtain current appropriate diagnostic reports for each child with disabilities [child] prior to assignment in a special program. 5. For the purposes of this act, remedial reading programs are not a special [education] educational service as defined by subdivision (4) of section 162.675.

6. Any and all state costs required to fund special education services for three- and four-year-old children under this section shall be provided for by a specific, separate appropriation and shall not be funded by a reallocation of money appropriated for the public school foundation program.

7. School districts providing early childhood special education shall give consideration to the value of continuing services with Part C early intervention system providers for the remainder of the school year when developing an individualized education program for a student who has received services under Part C of the Individuals with Disabilities Education Act and reaches the age of three years during a regular school year. (2) The category of young child with a developmental delay shall not be used to determine continuing eligibility for special educational services for a student who is seven years of age before August first of a given school year, but eligibility for special educational services may be determined for such students through any other disability category.

9. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. If the board of education of the district finds that no adequate program for handicapped or severely handicapped children is available in nearby districts or through public agencies, it may contract with any organization within the state or an adjacent state which has programs meeting the standards established by the state board of education. If such district fails to contract for such services, the state board of education may contract for such services with a nearby district or districts or public agency or agencies. If the state board of education finds, after investigation by the state department of education, that no adequate program for handicapped or severely handicapped children is available in nearby districts or through public agencies, the state board of education may contract with any organization within the state or an adjacent state which has programs meeting the standards established by the state board of education. Assignment of handicapped or severely handicapped children under this section shall be made to a particular school or program which, in the judgment of the state department of elementary and secondary education, can best provide special educational services to meet the needs of the child, and such assignment shall be made upon the basis of competent evaluation. The state board of education may seek the advice of established and ad hoc advisory committees in developing standards for

If the contract is with a public agency or an organization, the district of residence shall be entitled to receive state aid as provided in section 163.031 and in section 162.980. Where the state board of education contracts for special educational services pursuant to subsection 1 of this section, the state board of education shall submit to the responsible district a bill for the per pupil cost payable by that district under the terms of this subsection. Failure of a district to pay such cost within ninety days after a bill is submitted by the state board of education shall result in the deduction of the amount due by the state board of education from subsequent payments of state moneys due such district or special district.

3. If the state board of education determines, after inspection by the state department of elementary and secondary education and upon the recommendation of the commissioner of education, that handicapped or severely handicapped children residing within the district may better be provided special educational services by the district or special district of residence, the state board of education shall order the district to provide special educational services in accordance with sections 162.670 to 162.995.

4. If the state board of education determines, after public hearing before the commissioner of education held in the school district on due notice, that the district has failed to provide special educational services in accordance with an order issued under subsection 3 of this section, the state board of education shall withhold all or such portion of the state aid under sections 162.670 to 162.995 and under chapter 163 as in its judgment is necessary to require the district to carry out its responsibility under sections 162.670 to 162.995. The denial of state financial assistance hereunder may continue until the failure to provide special educational services is remedied.

5. No contract shall be made under sections 162.670 to 162.995 contrary to the provisions of Article I, Section 7 or Article IX, Section 8 of the Constitution of Missouri.

A tax-rate-weighted average daily attendance shall be calculated for each eligible district in proportion to its operating levy for school purposes for the current year divided by the performance levy with that result multiplied by the district's average daily attendance in the school year preceding the payment year. The total appropriation pursuant

The requirements of this paragraph shall be monitored and verified by the local school district which employs the holder of the career continuous professional certificate.

(c) A holder of a career continuous professional certificate shall be exempt from the professional development contact hour requirements of paragraph (b) of this subdivision if such teacher has a local professional development plan in place within such teacher's school district and meets two of the three following criteria:

Such fee shall be in an amount sufficient to recover any or all costs associated with the issuing of a certificate of license to teach. However, such fee shall not exceed the combined costs of issuance and any criminal background check required as a condition of issuance. Applicants for the initial ABCTE certificate shall be responsible for any fees associated with the program leading to the issuance of the certificate, but nothing in this section shall prohibit a district from developing a policy that permits fee reimbursement.

7. Such temporary allowance shall terminate at the end of the calendar month in which the earlier of the following events occurs: such member's death or the member's attainment of age sixty-five.

2. If each portion of a member's credited service is not covered by the same benefit program, then the member's total allowance for life shall be the total of the allowance for life determined under each applicable benefit program.

3. Each employer shall have the credited service of each of its members covered by benefit program L-1 provided for in this section unless such employer shall have elected another benefit program provided for in this section.

4. Except as otherwise provided in this subsection, each political subdivision, by majority vote of its governing body, may elect from time to time to cover its members, whose political subdivision employment is concurrently covered by federal Social Security, under one of the benefit programs provided for in this section. Each political subdivision, by majority vote of its governing body, may elect from time to time to cover its members, whose political subdivision employment is not concurrently covered by federal Social Security, under one of the benefit programs provided for in this section. The clerk or secretary of the political subdivision shall certify the election of the benefit program to the board within ten days after such vote. The effective date of the political subdivision's benefit program is the first day of the calendar month specified by such governing body, or the first day of the calendar month next following receipt by the board of the certification of election of benefit program, or the effective date of the political subdivision becoming an employer, whichever is the latest. Such election of benefit program may be changed from time to time by such vote, but not more often than biennially. If such changed benefit program provides larger allowances than the benefit program previously in effect, then such larger benefit program shall be applicable to the past and future employment with the employer by present and future employees. If such changed benefit program provides smaller allowances than the benefit program previously in effect, then such changed benefit program shall be applicable only to credited service for employment rendered from and after the effective date of such change. After August 28, 1994, political subdivisions shall not elect coverage under benefit program LT-4, benefit program LT-5, or benefit program LT-8. After August 28, 2005, political subdivisions shall not elect coverage under benefit program L-9 or benefit program LT-10(65).

5. Should an employer change its election of benefit program as provided in this section, the employer contributions shall be correspondingly changed effective the same date as the benefit program change.

6. The limitation on increases in an employer's contribution provided by subsection 6 of section 70.730 shall not apply to any contribution increase resulting from an employer electing a benefit program which provides larger allowances.

7. Subject to the provisions of subsections 8 and 9 **[and 10]** of this section, for an allowance becoming effective on September 28, 1975, or later, and beginning with the October first which is at least twelve full months after the effective date of the allowance, the amount of the allowance shall be redetermined effective each October first and such redetermined amount shall be payable for the ensuing year. Subject to the limitations stated in the next sentence, such redetermined

amount shall be the amount of the allowance otherwise payable multiplied by the following percent: one hundred percent, plus two percent for each full year (excluding any fraction of a year) in the period from the effective date of the allowance to the current October first. In no event shall such redetermined amount (1) be less than the amount of the allowance otherwise payable nor (2) be more than the amount of the allowance otherwise payable multiplied by the following fraction: the numerator shall be the Consumer Price Index for the month of June immediately preceding such October first (but in no event an amount less than the denominator below) and the denominator shall be the Consumer Price Index for the month of June immediately preceding the effective date of the allowance. As used herein, "Consumer Price Index" means a measure of the Consumer Price Index [for Urban Wage Earners and Clerical Workers,] as determined by the United States Department of Labor and adopted by the board of trustees [in effect January 1, 1975; provided, should such Consumer Price Index be restructured subsequent to 1974 in a manner materially changing its character, the board shall change the application of the Consumer Price Index so that as far as is practicable the 1975 intent of the use of the Consumer Price Index shall be continued]. As used herein "the amount of the allowance otherwise payable" means the amount of the allowance which would be payable without regard to these provisions redetermining allowance amounts after retirement.

8. [Subject to the provisions of subsections 9 and 10 of this section, for an allowance becoming effective on September 28, 1975, or later, the maximum allowance payable under the provisions of section 70.685 shall be redetermined each October first in the same manner as an allowance is redetermined under the provisions of subsection 7 of this section.

9.] (1) The system establishes reserves for the payment of future allowances to retirants and beneficiaries. Should the board determine, after consulting with the actuary, that the established reserves are more than sufficient to provide such allowances, the board may increase the annual increase rate provided for in [subsections] subsection 7 [and 8] of this section, as it applies to any allowance payable, but in no event shall the total of all redetermined amounts as of October first of any year be greater than one hundred four percent of the allowances which would have been payable that October first without such redeterminations; provided, as of any redetermination date the same annual increase rate shall be applied to all allowances with effective dates in the range of November first to October first of the following year. The board may extend the provisions of [subsections] subsection 7 [and 8] of this section to allowances which became effective before September 28, 1975; provided such an action by the board shall not increase an employer contribution rate then in effect;

(2) After August 28, 1993, the annual increase rate established by this subsection shall be a compound rate, compounded annually, and the four percent annual maximum rate shall also be a compound rate, compounded annually; provided, the use of such compounding shall not begin until October 1, 1993, and shall not affect redeterminations made prior to that date.

[10.] 2. Should the board determine that the provisions of subsections 7[, 8] and [9] 8 of this section are jeopardizing the financial solvency of the system, the board shall suspend these provisions redetermining allowance amounts after retirement for such periods of time as the board deems appropriate.

70.680. DISABILITY RETIREMENT — MEDICAL EXAMINATIONS REQUIRED, WHEN — OPTION. — 1. Any member in service with five or more years of credited service who has not attained the age and service requirements of section 70.645 and who becomes totally and permanently physically or mentally incapacitated for his duty as an employee, as the result of a personal injury or disease, may be retired by the board upon written application filed with the board

by or on behalf of the member; provided, that after a medical examination of such member made by or under the direction of a medical committee consisting of three physicians, one of whom shall be selected by the board, one by or on behalf of such member, and the third by the first two physicians so named, the medical committee reports to the board, by majority opinion in writing, that such member is physically or mentally totally incapacitated for the further performance of duty, that such incapacity will probably be permanent and that such member should be retired.

2. Upon disability retirement, as provided in subsection 1 of this section, a member shall receive an allowance for life provided for in section 70.655 and shall have the right to elect an option provided for in section 70.660. His or her disability retirement and allowance shall be subject to the provisions of subsection 5 of this section **[and to the provisions of section 70.685]**.

3. Any member in service who becomes totally and permanently physically or mentally incapacitated for his duty as an employee, as the natural and proximate result of a personal injury or disease which the board finds to have arisen out of and in the course of his actual performance of duty as an employee, may be retired by the board upon written application filed with the board by or on behalf of the member; provided, that after a medical examination of such member made by or under the direction of a medical committee consisting of three physicians, one of whom shall be selected by the board, one by or on behalf of such member, and the third by the first two physicians so named, the medical committee reports to the board, by majority opinion in writing, that such member is physically or mentally totally incapacitated for the further performance of duty, that such incapacity will probably be permanent, and that such member should be retired.

4. Upon disability retirement as provided in subsection 3 of this section, a member shall receive an allowance for life provided for in section 70.655; provided, that for the sole purpose of computing the amount of such allowance, he or she shall be given credited service for the period from the date of his or her disability retirement to the date he or she would attain age sixty. He or she shall have the right to elect an option provided for in section 70.660. His or her disability retirement and allowance shall be subject to the provisions of subsection 5 of this section **[and to the provisions of section 70.685]**.

5. At least once each year during the first five years following a member's retirement on account of disability, and at least once in each three-year period thereafter, the board shall require any disability retiree who has not attained his minimum service retirement age to undergo a medical examination to be made by a physician designated by the board. If the retiree refuses to submit to medical examination in any such period, his disability allowance shall be suspended by the board until his withdrawal of such refusal. If such refusal continues for one year, all his rights in and to a disability allowance shall be revoked by the board. If, upon medical examination of the retiree, the physician reports to the board that the retiree is physically and mentally able and capable of resuming his duty as an employee in the position held by him at the time of his disability retirement, then the board shall, if demanded by the retiree, arrange a further medical examination of such member made by or under the direction of a medical committee consisting of three physicians, one of whom shall be selected by the board, one by or on behalf of the member, and the third by the first two physicians named. Should the medical committee concur, by majority opinion in writing to the board, the disability retiree is capable of resumption of duty, his disability retirement shall terminate and he shall be returned to duty and he shall immediately again become a member of the system, his credited service at the time of disability retirement shall be restored to his credit, and the amount of his accumulated contributions at the time of his disability retirement shall be restored to his credit in the members deposit fund. If he was in receipt of a disability allowance provided for in subsection 3 of this section, he shall also be given service credit for the period he was in receipt of the disability allowance.

70.690. MEMBER LEAVING SYSTEM BEFORE ELIGIBLE FOR RETIREMENT, DISPOSITION OF HIS CONTRIBUTIONS. — 1. In the event a member ceases to be a member other than by death before the date he becomes entitled to retire with an allowance payable by the system, he shall be paid, upon his written application filed with the board, his accumulated contributions standing to his credit in the members deposit fund.

2. In the event a member dies, and no allowance becomes or will become payable by the system on account of his death, his accumulated contributions standing to his credit in the members deposit fund at the time of his death shall be paid to such person or persons as he shall have nominated by written designation duly executed and filed with the board. If there be no such designated person or persons surviving such member, such accumulated contributions shall be paid to his surviving spouse, or to his estate if there is no surviving spouse.

3. In the event a member's membership in the system terminates, and no allowance becomes or will become payable on his account, any accumulated contributions standing to his credit in the members deposit fund unclaimed by such member or his legal representative within [three] ten years after the date his membership terminated, shall be transferred to the income-expense fund. If thereafter proper application is made for such accumulated contributions, the board shall pay them from the income-expense fund, but without interest after the date payment was first due.

70.745. BOARD MAY INVEST FUNDS — CLOSED MEETINGS. — 1. The board shall be the trustees of the funds of the system. Subject to the provisions of any applicable federal or state laws, the board shall have full power to invest and reinvest the moneys of the system, and to hold, purchase, sell, assign, transfer or dispose of any of the securities and investments in which such moneys shall have been invested, as well as the proceeds of such investments and such moneys.

2. The board of trustees may deliberate about, or make tentative or final decisions on, investments or other financial matters in a closed meeting under chapter 610 if disclosure of the deliberations or decisions would jeopardize the ability to implement a decision or to achieve investment objectives. A record of the retirement system that discloses deliberations about, or a tentative decision on, investments or other financial matters is not a public record under chapter 610 to the extent and so long as its disclosure would jeopardize the ability to implement a decision or to achieve investment objectives.

70.746. BOARD MAY DELEGATE POWERS OF INVESTMENT, REQUIREMENTS — LIABILITY. — Notwithstanding any other provision of law to the contrary, the board of trustees may delegate to its duly appointed investment counselor authority to act in place of the board in the investment and reinvestment of all or part of the moneys of the system, and may also delegate to such counselor the authority to act in place of the board in the holding, purchasing, selling, assigning, transferring, or disposing of any or all of the securities and investments in which such moneys shall have been invested, as well as the proceeds of such investments and such moneys. [Such investment counselor shall be registered as an investment advisor with the United States Securities and Exchange Commission.] In exercising or delegating its investment powers and authority, members of the board shall exercise ordinary business care and prudence under the facts and circumstances prevailing at the time of the action or decision. In so doing, the board shall consider the long- and short-term needs of the system in carrying out its purposes, the system's present and anticipated financial requirements, the expected total return on the system's investment, general economic conditions, income, growth, long-term net appreciation, and probable safety of funds. No member of the board shall be liable for any action taken or omitted with respect to the exercise of or delegation of these powers and authority if such member shall have discharged the duties of

his or her position in good faith and with that degree of diligence, care, and skill which prudent men and women would ordinarily exercise under similar circumstances in a like position.

70.747. BOARD MAY INVEST IN REAL ESTATE. — Notwithstanding any other provision of law to the contrary, the board shall have full power to invest and reinvest the funds and moneys of the system in improved real estate, including collective real estate funds and real estate investment trusts, wherever situated[]; provided, however, that not more than one-tenth of the funds and moneys of the system at the time of such investment shall be so invested[].

70.748. FUND ACCOUNT AUTHORIZED FOR INVESTMENT PURPOSES — RULES. — 1. Notwithstanding the provisions of section 105.662 to the contrary, the board may set up and maintain a local government employee retirement systems of Missouri investment fund account in which investment and reinvestment of all or part of the moneys of the retirement system may be placed and be available for investment purposes.

2. For the purpose of investing the funds of the retirement system, the funds may be combined with the funds of any retirement plan that is administered by the retirement system under section 70.621 and any retirement plan established for the purpose of providing benefits for employees of the system, but the funds of each plan shall be accounted for separately and for all other reporting purposes shall be separate.

3. The board of trustees may promulgate such rules and regulations consistent with the provisions of this section as deemed necessary for its proper administration, pursuant to the provisions of this section and this chapter. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. The administration of the other pension plan shall be in accordance with the terms of such pension plan. Nothing in this subsection shall prevent the board of aldermen of a city not within a county from adopting ordinances to govern the pensioning of firefighters and such firefighters' covered dependents in any other pension plan simultaneously administered by the board of trustees of the retirement system.

87.145. BOARD HAS EXCLUSIVE ORIGINAL JURISDICTION — REVIEW — RULES AND REGULATIONS. — The board of trustees shall have exclusive original jurisdiction in all matters relating to or affecting the funds herein provided for, including, in addition to all other matters, all claims for benefits and refunds under this law, and its action, decision or determination in any matter shall be reviewable under chapter 536 only, and any party to the proceedings shall have a right of appeal from the decision of the reviewing court. The board of trustees may choose to invest the funds of the retirement system and the funds of the other pension plan in the same investments so long as the amounts invested and the gains, profits, or losses on such investments are accounted for separately. No benefits due to the firefighters or such firefighters' covered dependents from the other pension plan shall be paid from the funds of the retirement system. Nothing in this section shall prevent the board of aldermen of a city not within a county from adopting ordinances to govern the pensioning of firefighters and such firefighters' covered dependents in any other pension plan simultaneously administered by the board of trustees of the retirement system.
